Let me tell you about the remarkable discovery which removed my superfluous hair at once—then forever

To look at my face today, those who know me best would hardly believe that I was once literally a "bearded" woman with hair on my cheeks, chin and jaw and with a skin coarse and blemished.

I say that the discovery of a scientific superfluous hair remover is not a "beauty" discovery, and that I know of what I speak because I have used it.

The discovery which I brought to me is unlike anything else you have ever tried. It uses a powder, not a paste, and it works out a hair root at once and destroys it. It causes no pain, no burning, no itching, no swelling. It not only removes the hair, it gives the skin a new beauty. You use it once and you are free from pimples, roughness and other blemishes. It does not have to be applied by an expert, and you know that this is a permanent cure. The best, easiest way you can imagine.

My Free Book Tells the Secret—Send for It
