

### Endres Denies Profits Charge

**Cost of Feeding Prisoners Will Increase Under Commissioners, Sheriff Says.**

Comes now Sheriff Mike L. Endres with a general and sweeping denial of the charge he is getting rich feeding prisoners in the county jail.

Not only that; he predicts that within six months it will cost the county more than 50 cents a day to feed its prisoners, if the county commissioners, through a purchasing agent, get control of the feeding.

Nevertheless, Endres says, he is willing to turn over the responsibility of feeding persons confined in the county jail to the commissioners, provided the commissioners take charge of the jail.

He quotes the following figures on cost of feeding prisoners since 1915: For the year 1915, \$24,418.51; 1916, \$15,103.43; 1917, \$10,902.91; 1918, \$12,344.60; 1919, \$12,684.53; 1920, \$12,202.64; 1921, \$20,766.99, and 1922, \$12,068.74.

Rev. G. H. Schleh, 5519 Jackson street, also comes to bat for the sheriff.

He declares that figures recently published relative to the cost of feeding prisoners at the jail were incorrect. He asserts that the sheriff is pledged to sustain the law as he finds it, and that every fair-minded citizen will stand by him.

Mayor Dahlman will ask in his resolution to city council proposing exchange of departments by Commissioners H. W. Dunn and Dan B. Butler, that the changes become effective April 1.

In answer to a rumor that he would appoint Robert Samardick, general prohibition agent, chief of police, Mr. Butler said, "I do not know if Mr. Samardick wants the place."

### Rotarians Hear Talk on Fruits

**Robert Trimble, "Cabbage Row" Operator, Explains Difficulties of Dealers.**

Members of the Omaha Rotary club were told by Robert Trimble at Hotel Fontenelle yesterday noon that ingredients of the combination salad served came from California, Florida, Illinois, Iowa, France and Italy.

Mr. Trimble, who introduced himself as a native Nebraskan and an operator on "cabbage row" for 32 years, explained some of the difficulties encountered by dealers in fruits and vegetables.

"Nearly all perishable fruits and vegetables shipped to Omaha are paid for at originating points," Mr. Trimble said. "Much of the California fruit is sold while it is rolling. Rates from California to Omaha on this class of freight are the same as to New York."

Mr. Trimble stated that during 1922 total potato production in this country was 433,115,000 bushels and apples 216,529,000.

Harold Marsh offered some inside information about cheese, explaining where the holes came from and what becomes of them. He stated that Wisconsin has 2,600 cheese factories and produces 70 per cent of the cheese of this country.

B. A. Wilcox was chairman of the day. Nominations were made for directors, who will be elected on the

third Wednesday of April to succeed Ray C. Kingsley, John H. Lionberger and W. E. Reed.
