

# Schulte Has Great Record as Mentor

Contigation on the Cornhuskers' defeat in track at the hands of the California Bears recalls that the meet is the first outdoor dual affair that Coach Schulte has lost since he came to Nebraska. And going farther into records, it is learned that the Huskers' defeat by Ames last year was the first defeat in a dual indoor meet that a Schulte trained track team has sustained in nine years. Nine years ago, Missouri, coached by Schulte, lost to the Missouri Tigers.

Here is Schulte's record at Nebraska:  
Season 1921.  
Nebraska beat Kansas, 64 1-3 to 52 2-3.  
Nebraska beat South Dakota, 94 5-6 to 26 1-6.  
Nebraska beat Haskell Institute 150 6-0 to 25 1-4.  
Indoor Record, 1922.  
First indoor valley conference meet won by Kansas, 34 1/2.  
Nebraska runners up with 33 2-3 points.  
Nebraska lost to Ames 49, to 44, in a dual meet.  
Outdoor Record, 1922.  
Nebraska beat Kansas, 72 2-3 to 58 1-3.  
Nebraska beat Ames, 74 to 53.  
Nebraska beat Kansas Aggies, 8 to 43.  
Missouri Valley conference champions, Nebraska, 49; Kansas, 34; Ames, 36.  
Nebraska's greatest achievement was in holding California's national collegiate championship team to a 75 to 56 score.  
Nebraska's schedule for the rest of the season is:  
Kansas Relays, April 29-31.  
Drake Relays, April 27-28.  
Kansas University at Lincoln, May 2.  
Kansas Aggies at Manhattan, May 18.  
Missouri Valley conference at Ames, May 25-26.  
It is predicted that the Jayhawks and the Kansas Farmers will both fall before Schulte's team. And it is likewise believed that while K. U. may "own the Valley" in basket ball and in indoor track, it will meet its

# Cressy Tells Lions Club Romance of His Poems of War

Actor Requested by Omaha Divine to Compose Poem, Which He Dedicated to Fallen Soldier.

"I like the young fellows—they have more kick and getup to them; that's why I like the Lions," Will M. Cressy, headliner at the Orpheum theater, told 100 members of the Lions club at their noonday luncheon Tuesday at Hotel Fontenelle.  
Mr. Cressy is a member of the Duluth Lions club.  
He stated he had been coming to Omaha for the past 29 years and if that continued much longer he would be put down as one of the oldest inhabitants.  
Commenting on his growth, he said: "I do not doubt that Omaha is better now, but we had more fun then," adding, "the fun is here now, too, but you have to hunt for it and pay more for it."  
He related how Buffalo Bill always made it a point to come to Omaha when he was on the Orpheum circuit.  
Mr. Cressy exhibited an elk's tooth, presented to him by Buffalo Bill, with the history that this tooth had been given to him by an Indian woman and that the tooth had been buried in the grave of an Indian chief for 90 years.  
Mr. Cressy has written several poems, among them "The Little Red Flag With One Blue Star," which meant that some mother had given her only son.  
He stated that in his travels he had seen evidence of the poem in homes on the prairie, the tenement district and in the homes of the rich.  
After returning from France, while giving an engagement here at the Orpheum, he stated that late Rev. T. J. Mackey requested him to write a poem entitled "When the Blue Star Turns to Gold."  
"That rung in my ears that night, and I immediately set about to car-

ry out the idea Rev. Mr. Mackey gave me, with the result that on every gold star of the late war is inscribed these four lines of my poems:  
"I was in the infinite wisdom,  
Has called him to his fold;  
We still fly the flag of crimson,  
But the blue stars turn to gold."  
This poem was dedicated to the memory of Stanley Mackey, son of Rev. Mr. Mackey, who lost his life in the war.  
Mr. Cressy said there were 1,500 of these gold stars lying on the breast of Nebraska boys, placed there by J. M. Buck.

