OMAHA GRAIN

Omaha, May 4. Omaha receipts totaled 80 cars against 92 cars last year. Total shipments were 140 cars as compared with 184 cars a year ago.

The demand for wheat on the Omaha market was only fair, unchanged to a cent lower. Corn was steady, but 1 cent lower. Oats sold 12 cent but 1 cent lower.

Strong and higher wheat cables were responsible for an initial upturn in prices in the Chicago market at the start today.

Wheat was bought of wheat by two prominent houses connected with the seaboard. Later when one of these houses started to sell, locals followed and ran the market into top loss orders, resulting in a sharp reaction.

Corn and oats also tumbled heavy. The break in wheat to some extent on the break in the market was supported by commission and a moderate advance was recorded from the lowest figures.

Liverpool cable: Broomhall says: "The market opened lower on larger shipments from the Argentine, the greater portion of which is destined to Belgium and France."

George M. Lecouty writes from Buenos Aires: "From Kinsley to Dodge City fields are again in grain. It came too late to save wheat crop in this territory which has thin good spotted with an occasional good field."

The general average indicates a light crop here and there. The season's progress is not so good as last year. The general average indicates a light crop here and there.

Yield in the northern territory is not so good as last year. The general average indicates a light crop here and there. The season's progress is not so good as last year.

Modern Millers weekly report says: "A full crop inquiry by the Modern Millers indicates winter wheat crop is backward and very little seedling done, others advise that possibly 10 to 15 per cent has been completed."

Some of our correspondents report decrease in durum acreage with corresponding increase in acreage sown to bread wheat, an increase in flax and corn acreage indicated, but extent of increase cannot be definitely estimated since it will depend largely on weather conditions during next two weeks."

FINANCIAL

New York, May 4.—A distinct change for the better occurred in the stock market this afternoon following the establishment of new low levels for the year in stocks.

The lowest prices for the year were reached during the noon hour when losses in the standard industrial and rail ran from 1 to 3 points.

Those who have been most active in the market have been the railroads, which have had a long and steady decline.
