

Pretty Writer Gets \$11,000 in Suit on Stock

Former School Teacher of Omaha Moves Hearts of Jury With Tale of Her Loss.

Mrs. Bozena Grotte, former school teacher and writer, who is said to have been one of the most beautiful women in Nebraska at the time of her residence in Omaha 11 years ago, was given a verdict of \$11,000 by a jury in District Judge Troup's court against Harry and Julius Rachman, wealthy Omahans.

Mrs. Grotte, who is now living in Los Angeles, Cal., has just completed a book, "The Origin of Numbers," that has created comment among eastern book publishers.

Mrs. Grotte in her suit testified that because of her confidential friendship three years ago, the Rachmans knew of her having \$11,000 worth of Burgess-Nash company preferred stock.

The Rachmans, she testified, because of this friendship, asked her to turn over to them this stock for some Stroud "Red Wagon company" stock. This she did with the verbal agreement, she testified, that the Rachmans promised to double her money in six months and that when ever she needed the money at any time they would return the stock with 7 per cent interest.

The Rachmans took the Burgess-Nash stock and later sold it to a broker. Later control of the Stroud company changed hands and the stock has not paid dividends.

The jury, after being out an hour, returned a verdict for Mrs. Grotte for the full amount with 7 per cent interest for three and a half years.

New Comet and Star Announced at Harvard

Cambridge, Mass., May 9.—A new comet and a new star were added to the known spots in the heavens by discoveries announced at the Harvard college observatory today.

Rev. Joel H. Metcalf of Portland, Me., clergyman-astronomer, who has to his credit the discovery of several stars and comets, added another to his achievements by finding a comet in the constellation Ophiuchus. His discovery, made on the night of May 7, is a comet of ninth magnitude, too faint to be seen with the naked eye. It was near the star Alpha Ophiuchi and was moving slowly. It appeared round, he said, and brighter on the southwest side.

From the Lowell observatory at Flagstaff, Ariz., and from Lampland, an astronomer who has discovered many variable stars and changes in nebula, announced that he had found a new star in the great spiral Nebulae Messier 83. It is a tiny spot, of 14 magnitude, visible only through a powerful telescope. This nova was found by Lampland on May 3.

Principals in Strange Lincoln Tragedy

Warren J. Lincoln, a well-to-do Aurora (Illinois) man, has strangely disappeared from his home. A blood-stained Indian club was found in the rear of his home, together with signs of a struggle. At the same time Lincoln's wife, Mrs. Lina Shoup Lincoln, from whom he was estranged, and her brother, Byron Shoup, who had had an altercation with Lincoln, vanished, and no trace of them has been found. Lincoln lived alone with Marie Klein, a 12-year-old girl, who acted as his housekeeper and who has given the police much valuable information. Lincoln's mother is a Nebraska woman.

U. S. Phone Tax \$200,000 a Year

Patrons in Nebraska Pay This Amount Annually, Company Official Testifies.

Telephone users of Nebraska pay \$200,000 a year to the federal government in taxes when they pay their telephone bills, Harry A. Livermore, statistician for the Northwestern Bell Telephone, brought out at the rate hearing before Referee Dunham yesterday.

It was pointed out that the tax to the federal government is 8 per cent of the total revenue obtained. Livermore also testified that from 1921 to 1922 the telephone company paid \$1,100 to the federal government as taxes on telephone bills that were never collected.

Edgar Morsman, jr., attorney for the telephone company, through questions asked Livermore brought out that the tax on telephone tolls must be paid the government even though the bills might be bad debts, never collectible.

Livermore spent the day showing the separation between toll and exchange charges.

6,000 Members King Ak Edict

No Letup in Drive Until Full Quota Reached, Range Bosses Declare.

"We must get 6,000 members" was the ultimatum handed down by the 10 range bosses of the Ak-Sar-Ben ranch to their many range foremen and cowboys following a lunch at the Brandeis grill yesterday noon.

"I'm not worried about my gang of cowboys," said William Kohler, "Wild Bill," who is boss of Range 5, said that his gang will lasso as many mavericks as the next gang.

Bill Baumer, he keeps limbered up traveling the insurance range, is working in the open plains with his men. "We'll trim 'Wild Bill' Kohler to a frazzle," said Boss Baumer. "Just watch our smoke."

Ralph Newell, big chief of the Broncho Busters, and the other bosses are working silently. "When the smoke of battle is over, let the results talk," said Newell.

Overseer J. E. Davidson, chairman of the membership committee, is keeping a close eye on all the range bosses.

"I can't wear this hat any longer," says Samson Charles Gardner. "It is getting too warm."

Davidson that he would wear a big cowboy hat until the 6,000 members were obtained.

Many firms are arranging to obtain memberships in Ak-Sar-Ben for their employes on a 50-50 basis. The Nebraska Power company and its employes bought 75 memberships. The Union stock yards followed with 69 memberships. Orchard-Wilhelm company bought 10 and Schmoeller & Mueller 11.

Secretary Gardner announced yesterday that the big jubilee carnival will be held downtown this year instead of out at the exposition grounds, as it was held last year.
