

Inquiry on Love Launched in N. Y.

Bureau of Hygiene Sends Out Questionnaire to Matrons and Spinsters.

New York, April 3.—College women throughout the country have been asked by the Bureau of Hygiene, Inc., founded by John D. Rockefeller, Jr., to answer unusually frank questionnaires concerning love, it was learned today.

Questions put to unmarried women include: "How old were you when you first began to spoon?" "What effect, as you estimate it now, did spooning have upon the quality of your character?"

Why Not Married? "Will you give the reason why you have not married?" "What things are most stimulating to you?"

Married women and widows were asked these questions: "Has your married life been a happy one?" "If not, why not?" "Were you strongly attracted to your young man?"

"If so, how would you describe this attraction?" "Did you indulge with one or more young men in the intimacies usually embraced in the term spooning?"

As to Spooning. "If so, how far did you go in spooning?" "The purpose in asking these questions is to aid in solving vexing questions in hygiene."

"We must have more information about the average women in order to have any reliable guidance in the training of our girls and boys," the statement reads.

"The needed information covers items of personal tendency, personal experience and personal opinion. To be of real value much information must come out of the life experience of sensible and intelligent women who can be relied upon to furnish thoughtful and frank statements."

One Man Killed, Two Injured in Fight at Union Meeting

Cleveland, April 3.—One man was shot and killed and another probably fatally wounded in a fight which broke out during a meeting of Bridge and Structural Iron Workers' local union No. 17 last night. Riot calls brought all available police to the meeting hall.

A third man was less seriously hurt. The dead man is believed to be Bert Bowen of Lakewood. He was shot three times through the head and once through the breast.

John O'Brien, secretary of the union, was wounded three times. The shooting is said to have resulted from an argument precipitated by the presence in the hall of a drunken man.

Dudley, a plumber, asked for a writ of habeas corpus to free his wife from Mr. and Mrs. David Peterson. Business Boom in U. S. Is Sound

Washington, April 3.—The country's present business boom is on a sound foundation, Secretary Hoover said today, and there is good reason to expect a long continuance of prosperity.

"The business condition is marked just now by the fact that the goods are not accumulating," the secretary said. "Although production is at a high point, consumption is equally as strong. Goods are moving continuously through the channels of distribution and are not piling up in a way that might indicate a check to business activity would be possible."

"Likewise prices are not showing the runaway tendencies that we witnessed during war time and immediately after. Although economic forecasting is always hazardous, I can see nothing on the business horizon which indicates that reverses are due."

Injunction Against Union Organizers Is Suspended

Richmond, Va., April 3.—Temporary suspension of the injunction granted by Federal Judge McClintock of West Virginia, which restrained organizers from setting up local unions among miners employed by the Carbon Fuel company and other operators was ordered by the circuit court of appeals.

The effect of yesterday's order is to suspend enforcement of the injunction pending final decision of the court on the petition of the United Mine Workers for a supersedeas.

Movie Launched to Have Grand Jury Investigate Washington Society

Spokane, Wash., April 3.—Petitions asking federal grand jury investigation of statements of alleged misconduct in Washington, D. C. society circles, will be circulated at once in leading Pacific coast cities, it was announced by H. C. Harris, chairman of a citizens committee arranging for the petitions.

This was the latest development of the furor started by newspaper articles by Mrs. Elizabeth G. Penderexter, wife of former Senator Penderexter of this state, now ambassador to Peru, detailing gambling and drinking episodes as every day affairs in the nation's capital.

The petitions, Harris explained, would be addressed to Attorney Daugherty and would ask that a federal grand jury be empaneled at Washington. At once to investigate Mrs. Penderexter's statements, Harris added that this was the first time any senator's wife had made any such startling allegations concerning Washington social life.

Harris stated that the petitions would be circulated in Los Angeles, San Francisco, Denver, Portland, Tacoma, Seattle, Salt Lake City and Spokane.

"We cannot enforce the law if law makers are law breakers," would be the campaign motto of the petitioners, he said.

Bishop Predicts Talk With Dead

Right Rev. Herman Page Sees Conversations as Possible as Wireless.

Spokane, Wash., April 3.—Church people and many others interested in the possibilities beyond life were discussing today the prediction made here yesterday by Rt. Rev. Herman Page, bishop of the Spokane diocese of the Protestant Episcopal church, that communication with the spirits of the dead "will eventually be as possible as it is now to communicate by wireless."

Bishop Page made this forecast at a meeting of Spokane Ministerial alliance. He took occasion to give recognition to the Christian Science church, which, he said, would progress as long as other churches refrained from taking part in the movement of spiritual healing. The bishop added that he had "no" antipathy toward spiritualism.

In his opinion, "the world today is drifting toward a spiritualistic movement which, though still in its infancy, may develop to great heights."

"Christian Science is the religion to which the sick turn. Since other churches have not taken up mental healing in any way, people naturally turn toward the Scientists. Until the other churches make a constructive progress in that line, the Scientists will progress more rapidly in the art."

New Type of Gas Mask Perfected by Army Scientists

New Haven, Conn., April 3.—Perfection of a mask that will give protection against all poison gases, including carbon monoxide, was announced by Brig. Gen. Amos A. Fries, chief of the chemical warfare service of the United States army, at the dinner given to the council of the American Chemical society by the New Haven Chamber of Commerce last night. The new mask, or what General Fries described as an "all purpose canister," has particular value for fire fighters and men engaged in fumigating ships or buildings.

General Fries spoke more particularly of adaptation to peacetime use.
