

Today

Daugherty's Remedy.
Mice Also Dance.
If Russia Finds Gold.
The Eta Want Equality.

By ARTHUR BRISBANE

Sugar climbed to its highest Thursday for the present grafting boom. Cuban raw sugar doubled the price of a few weeks ago. Gamblers were having a pleasant time, which included buying and selling of 1,500,000 tons and delivering only 900 tons.

Then came a surprise. Attorney General Daugherty, who means business, applied for an injunction to forbid "speculating in futures"—gambling to make the price of sugar go up. It is time for such an injunction here. French law punishes with imprisonment at hard labor anybody caught gambling to put up the price of food.

Dr. Cummings, head surgeon of the United States health service, says "marathon dancing" is old. A dancing craze swept Europe 500 years ago, toward the end of the 14th century. In London crowds began dancing, whirling around four and five days at a time without stopping. Then they fell from exhaustion; many died.

Old pictures of "The Dance of Death," that you may see here and there in Europe on cemetery walls, were painted after great plagues, when human beings sought mental relief in dancing.

Some of our animal brothers have the same craze. The dancing or whirling mouse, which spins around with incredible speed until it drops, presents a diseased condition of the brain. The Japanese breeders select such weak-minded mice—they have one side of the brain under-developed—and succeed in breeding a strain of mice all crazy dances.

The latest dance news, in case you want it, is that Arthur Howard Klein of Cleveland danced 88 hours without stopping, and Mildred Duvall, still dancing, has eclipsed the ladies' record of 77 hours and 45 minutes, belonging to Miss Rose Smith. But don't be a dancing mouse.

The Petrograd Academy of Science is sending engineers to look for gold in the far north and other regions; also for precious stones. Gold exists in far northern Rus-

sian mountains. If the Russians find enough of it, you will be surprised to see how quickly they will become "respectable" in the eyes of other nations.

Also, if they find enough gold, notice how rapidly they will begin modifying their present notions about property. Gold is a wonderful solvent of radicalism.

The "Eta" of Japan demand recognition as human beings. Three million Japanese called "Eta" are treated as pariahs are treated in India.

How the unfortunates came to be looked upon by their Japanese brothers as vile inferiors nobody knows. Perhaps they were descended from or confounded with the hairy ainus, ancient inhabitants of the Japanese islands, much despised by their conquerors.

At all events their determination to prove themselves "as good as anybody else" is bothering the Japanese government.

It is hard to keep men down once they learn to read and get newspapers.

Bubbles in mineral water are made by carbonic gas. That same gas is created by natural processes in your own system. Scientists at the National Jewish hospital for consumption have discovered that carbonic acid gas is deadly poison to the germ of tuberculosis.

The one effort of scientists is to find something that will kill germs without killing the patient. The idea is like killing a fly with a slap of the hand, and men kill it, not with a blow from a rock, the method used by the bear in the fable, killing the man as well as the fly.

Somebody in the Missouri legislature introduced a bill to substitute the Ten Commandments and the league of nations for the constitution of the United States and for all other laws. That's about as intelligent as some other suggestions in favor of the league of nations.

The speaker of the Missouri lower house declined even to refer the suggestion to a committee, and that's what the voters ought to do with the league of nations suggestion.

Another still-born child has been brought back to life by the injection of adrenalin into the heart, this time at the hospital of Spring Lake, N. J. Twice after the injection the baby died. The third time it remained alive. And it is still living as this is written. All methods of resuscitation failed. Before, we could not answer the question, "What is life?" and now we can't answer, "What is death?"

Jews to Arrange Rabbi's Welcome at Rally Sunday

Governor Bryan and Mayor Dahlgren Serve on Reception Committee of Zion Movement Leader Next Week.

Every Zionist will be on hand at a Sunday evening at the Jewish Community center, Lyric building, at the greatest Jewish rally Omaha ever witnessed.

Rabbi F. Clachnowitz will address the rally. Preparations will be made for a unique Zionist reception to Dr. Chaim Weizmann upon his arrival at Omaha Thursday afternoon. This was determined upon at a conference of all the synagogues of Omaha, represented by their officers, and special committees from each synagogue will be at the station to greet the leader when he arrives.

In addition, special meetings will be held Sunday and Monday at the synagogues, addressed by distinguished visiting rabbis. Rabbi Clachnowitz will speak at the B'nai Israel, Eighteenth and Chicago streets, Saturday morning at 10 and at the Bet Hamedresh, Nineteenth and Burt streets, at 4 in the afternoon.

Bryan Welcomes Leader. Governor Bryan has issued the following statement:

The state of Nebraska is ever ready to extend a wholehearted welcome to the leaders of the world; and in the case of Dr. Chaim Weizmann, a world renowned scientist and statesman, a leader among his people, a moral builder for the future, it is my privilege to extend him a hearty welcome to the state of Nebraska upon his visit, April 26, 1923, to Omaha, and gladly accept the honorary chairmanship of the Weizmann reception committee.

CHARLES W. BRYAN, Mayor's Statement.

The city of Omaha will be honored by the visit of Dr. Chaim Weizmann, Thursday, April 26, 1923. Dr. Weizmann, a citizen of England, professor of biochemistry at Manchester university, leader of the Jews the world over, diplomat and statesman, has won the admiration of the world leaders. The Balfour declaration, San Remo mandate, and the founding of the Hebrew university on Mt. Olive, Palestine, were inspired by Dr. Weizmann.