## Loss Caused by Rot and Rust Colossal, Asserts Speaker

"Property owners of Omaha are suffering an annual loss of \$935,000, due to depreciation by rust, rot and deterioration. This amounts to \$5.15 per person, compared with an annual fire loss in Omaha of only \$4.72 per person," declared Arthur M. East of Philadelphia, business manager of the "save the surface" campaign, who was guest of the paint and varnish manufacturers and wholesalers of Omaha today at Hotel Fontenelle for luncheon.  
"This loss," Mr. East said, "is almost entirely due to careless neglect of property, and can be prevented by the use of paint and varnish. In spite of the fact that the nation is years behind with its home building program, and that the cost of lumber and labor has greatly advanced during the last few years, more than \$1,000,000,000 worth of standing property is allowed to rot and rust away each year simply because owners fail to give it the necessary surface protection."  
English Divorces Fall Off.  
London, April 17.—Domestic felicity is steadily gaining strength in England and Wales, if recently published statistics regarding divorce may be taken as a criterion. During 1921, the number of divorces in these countries declined by 33 per cent. In the previous year matrimonial suits showed an increase of 35 per cent over the pre-war totals.  
In recent years additional facilities have been accorded to poor persons seeking divorce in England, and this has brought a large increase in the number of cases. During the last nine years 24,209 matrimonial suits were filed. Of the 3,461 suits entered in 1921, 1,792 petitions were filed by husbands, and 1,759 by wives. In 95 per cent of the cases the petitioners were successful.

# Teachers Deny Any Disloyalty

Omaha Pedagoges Take Exception to Charges of D. A. R. Speaker.

Omaha public school teachers rise to a point of privilege to take exception to the statement reported to have been made by Mrs. George Maynard Minor, president general of the D. A. R., at the national congress of this organization at Washington, D. C.

Mrs. Minor is said to have declared that there are more than 8,000 disloyal teachers in American schools.  
Disloyal Teacher Novelty.  
"I have never seen a disloyal teacher," asserted Miss Margaret O'Toole, principal of Comenius school. "Such a teacher would be a novelty to me."  
Mrs. Alice Peterson, principal of Dundee school replied: "My experience in Omaha schools and with Omaha teachers has been to impress me with the belief that there is a high degree of patriotism among our teachers. They are 100 per cent patriotic."  
Calls Statement "Silly."  
"Mrs. Minor's statement is silly," said Miss Lida S. Burnett of Lothrop school. Her indictment does not apply to Omaha teachers, and that I know. She probably spoke only with her lips—without thinking what she was saying."  
Members of the D. A. R. were not quite so outspoken in their opinion of Mrs. Minor's statement.  
"I do not care to be quoted," said Mrs. R. C. Hoyt.  
Mrs. R. A. Finley said: "I have always held the teaching force of our country very highly, but I am not prepared to refute the statement made by Mrs. Minor."  
Rather Broad.  
Mrs. A. R. Fernald, former president of the Omaha Woman's club, stated that Mrs. Minor is an able and fine woman.  
"She must have some facts on which to base her statement, although I am inclined to doubt her figures. Her statement is rather broad," Mrs. Fernald said. "It may be if the situation was correctly analyzed 8,000 disloyal teachers in the"

United States would be a very small per cent."  
Miss Fannie Adams, sister of Miss Anna Adams, public school teacher, did not wish to be quoted.

# Colonial Transactions Are Read in Mail Fraud Trial

On June 29, 1919, the Guaranty Securities company bought 5,000 shares of Colonial Timber and Coal corporation stock at \$20 a share from the Colonial concern.  
The next day the Guaranty company, of which Willard V. Mathews was president, bought 5,400 shares from E. D. Mathews, at \$100 a share.  
These transactions were read from the Guaranty books by Robert Huston, government expert accountant, at the trial in federal court of 15 defendants for mail frauds in connection with the two concerns.  
Other sales of the stock were recorded as follows: 600 shares from E. D. Mathews, December 21, 1920, at \$50; 5,000 shares at \$50, March 25, 1921.  
The Guaranty Securities company and other concerns of which Mathews was head are now defunct.  
Despite the fact that France is facing one of the worst financial crises in history, approximately \$500,000,000 is to be spent for municipal improvements of Paris.

# The SPORTLIGHT

**THE FAN REVIVAL.**  
Now the gleam is in his eye  
As he hurries forward past one,  
For the blue is in the sky  
And the Hop is on the Fast One;  
And the two-base hits are booming.  
Where the fibert trees are blooming  
As the swinger takes his swipe,  
And the nuts are getting ripe.  
There is fever in his bones  
Where he's rained in chorus,  
And his lusty, strident tones  
Sweep the atmosphere before us;  
There's an end to all his glooming  
And the world's no longer tripe  
Where the fibert trees are blooming  
And the nuts are getting ripe.

