1,400 Million More Years.  
Trouble Ahead.  
Henry Ford Well Fixed.  
By ARTHUR BRISBANE

A scientist declares that preventive medicine, within 50 years, will add 14 years to the average American life, raising that average from 55 to 69. Do you realize how that would increase wealth and efficiency?

For a man taught and trained, the years from 55 to 69 should be life's best years.

Adding 14 years to the average life would add fourteen hundred million years of mature human ef-

fort to every generation. What would that be worth to the nation? What would it be worth to a railroad if it could add 14 years to the working life of every locomotive?

Trouble is coming, England has sent a battleship to prevent Russia seizing English boats outside the three-mile limit. Russia might send some TNT carrying flyers to meet that battleship, and that would start something serious. If that should happen, Europe would like very much to have United States men and money on tap through a league of nations membership or through world court decisions as to our duties and responsibilities.

The Wall Street Journal, analyzing Henry Ford's business, puts his net profit on each car at \$55. On his present output, 8,000 cars per day, that would be \$39,000,000 profit in a year of 300 working days. Add \$19,000,000 annual profit on parts, plus \$15,000,000 profit from other sources, and you see that Mr. Ford is unusually well fixed. The

moral is: To beat your competitors, give value.

It costs this country every year \$300,000,000, and 150,000 lives. Eighty in 100 of the dollars and lives are lost needlessly. The National Protection association, meeting in Chicago, gives figures. The biggest trouble is in our system of fire insurance. Extortionate rates make the companies indifferent to fires. Insurance methods encourage carelessness among owners and promote arson among criminals. But that is nobody's business. Insurance should be government business and there should be no insurance for firetraps in which families are housed. Refuse insurance and owners will take precautions.

Man's best friend, the noble dog, makes a mistake sometimes. Harry Murch, 16, saw a faithful dog keeping watch, apparently, near a dead dog's body. Interested, the youth drew near and the live dog bit him in the leg, thinking he meant to steal the dead dog. The attitude of animals toward death in their own tribe differs greatly. A live horse has intense fear of a dead horse. A live chicken treats its dead comrade as though it were alive, clucks cheerfully, notices no change. Man's attitude toward death in his tribe also varies. Some enjoy funerals, some fear them, all share, to some extent, the horse's dread of a body with its life gone.

An able doctor upsets many theories, including the idea that marvelous memory is a sign of healthy intellect. On the contrary, ability to forget trivialities and devote the mind to important things only is the sign of health, as life advances. Too much attention to detail, especially to petty economies not necessary, is also a bad sign, so the medical authority of the London Times tells you.

Recent cold weather is due to cold air accumulated in the Arctic regions, finally breaking through and flooding the United States, something like a flood, after an ice gorge, so the weather man tells you. It is not the sun getting out of order, for which you may be thankful. The slightest trouble with our sun and this earth would be frozen, the oceans solid ice.

China rebuked, is told she has no right to call herself a republic if she cannot control her brigands. She shows politely, and asks why we, old republic that we are, do not control our lynching parties, then we bow politely and change the subject.

(Copyright, 1923.)

**Farm Home Burns.**  
Special Dispatch to The Omaha Bee.  
Beatrice, Neb., May 11.—Fire of undetermined origin destroyed the home on the J. H. Fuller farm southwest of Ellis. The place was occupied by John Nickerson and family. The loss is placed at \$5,000 with \$3,000 insurance.

**Married 50 Years.**  
Special Dispatch to The Omaha Bee.  
Gering, Neb., May 11.—Mr. and Mrs. S. S. Pechin celebrated their golden wedding anniversary at their farm home near here. Their children, six sons and two daughters, were in attendance. Mr. and Mrs. Pechin moved here from Hamilton county five years ago.

## Fight Against Plague Urged

Nebraska Tuberculosis Association Holds 15th Annual Meeting in Omaha.

The 15th annual meeting of the Nebraska Tuberculosis association was held Thursday night in Hotel Fontenelle with Dr. S. R. Towne, president of the association, chairman, and Col. J. M. Banister, medical corps, retired, toastmaster.

