By ARTHUR BRISBANE-

Here is a new "American stunt." As the Aquitania was sailing from New York yesterday, a terrifically loud voice, that seemed to come from the heavens, or from no-where, shouted "Hello Aquitania, president of the Western Electric company, realized that his ofice was trying out a new radio instrument that magnifies the human voice 12,000 times.

That's important news for England. Send out over British colonies where primitive people live, in South Africa, Asia, etc., a voice from the heavens in the native dialect, saying that Mohammed, Buddha, or Cetebos, as the case might be, wishes all the faithful to revere and serve the British. What an effect that would have.

Phillip Snowden, labor member of the British parliament, pro-poses creating "The United States of Europe," to replace the present governments, frontiers, customs, armies, navies, etc. It would be ideal and it will come eventually, but not for many years, unless some conquering power from Asia should force it as fear of Germany forced a united command under Foch. Old hatred, envies, differences in language, religion and habits are too strong for any union, within a thousand years, unless it be forced.

They say that in floods and forest fires savage animals refrain in their fear, from killing their usual prey. Europe has not yet had her real forest fire, although that late war was a bad scorehing.

Ladies called "feminists" advocate trial marriage, to be followed by permanent marriage, if the trial is successful. That idea is older than feminism, and real marriage was started to do away

with trial marriage. Marriage is man's education, his test, his discipline, his ultimate destiny. He is not fit for it yet, being too near the monkey, whose life is one long "trial marriage."

The trial marriage theory is that couples about to be married do not know each other, cannot be sure of happiness together and a trial would diminish the number

of divorces. Men must learn to be married, and stay married, and only marriage, persisted in for a few thousand years more will make them fit for marriage.

The "owners," that sold the waste culm banks, dust, stone, shite and rubbish to the public 'coal," perpetrated a double fraud on the public and on the workmen that dug and handled the clum piles, without any pay for

Miners are paid only for good salable coal dug from the mines. They get nothing for digging the rubbish that goes in the dump, and that has recently been sold for

Officers of the miners' union should bring suit to compel payment to the workers for work done on the culm piles, and never paid for. As to the right of the miners to be paid, there can be no ques-The material dug and handled by them, and classed as worthless, has been sold at high-est prices. They are entitled to pay. Incidentally suits brought by the miners would bring into court the cheating of the public, a useful thing-if it happened to be the right court.

Sancta Maria chapter of the Catholic Daughters of America gave a copy of the Catholic Encyclopedia, a useful, interesting and complete work, to the public school of Belleville, N. J. Protest against keeping that work in publie schools was made by the follow ing imposing array: Junior Order United American Mechanics, the D. A. R., Royal Riders of the Red Robe, the Ladies of the Invisible Empire, Patriotic Order Sons of

We do not lack societies in the United States. All of these earnest Protestant ladies and gentlemen ought to have that Catholic Encyclopedia within reach, if only to study up on the word "index" which is an old idea. To say "you shall not read a book is to make sure that it will be read."

The Catholic Encyclopedia was moved from the public school to the public library.

To Vote on Sunday Movies.

Special Dispatch to The Omaha Bee.

Falls City, Neb., March 21.-Falls City citizens will have a chance to express their approval or disapproval of Sunday movies at the polls on April 3, the city council having decided to place the issue before the voters following a referendum petition which carried more than the required number of signatures

Have you heard the new Paderewski Duo-Art Rolls? They're maginificent.

An Important Statement by Mr. Paderewski: November 1, 1922. 'My attention has been called to the fact that the manufacturers of certain Repro-

ducing Pianos are advertising rolls bearing my name, for use with their instruments. "In justice to myself, and for the protection of the public, I deem it necessary to make the following statement:

"I have never played for any American reproducing instrument other than the The Duo-Art comes in six models: Steinway, Weber, Steck, Wheelock, Stroud and Acolian.