As Professor Cobb and his Detroit Tigers are picked by many critics to hold the Yankees at bay, a comparison of their main powers forms one of the most interesting documents of the season. Huggins presents his main argument from the defensive side in the shape of six striking pitchers—Bush, Shawkey, Hoyt, Maya, Jones and Pennington. Cobb presents his rebuttal, from the attacking side in the form of 12,300 hitters, embracing nine regulars and three reserves. Cobb will rush to battle the best scoring machine in the game—and Huggins will counter with the best pitching staff.

Past statistics show that strong pitching staffs have won more pennants than heavy hitters, unaided by good pitching. But to offset this Cobb believes he will also put on a pitching show of merit and if this happens there may be the dickens to pay in the Yankee camp. Not forgetting that the White Sox concede nothing to either party.

Floyd Johnson has his share of cleverness, but the husky young westerner seems to be lacking the old kick that knocks an opponent cock-eyed or scrambles up his cerebellum. In his last three starts he has shown no punishing power. The art of socking is largely a matter of leverage, which Dempsey has, and old Fitz had to a marked degree. It is a gift that not many have. Of those coming on Flippo in this respect is in the lead, as crude as he is in the science and fitness of his chosen profession.

In response to one or two queries on the subject we should say that if Hagen, Sarazen and Jim Barnes also head for the Troon district the United States will have an even chance of retrieving the main British golf cup for the third year in succession, something few believed remotely possible a year or two ago. Their main opponents then would be Duncan, Mitchell, Boomer and Ted Ray. Hagen is already primed. Barnes has been steadily moving forward of late, and if Sarazen gets back to his 1922 pace the trio will be formidable enough to give the homesick cup another pang.

## Golf Team Off for England

New York, April 17.—Nine members of the American Walker Cup golf team, accompanied by several other amateur players and officials of the United States Golf Association, leave today on the Mauretania, seeking conquests on British links.

They will compete as individuals in the British Amateur championship at Deal, beginning May 7, and a week later, at St. Andrews, Scotland, as a team will defend the international trophy donated by George H. Walker of St. Louis. The last minute loss of Chick Evans of Chicago former national champion who was forced to withdraw because of pressure of business, was a heavy one to the team. His place will be filled by either Jack Neville of San Francisco, or Guy Standiford of Washington, D. C., who will accompany the team, both being entered for the British amateur title. The choice will be made on ship board.

The party includes Robert A. Gardner, captain of the team; Jess W. Sweater of Yale, national amateur title holder; Francis Quimet, of Boston, and S. Davison Herron of Chicago, former champion; George V. Rotan of Houston, Tex.; Dr. O. E. Willing, of Portland, Ore.; Fred Wright of Los Angeles; Max Marxten of Philadelphia, and Harrison R. Johnston of St. Paul.

Special Pin Match.  
The state doubling championship will be decided on Wednesday evening at the Omaha bowling alleys, when Ted Neale and Al Krug will roll the Scipio brothers, Ralph and Kenneth, in a special match. These two teams of doubles rolled the same score at the state tourney at Lincoln, and are rolling one game to determine the winners. Both scored 1,159 pins at the state meet.

O'Connor Plays With K. of C.  
Johnny O'Connor, last year with the K. C. Columbus, American league champs, has been signed up by the K. C. class "A" teams to play first this year. O'Connor was the fastest first sacker in the American loop last year and was well up in the batting averages.

Contracts Accepted.  
The Metropolitan League moguls held their final meeting last night before the opening of the playing season, which takes place next Sunday. The meeting was held at the City hall.  
Contracts of the players were admitted or rejected, several because of

## "The question I cannot answer"

THE nearest I can come to explaining the ability to select tobacco is to say that it is an instinct—a certain ability to tell by sight, or touch, or smell, what is fine tobacco and what is not.

When I was a youth, employed in a cigar factory, I had this peculiar ability. My employer would not buy one pound of tobacco until I had passed judgment on it. And when I became a cigar manufacturer it proved to be of inestimable value in securing the finest tobacco for La Palina.

There are times when I feel that this instinct has temporarily deserted me. Sometimes when I am in Cuba I will refuse for several days to look at any tobacco rather than jeopardize the quality of La Palina by making a selection when I am uncertain of myself.

The methods employed in making La Palina are equally important. Men who have served this company for many years train and supervise each of our cigar-makers. Each one must know exactly how to combine the tobaccos that produce the La Palina flavor and how to arrange the leaf tips so that this flavor lasts as long as you smoke the cigar.

Every member of this organization works for the satisfaction of La Palina smokers. Because I know this to be true, I confidently say to you: If you will smoke one La Palina you will join the ranks of those who have made it the leading high-grade cigar in the United States.
