By VINCENT RICHARDS.

Universal Service Staff Correspondent. New York, April 27-Many of the braska State league pitcher. He has greatest tennis matches in the history of the game have been won or lost on the strength or weakness of a backhand drive. Ever since the time that the famous California comet, Maurice E. McLoughlin, first came east the backhand drive has come in for much discussion.

The fact that a man could win the national singles championship of America with only a service and a volley game astonished the critics. But let us not lose the sight that "Red Mac" was a pioneer in the lawn tennis game at that time. Until he flashed across the tennis horizon the critics had never seen an American twist service or a volley game such as he used.