In the president's address, he pointed out that approximately 100,000 persons die annually with tuberculosis. "The death rate caused from this disease should not be so large," said Dr. Towne, "and it would not be, if persons would consult a physician in time. Do not wait until the germ is found before beginning treatment."

**Army Officer Talks.**  
Col. William B. Banister, who has spent several years in the Philippine islands and who has participated in every campaign fought by the United States since the Apache trouble in 1885, told of conditions as they exist in the islands and the fight being made by the government to wipe out or at least curb the ravages of the white plague.

Henry Monsky, active in city and state social organizations, explained the practicability of the federation of all social agencies under one head and the function of a community chest.

**Report of Secretary.**  
Mrs. K. R. J. Eilholm, executive secretary of the association, in her report for 1922, stated that the Nebraska Tuberculosis association is not a charitable institution in the accepted sense of the word, but one which positively made for better and healthier children, thereby laying the foundation of a healthier race in the future.

Reports were read by various committees and Dr. L. T. Sidwell spoke on the Nebraska hospital for tuberculosis.

Cho-Cho, health clown, attended with 100 children from Ralston school. The clown entertained the children, at the same time giving them advice as to how they should care for themselves.

**Four Members of I. W. W. Found Guilty of Felony**

Los Angeles, May 11.—Four members of the Industrial Workers of the World were found guilty of felony today and nine others acquitted by a jury in the superior court, which deliberated since Thursday, closing a trial started January 31.

Those convicted were Alfred Kohn, criminal syndicalism, and John Nolan, Herbert White and Paul Ware on charges of conspiracy to commit criminal syndicalism.

The men acquitted made a statement in court that they were no less guilty than the four convicted and that while they did not wish to plead guilty, they felt an injustice had been done and announced themselves ready to accept the same penalty that was meted out to their codefendants.

With their verdict the jury brought into court a written recommendation that the four men found guilty be deported. The court set Tuesday for passing sentence.

## Hardy Pioneer, Aged 75, Elopes With Widow, 61

Special Dispatch to The Omaha Bee.  
Hardy, Neb., May 11.—F. W. Watkins, 75, wealthy, pioneer citizen, eloped with Mrs. A. G. Bates, 61, widow, of this place. Mr. Watkins was a bachelor and farmed for 20 years near Hardy, conducted a hardware store here for 15 years, and about two years ago moved to Brewster, Kan. Mrs. Bates, who owns residence properties here, has lived here many years and has a grown family. They were married at the courthouse at Nelson and will reside at Hardy.

## Broken Bow Business Men Holding Sales Institute

Special Dispatch to The Omaha Bee.  
Broken Bow, Neb., May 11.—The business men of Broken Bow and vicinity are holding a five-day retail merchants institute with Ben Vardaman and Pryor Irwin, both of Chicago, as instructors. At a noonday luncheon each day, a 30-minute address is given by Mr. Vardaman, who also conducts a question box. In the evening, a lecture given at the Public Service club and Mr. Irwin conducts a round table, in this manner assisting the business men solve any problems he may have. The institute is conducted under the auspices of the Public Service club and the attendance at each meeting has been good.

## Saline County Barn Burns; Loss Estimated at \$7,500

Special Dispatch to The Omaha Bee.  
Western, Neb., May 11.—Fire totally destroyed a barn, 12 head of heavy work horses, all harness, quantities of feed and 15 tons of hay and caused a total loss estimated at over \$7,500 on the farm of Alfred J. Ewing, northeast of Western. The barn, built five years ago at a cost of \$5,000, was one of the largest in Saline county. The fire started from the inside and is supposed to have been caused by a cigar stub. The farm is owned by Frank Bartos, Wilber, attorney, who had \$2,500 insurance. No insurance was carried on the contents.

## Omaha Goodwill Delegate Is Married in New York

Special Dispatch to The Omaha Bee.  
New York, May 11.—Miss Edith Burwell, Omaha's goodwill delegate to France, was married today to Graham Hughes, advertising manager of the Journal of the American Institute of Architects. The ceremony was performed at the home of the bride's brother, Dr. E. Leslie Burwell, New Rochelle, N. Y.

It is estimated that \$800,000 is being spent each month around Amsterdam, Holland, by the United States in the purchase of cut or partially cut diamonds.
