

Shopping Economy
By MRS. HAROLD H. ALLEN.

How to Select Ribbons.
Women use ribbons for so many practical purposes these days, that some guide for economy in purchasing them will be of value. Where shoppers once asked only for attrac-

tive designs and color in ribbons, they now insist on durability and value as well.
Of course the designs in ribbons change every year, according to the prevailing fashion, but there are certain staple lines which remain always in favor. And even if the purchase is intended only for one season, the best is nearly always the wisest choice.
The simplest of all weaves is "tabby" weave, or that found in

taffeta ribbon. Taffeta, satin, and many other weaves are exactly like the materials of that name which you buy at the yard goods counter. But "double-faced" ribbons do not correspond to any other silks. Double-faced, satin, and satin-backed velvet are examples of these. The cheaper grades of velvet ribbon are cotton-backed. Two-toned ribbons are made in this way, having contrasting colors on opposite sides, as for example, a

black or navy ribbon may have a scarlet or yellow back.
Changeable silk ribbons are made with warp and weft of different colors. Sometimes there are two colors in the warp, and one in the weft.
Each weft or "filling thread" in a ribbon is called a "pick." Satin ribbon has only about 90 picks to the inch, while taffeta has about 120.
Do you often wonder why satin ribbons so often "catch," and wear

rough? That is because in the making of them, such a large number of the crosswise or filling threads are woven on the surface of the ribbon to give it luster. Satin ribbon is also "calendered" to increase their luster.
Taffeta ribbons usually have "weighting" in them to give body and stiffness, and many ribbons receive a large amount of glue or other "sizing" in the finishing process. That

is why cheap taffeta ribbon splits where it is creased, or tied into a bow. Soft, unweighted silk shows its beauty better, and will give longer wear.
Grosgrain ribbons have a cross-rib of cotton woven in them to give extra-strength. Be sure to note whether the silk threads used are also thick and heavy enough to stand the strain of the heavier ones, or the silk threads will soon wear out along the cotton rib.

Many of the cheap ribbons have the designs printed only on the surface, but the best varieties are warp-printed or woven on the loom.
The width of ribbons is standardized up to No. 12. Thus, one-half inch wide is asked for as No. 2; one-inch wide, as No. 5; and one and one-half inch as No. 12.

New Party in Japan
Osaka, Japan, May 12.—Sanji Muto,

Omaha Bee "Want" Ads are dependable.
A prominent business man of Omaha and president of the Kanegafuchi Cotton Mill company, has organized a new political party representing the interests of the commercial and industrial community.
It is the first party in Japan to represent the commercial and industrial classes, and will participate in the general elections next year.
Bee Want Ads Produce Results.

Mother

"All that I am today, or hope to be, I owe to my angel Mother."—Abraham Lincoln.

WHEN Abraham Lincoln wrote these words, he was simply turning back the pages of history; for Mother worship, with its rites and ceremonies, extends back into pagan times.

When congress passed the bill setting aside the second Sunday in May as "Mother's day," it established a custom which probably appeals to the average person more than any other observed in this age of commercialism.

The arrival of Mother's day in the calendar of our nation's festivals is significant, rich in sentiment, tender in meaning. It is an outward demonstration of the latent love and gratitude which the world owes to mothers—from whose flesh and blood the race of man is fashioned and from whose hopes and prayers the faith of man is molded.

With the carrying out of this loving and sacred duty comes the realization of the growing lack of tender consideration for absent mothers among worldly minded, busy grown-up children and of the thoughtless neglect of home ties caused by the whirl and pressure of modern life.

Every citizen, whether old or young, rich or poor, happy or sorrowful, remembers her whose love passeth human understanding, and exerts every effort to make her day a time of tender remembrance. Each of us should pause to remember that friends come to men, and loves; but never such sweet friendship, such true love as mothers know.

As long as this nation shall endure may "Mother's day" be continued.