Omaha is proud to honor the scientist, statesman and leader, and as mayor, I request citizens, irrespective of political, religious and racial affiliations, to join me in paying appropriate honor to this distinguished visitor upon his arrival to our city Thursday afternoon, April 26, 1923.

I shall also appoint a special reception committee to take care of the details.

JAMES C. DAHLGREN, Mayor.

"Lone Star" Hans Is Eulogized

Pastor Praises Hardy Existence of Former Indian Scout Killed by Elevator.

Funeral services for Fred M. (Lone Star) Hans, killed Tuesday night when crushed by an elevator in the World-Herald building where he was employed as night watchman, were held Friday afternoon at 2 at the F. J. Stark mortuary.

Rev. Charles W. Savidge delivered the funeral sermon. He eulogized the hardy, pioneer existence of the former Indian scout, and pointed to his 18-year search for a brother, stolen by the Indians, as an example of his true-heartedness and devotion. "He believed in God and in right principles," the pastor declared. "There must have been a great deal of good in a man, who, from his 14th year, looked for his lost brother for 18 years."

Rev. Mr. Savidge declared that Hans was one of the first men to come upon the scene of the Custer massacre and said it was Hans' opinion that Custer was not killed by the Indians, but that he committed suicide, for the reason that his body was not mutilated. The Indians, he said, never mutilated the body of a man who committed suicide. Mrs. C. E. Brinkman sang "Somewhere the Sun Is Shining" and at the closing of the services, "Nearer, My God, to Thee."

Burial was in West Lawn cemetery.

School Law Codification Bill Advanced in House

Special Dispatch to The Omaha Bee. Lincoln, April 20.—House roll call, calling on the governor to appoint an unpaid commission of six, one from each congressional district, and the state superintendent to investigate school laws and conditions with a view of preparing a codification of these laws, was advanced to third reading by the house.

Governor Offers Bill to Cut Inspection Fees

Special Dispatch to The Omaha Bee. Lincoln, April 20.—Governor Bryan sent a bill to the house for consideration today which calls for reduction of oil inspection fees from an average of 6 to 3 cents a barrel. The governor stated that this bill is a result of a supreme court decision holding present charges are too high.

Mr. Bryan and Evolution

This Subject Will Be Discussed By

Rev. Ralph E. Bailey at

FIRST UNITARIAN CHURCH

Turner Blvd. and Harney St. Sunday A. M. at 11 o'Clock

Broken Bow Minister Invents New Air Craft

Special Dispatch to The Omaha Bee. Broken Bow, April 20.—Rev. Robert B. Smith, inventor of a new aircraft, which he calls an "aircycle," gave an address before the Public Service club. Rev. Mr. Smith has a model now nearing completion. The big advantage of this machine is that it lifts straight up at the start and does away with a landing field. The inventor has worked on the idea 17 years, and during that time seven models have been made. There are 25 patents covering various features of the machine. Mr. Smith figures that if a manufacturing plant of 10,000 capacity is built, the machines, holding two passengers, can be sold for \$1,500.

Women Voters Oppose Bills Backed by Sportsmen

Special Dispatch to The Omaha Bee. Grand Island, Neb., April 20.—The League of Women Voters today adopted a resolution protesting against the state expenditure of \$65,000 involved in the bills for the propagation of pheasants and the purchase of morasses in the sandhills for the entertainment of duck hunters. The resolution reiterated the demand for reduction of taxes made in the campaign.

Irrigation Commissioner Measure Passes House

Special Dispatch to The Omaha Bee. Lincoln, April 20.—The lower house passed the Kreh bill on third reading today. This bill empowers the governor to appoint a commissioner to negotiate a compact between Nebraska and Colorado respecting use and disposition of waters of the South Platte.

War Veteran Dies

Special Dispatch to The Omaha Bee. Falls City, Neb., April 20.—John Davis, 84, resident of Richardson county since 1867 and captain in the Third Wisconsin regiment in the civil war, died here. He is survived by a daughter and one son. Funeral services will be held Sunday.

Bryan Will Name Bank Committee Within Few Days

Measure Passed by Both Houses Was Identical, Senator Declares—Will Pass "Lost" Clause.

Special Dispatch to The Omaha Bee. Lincoln, April 20.—Governor Bryan will appoint members of the guaranty fund commission, under terms of the new banking bill, some time next week, it was announced at his office.

The governor yesterday wrote a communication to the senate saying he could not appoint a commission, as he had discovered that a provision relative to sale of banks taken over by the commission had been left out of the official copy of the bill.

Following a conference with the banking committee today, he was assured that the "lost provision" would be attached to house roll 237, "a bill making it necessary to get permission from the state banking department to issue rediscounts. Prior to this conference, Senator Clarence G. Bliss, chairman of the banking committee, issued the following statement:

"Our committee has carefully checked house roll 272 as passed by the senate and also as passed by the house and find that the bill as passed in both bodies was identical and therefore there are no discrepancies in the bill.

"We further find the amendment referred to by Governor Bryan was not given consideration either in the senate or in the house, although it had been the intention of the standing committee on banking to embody this in the bill. Since this was an oversight, we have incorporated this amendment in house roll 237, and it will undoubtedly pass both bodies in the next few days."

Thirty-seven unions in Germany have a membership of more than 5,000,000.

Thompson, Belden & Co.

Saturday—

A Sale of Suits

Every suit in this offering is brand new and purchased for this event. The qualities are thoroughly excellent, the only sort Thompson, Belden & Company are willing to offer their patrons. The sale prices afford
