

Identity of "Clara" Near Confirmation

Letter Addressed to "Jackson" Believed to Be Meant for Brother-in-Law, Whose Wife Was in Trial.

By International News Service. Los Angeles, Cal., April 27.—Mrs. Etta May Jackson, the "baby sister" of Clara Phillips, "hammer murderer," believed to be the woman held under provisional arrest at Tegucigalpa, Honduras, with the name of Clara Phillips, was linked today with establishing the almost positive identity of the woman held in the South American republic as Mrs. Phillips, after authorities had shown an exclusive and copyrighted International News Service dispatch from Tegucigalpa.

he was coming. The reply to this message, signed "Ben Norton," stated he was coming, as well as sending "Jack," and to await his letters. The name, "Ben Norton," here is believed to be the way Jackson signed the message to hide his identity. Mrs. Jackson, before her marriage to R. S. Jackson, was Miss Etta May Weaver. Her husband is known to be an oil man and rancher near Tampico and it was believed by officers here, in view of the telegram found in "Mrs. Young's" possession, that "Jackson" is Mrs. Phillips' brother-in-law and has been in constant communication with her and supplying her with money. Mrs. Jackson was a witness at Mrs. Phillips' trial here last October and November, and stated then her home was Tampico, Mexico.

Special Election Is Sought for Rural Electric District. Special Dispatch to the Omaha Bee. Fremont, Neb., April 27.—A petition was filed in district court requesting that a special election be called to allow the residents of a proposed Scribner rural electric district to vote on a \$90,000 bond issue for the establishment of the district and the construction of light and power lines. This is the first petition for a charter to be filed under the passage of the new amendments by the legislature on April 18. A district had been created previously in Saunders county, but due to technicalities on the levying of taxes, was found to be illegal. The petition is signed by 78 freeholders. Should the bond issue be approved, an electric light and power line, connecting with the plant at Scribner will be constructed.

Defendant on Stand for Fourth Day in Fraud Trial. Lucien B. Fuller began his fourth consecutive day on the witness stand yesterday in the trial of himself and 13 others in federal court on charges of mail fraud in promotion of the Colonial Timber and Coal corporation. Half an hour was used in receiving testimony of character witnesses. Judge L. S. Hastings, Judge H. J. Rogers, Arthur Myatt and George Schweiser of David City, and Judge B. F. Good of Lincoln, testified that Fuller's reputation was good. Charles Sellick, receiver of the Midland Savings bank, Lincoln, testified that the reputation of Rev. Charles H. Rogers, former pastor of Plymouth Congregational church, Lincoln, and former official of the Midland concern, was good.

Pile Driver Crew Injured in Accident at Fremont. Special Dispatch to the Omaha Bee. Fremont, Neb., April 27.—Edwin J. Lunn, 26, Bonesteel, S. D., and A. Peterson, 23, Omaha, members of a Northwestern construction crew, were seriously injured late Thursday afternoon when they were struck by a pile driver. The crew was working at the Chautauqua siding, one mile west of Fremont. The injured men were working at the base of the driver when something broke in the mechanism of the machine, allowing the heavy weight to descend. Peterson attempted to scramble to one side, but one arm was caught beneath the driver and badly mangled. Lunn is more seriously hurt, suffering internal injuries, doctors believe.

Surgery Heals Crippled Girl

Children's Home Society Ward Now Can Romp and Play Like Others.

The days of miracles may be past, but modern medical science continues to accomplish healings that seem quite miraculous to many.

Pretty Esther Rutt, 14, is one of those who consider modern surgery capable of performing miracles. For although she had become resigned to the idea of walking her way through life on crutches, she now is able to cast her crutches aside and walk like other happy, normal little girls. Esther was quite a normal, healthy baby at birth. When she was 3 years old, however, someone placed her in a tub of icy water. Rescued from the tub some time later, she was blue with cold, and rheumatism resulted. Her left leg was drawn up so that it was quite useless, and for 11 years she was unable to romp and play. She was discovered last fall by Rev. C. E. Ryder, superintendent of the Beatrice district of the Nebraska Children's Home society, brought to Omaha and placed in the hands of Rev. H. B. Ralls, head of the society. Rev. Mr. Ralls took her to Dr. Robert Schrook, who is on the association's medical staff.

