

Harding Will Turn Guns on Court Critics

President to Answer Savage G. O. P. Attacks in Speech Before Editors in N. Y. Tomorrow.

By International News Service. Washington, April 23.—Thomas W. Miller, alien property custodian, after a conference today with President Harding, issued a formal statement in which he said it was "certain" that the republican party in the next election will nominate President Harding.

Mr. Miller reported to the president on public opinion as he had found it during a month's trip through the west, but he said his statement as given out later had not been laid before the executive.

Washington, April 23.—The policy of silence which President Harding and chief cabinet aides have observed in the face of savage republican attacks on the world court proposal will be abandoned this week and the administration will reply to its critics.

Tomorrow the president will deliver his first formal address in many weeks. It will be made before a convention of newspaper publishers in New York. Friday, Secretary of State Hughes will deliver a prepared address before the American Society of International Law. These addresses may be regarded, it was said today in administration quarters, as the opening guns in the world court fight which now seems certain to hold down the political boards during the approaching summer.

The speeches of both the president and the secretary of state will be directed principally to members of their own party who have not hesitated to condemn in vigorous fashion the Harding-Hughes-Hoover international program.

Those republican irreconcilables who have publicly expressed their fears that entering the league court means eventually entering the league of nations itself through the "back door" will be assured by Mr. Harding that his position with regard to the league is unchanged. The line of division between the league and the league court will be sharply marked out and emphasized.

WOMAN SICK TWO YEARS

Caused by Troubles Women Often Have—Relieved by Lydia E. Pinkham's Vegetable Compound

Medina, New York.—"I had a great deal of trouble such as women often have, and this affected my nerves. For over two years I suffered this way, then I read in the Buffalo Times about Lydia E. Pinkham's Vegetable Compound and have taken it with very good results. I am very much better and feel justified in praising the Vegetable Compound to my friends and neighbors who suffer from anything of the kind."—Mrs. W. E. ADKINS, 311 Erin Road, Medina, N. Y.

Feels Like Girl Sixteen

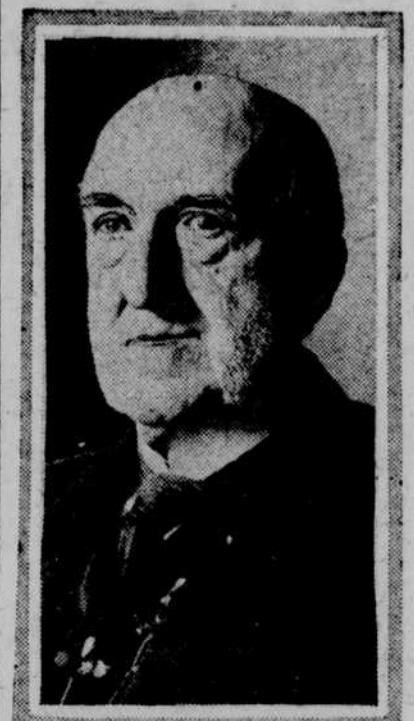

Rochester, N. Y.—"After my twin girls were born I was all run-down. My neighbors thought I was going to die. I saw your advertisement in the paper and bought Lydia E. Pinkham's Vegetable Compound. The first bottle helped me and I kept on taking it. I only weighed ninety pounds when I began taking it, and I have gained in weight and feel like a girl of sixteen. I never can say enough for Lydia E. Pinkham's Vegetable Compound."—Mrs. NELLIE DOREY, 16 Skuse Park, Rochester, N. Y.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 37 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth"—bad breath—a dull, tired feeling—a sick headache—torpid liver—constipation—you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime. Thousands take them every night just to keep right. Try them. 15c and 30c.

Depew Celebrates Birthday Today

Chauncey M. Depew

New York, April 23.—Chauncey M. Depew, on the eve of his 89th birthday, told the secret of his perpetual health. "Forget your business and worry at sunset, devote yourself to your hobby until bedtime and you will never grow old," said the former senator and railroad executive. "My hobby has been speechmaking. I have 12 volumes of speeches made by me. That is not all of them. But they have been the best doctors and nurses a man ever had. "I have been in politics 70 years. They are much cleaner than when I entered the field. You have honest elections today. You had crooked elections when I began looking for political advancement."

Wilson Cannot "Come Back." He was talking on his favorite subject now and continued; "Woodrow is too physically incapable to come back, either as president or leader of his party. I would not attempt to predict who the democrats will nominate as president. Joseph Daniels says it will be McAdoo? Daniels thinks he is a politician."

A Queer World

"Lie Detector" Bares Cheating by California U. Students in Final Exams.

Confess. Berkeley, Cal., April 23.—Four students of the University of California have confessed to cheating in final examinations, as the result of the application to them of a device known as the "lie detector," according to a statement by the men's and women's student affairs committee of the institution.

The device used was invented by Prof. John Larsen, former university student and now a member of the Berkeley police force. The statement said 70 students were under suspicion and many of them would be "tested."

Won't Make It Compulsory. Constantinople, April 23.—The Angora assembly has rejected the bill introduced recently by the deputy for Erzerum, providing that all Turks aged 25 must marry and that each couple must have a child every three years.

By this measure the deputy had hoped that the population of Asia-Minor might be increased from 8,900,000 to 48,000,000.

Defense Opens in Fraud Case

Ancient Maps and Abstracts Cited to Prove Company's Title to Lands.

Efforts of the 14 defendants in the Colonial Timber & Coal corporation mail fraud cases to prove that the Colonial has valid title to 700,000 acres of land in West Virginia began Monday in federal court when Lucien B. Fuller, one of the defendants, began his testimony with numerous maps and abstracts and old fashioned land descriptions.

"Beginning at two sycamores half a mile above the fork of Coal river and Cabin creek, extending up the former 465 poles to a dogwood and white oak; thence east to a beech standing in a bend of Coal river, 1,275 poles distant."

This is a typical description in an abstract covering several pages and describing 54,800 acres, surveyed by Andrew Johnson and completed August 29, 1783. This is part of the Richard Smyth grant under which the Colonial company claims the vast lands in West Virginia which it used as a basis for issue of millions of dollars of stocks and bonds.

Judge Woodrugh, according to the request of A. M. Salak of Schuyler, one of the jurors, ordered no session of court today in order that Salak can attend the funeral of his mother-in-law.

This is the first time in the trial that illness or death has caused a postponement, though the trial is in its sixth week.
