Thousands Are Now Finding It Easy To Have the Trim, Slim Figure Dictated By Fashion and Admired By All

ARE you too fat? You shouldn't be. Without rigorous dieting or exercise--by a simple natural process--you should quickly and easily be able to have the slender fashionable figure that is so attractive.

Scientists have discovered that excess fat is often caused by the subnormal action of a small gland. Once this gland is healthy and functioning properly, your weight should reduce naturally, and without effort on your part, to the normal amount for your height.

And science has discovered a simple extract which tends to regulate the gland that controls fat. Without lifting a hand in unnecessary and violent exercise, you should find it a delightfully simple matter to have the ideal slender figure admired by everyone.

The wonderful thing about this scientific discovery known as Rid-O-Fat is that in losing your superfluous fat you gain added vigor, health and energy of mind and body.

Be Young--Feel Young Look Young

There is nothing which adds to a person's age so much as fat. A few extra pounds makes any man or woman look from five to ten years older. Not only that, the excess weight and increased heart action saps vitality and energy.

Once the gland which controls your fat is functioning properly your food should be turned into firm, solid flesh and muscle. As your weight comes down to normal you should experience a delightful and amazing improvement in your appearance. You should not only feel and look younger--you should actually be younger. You should also be in better health--a real health of energy--not the fictitious and deceiving health of fat that insurance companies say shortens the life 10 years.

Complexion, health and figure are improved at the same time. The result is a new vitality, magnetism and personal charm that makes for success. Tasks once hard become easy and life worth while.

Quick Results-- No Exercise-- No Dieting.

Rid-O-Fat, the scientific compound, comes in convenient tablet form, and is practically tasteless. You simply take one at each meal and bedtime. The results are often surprising in their rapidity.

Within a few days you should be conscious of a new feeling of energy and lightness, taking the place of that tired, worn-out feeling.

Quickly as the fat gland resumes normal functioning you should lose weight in a healthy, normal manner. Many fat, ungainly figures are in this scientific manner helped to regain their normal and idealistic proportions, giving that fashionable slenderness and athletic poise.

And all this time you live as you please.

Nature is doing the work. No more irksome exercise--no more denying yourself of all the things you like. Take just one small, pleasant, Rid-O-Fat tablet after each meal. Could anything be more simple?

A Fat Neck is a Social Handicap

Modern fashions prevent a woman from covering up her neck, and thus it becomes the focal point of attention. If the neck be fat, with unsightly rolls and wrinkles--if there be a double chin--then there is small hope of being fully attractive.

Notice the vast difference in the two pictures above. What can be more attractive than a slender, oval face, glowing with the color of firm, solid flesh and graceful, properly proportioned neck and shoulders?

Notice the vast difference in appearance and attractiveness between the fat and gracefully slender figures shown in the picture.
