

MARKET NEWS OF THE DAY

Omaha Grain

Omaha, March 14, 1923. Omaha receipts today totaled 108 cars, as compared with 87 cars last year.

Demand for cash wheat on the Omaha market was fairly good, with prices firm and a shade higher. Corn was in good demand, 1-2 to 3-4c higher.

Prices of grain in the Chicago futures market displayed a very good undertone in the early session today. Liverpool wheat cables did not respond to our weakness of yesterday.

Chicago Grain

By Universal Service. Chicago, March 14.—Wheat emerged from a dull session today with moderate gains.

Liverpool and the uncovering of the best export business in wheat in the past injected a firm undertone which persisted to the last.

Wheat closed 1-8 to 3-8c advanced; corn was unchanged to 1-8c higher; oats were steady to 1-8c up; rye ruled 1-8c higher and barley closed unchanged.

Favorable news on crop conditions over the winter wheat belt was followed by pressure from southwestern houses during the first hour, but the market again repeated its well known characteristic of recovering from all depressions.

Corn Market Firm. Corn acted firm throughout, although final prices were a shade lower. There was fairly good buying by commission houses.

Oats furnished little excitement, but held firm with the rest. Northern houses were buying May and selling July rye in the way of shifting.

Provisions were irregular but firm. Lard advanced 1-8c; short ribs were unchanged to 5c lower.

PH Notes. Nebraska farmers are said to be preparing for a heavy wheat crop. The favorable showing made in many fields where the winter grade is considered in top condition to date is the latest news.

Financial

By BROADWAY WALL. By Universal Service. New York, March 14.—Optimistic trade reports continued to stimulate speculation in the stock market today.

Many issues were carried into the next session, trading broadened and more than a million shares changed hands. Gains ranged from 1 to 2 points in the most active shares and practically all departments participated.

Reports on expanding railroad traffic and further improvement in the steel industry were important influences contributing to the buoyancy. Motor shares, under leadership of Studebaker which is expected to declare an extra dividend, continued to discount earnings on the record business being done. Sugar shares also held better and in some instances made new top figures.

Call Money Rate Declines. Transportation shares were higher early in anticipation of favorable action related to the New York Central's dividend postponement of the meeting was followed by a reduction in speculative holdings.