Invalid Child Made Well by Operation

U. S. Withdraws From Siberian Consulate at Vladivostok Ordered Closed—Russ Action Cause.

By Associated Press. Harbin, Manchuria, April 27.—S. Pinkey Tuck, American consul at Vladivostok, has announced that he is leaving the soviet far eastern capital with his staff May 1, and has advised all Americans in the country to do likewise, according to advices received today. It was also stated that Vice Consul Edward B. Thomas, stationed at Chita, is leaving on the same date.

By Universal Service. Washington, April 26.—Russia has taken a new tack to force nations which have not already done so, to recognize it as a nation entitled to all diplomatic privileges. It was reported here yesterday on good authority that the Russian government has canceled the consular status of S. Pinkey Tuck, American consul at Vladivostok, and that he and consular representatives of other nations not friendly to Russia, have been ordered to leave the country. The act of the Russian government is equivalent to expulsion, but it will be some days before he will be here to get the facts in the case, so as to give them the proper political appreciation.

Will Force Issue. One official view here is that by taking such a drastic step Russia believes that the United States and the other nations involved will be forced to take up their commercial and other issues direct with the home government at Moscow. It is believed that, rather than resentment at the protests regarding the killing of clericals, is the real motive behind the Russian policy. State department officials declined to comment on press dispatches stating that Great Britain is threatening to break off all relations with the soviet government. Inasmuch, however, as British consuls are to be expelled from Vladivostok, it is entirely probable that Great Britain knew of Russia's intention to expel them, and is now threatening retaliation.

A Queer World

Woodpecker Knocks Antonio Caruso's House for Row of Portholes—Police Called, But It's No Use.

Woodpecker Knocks Antonio Caruso's House for Row of Portholes—Police Called, But It's No Use. Won't Stop. Portland, Ore., April 27.—Antonio Caruso complained to the police two days ago, that a woodpecker had knocked his house for a row of portholes, where no portholes were needed and that it was still actively on the job each day from dawn to breakfast time. "She peck and peck," said Antonio, "and my house he look worse lak you call day by day. I say shoo, but she no go way. I want to kill her."

The police department delegated an officer to execute the bird. The federal game warden warned the police that woodpeckers were federal property or wards of the government, or something, and couldn't be disposed of thus summarily. The policeman developed a streak of diplomacy and asked to be relieved of the job because the bird finished work too early in the morning for him to catch it.

The police department detailed Patrolman James Kelly, night officer on the beat, to dispose of the bird. Kelly announced the federal government couldn't stop him from shooting the woodpecker but has not yet executed his commission. Meanwhile, the woodpecker pecks. Caruso rises early to make vain attempts to "shoo she away," and the federal game warden awaits developments.

Arrives. Chicago, April 27.—Merle E. Jones reached Chicago last night on top of a passenger train. His wife and children rode in a day coach. They came from Portland, Ore., and are bound for Rochester, N. Y.

"I was ill and couldn't work any more and decided to return to my old home," Jones said. "I had just money enough to buy tickets for my wife and the children, so decided to ride the top." Jones was covered with cinders and nearly blind. The Travelers' Aid society extended relief to the family. Bee Want Ads are the best business boosters.

Bank Funds Used for Bootlegging

Officials of York, Pa., Institution Estimate Thousands Used to Finance Ring.

York, Pa., April 27.—Officials investigating the shortage of funds at the City bank of York, estimated at approximately \$1,000,000, declared today that thousands of dollars of depositors' money had been used to finance a bootlegging syndicate that had its headquarters in a prominent local club.

Violin 278 Years Old. Portland, Ind., April 27.—A Jacob Steiner violin, made in 1645, is in every day use in the home of William Bond, owner of a local laundry. The violin has been in constant use during its 278 years of existence.
