Today

Now You Hear Opinions A House on the Roof Mr. Dempsey Will Box The Boys of California By ARTHUR BRISBANE

You begin now to hear opinions. Senator King of Utah, who studies and knows politics, says if the democrats would name Ford, he would be elected. But they won't name Ford, says King; they will name McAdoo, and he will be cleeted unless unprecedented prosperity lasts up to the election day, in which case Harding will be re-

That's it, It depends on Secretary Mellon. If he, who knows finance as Sarazen knows putting, can keep money plentiful, easy to borrow, without any inflation explosion, Harding will get in. His campaign speech will be short: "If you are tired of \$14 a day, vote

for someone else."

One of the ablest republican senators, who knows farmers better than any other republican, said to this writer: "If the democrats should nominate Ford, he'd be elected overwhelmingly. Millions of republican farmers would vote

"But the democrats feel very independent and think they don't need Ford. So they won't nominate

Meanwhile, remember Ralston of Indiana, and Hiram W. Johnson, and some others, and all the things that can happen between now and November, 1924.

Mr. Harry S. Black of New York is building a town house on top of the new addition to the Plaza hotel, which is 18 stories high.

All the comforts of home on top of a hotel will amuse Europe as another "American idea." Mr. Black may have in mind beating the hanging gardens of Babylon and adding one to the world's seven wonders. Or he may have read about the dwarf standing on the giant's shoulders, seeing farther than the giant.

The next similar announcement will tell of a residence, not 18 stories up, but two or five miles up, on a lighter-than-air machine, able to supply any climate desired.

At Shelby, Mont., Mr. Dempsey will fight somebody else, in a month or so. One hundred carpenters are working on an arena. And already \$400,000 worth of tickets have been sold. That is only a beginning. Two millions or more will be the total, and tens of thousands will spend other millions to travel from all over to Shelby.

What other show would draw a crowd so far in America, or draw \$2,000,000 for a few "minutes pleasure" in America? When the historian of 5,000 A. D., gets the facts on that fight, do you think he will need much more information about our civilization in 1923?

The boys of California beat all the other colleges in college games. A little group of 13 California boys qualified 17 times in the intercollegiate A. A. A. A. at Philadelphia. Yale came next, qualifying

Contrast these white athletes of modern California with the Indian aborigines, too lazy to catch rabbits, too cowardly to attack bigger

Those that visit California wonder how the people there have time or energy for anything except enjoying the climate. Then they look around and see the most energetic,

progresive people on earth. The New York Times finds the conduct of Trotzky amusing, in the matter of England's ultimatum. Trotzky took a sedative and backed down," says the Times. Trotzky did what England often has done. He avoided a fight for which he

wasn't ready. Trotzky is a Jew and Jews are not fools in diplomacy. That was proved by Gambetta, putting the French republic on its feet; by Disraeli in England, making Victoria empress of India; by Carvalho, in Portugal, and many another.

It will be time enough to laugh

at Lenine and Trotzky when they fail. The extraordinary thing about them is their standing up in the face of a tempest apparently irre-One hundred thousand men in

the Ruhr are on strike, threatening to seize the great factories and run "Reds," our dispatches call them.

It's a convenient word. Those German workmen are doing what Pittsburgh or Chicago workmen would do if Japanese or English troops were in possession and the men had not enough to eat.

The American workmen, however, more nervous and high-strung, would not have waited as the Germans have done, and their rebellion would be considerably

Seizing territory with millions of aliens in it, able to read, think and fight, is a doubtful investment. Ancient Rome managed it for a while by making her conquered ter-ritory more prosperous and just as independent as before.

President Harding has officially fixed the proportions of the American flag. If it is a foot wide it must be 1.67 in length. Not quite twice as long as it is wide.

The next thing is to fix the location and the job of the United States flag. It should fly at sea, on American ships, and be seen in every port. It should not be mixed up with other flags in Europe, Africa or Asia, playing second fid-dle to a collection of bankrupt

foreign flags. England, France, Italy, are excited about our law forbidding them to have wine on their own ships when in our ports. But it can all be settled easily enough. Our law says that anybody can have as much wine as his doctor thinks good for him. Ninety-nine out of 100 French, English and Italian doctors will certify that crews at sea need wine or beer for their health. That will settle the problem. Passengers from abroad will probably get their little medical certificates and their "supply" three miles out.

Many Features to Wind Up Year at University

Alumni to Hold Reunion-Stadium Cornerstone to Be Laid—Graduation Tops Off Celebration.

Special Dispatch to The Omaha Bee. Lincoln, May 28.—One of the busiest spots in Lincoln this week is the campus at the university.

It is expected that the alumni day evels will draw big crowds from all directions, for "Old Nebraska has sons and daughters everywhere and a eunion at one's alma mater is a hing that can not be indifferently passed up.'

This year all the friends and relaives of "Old Nebraska" are expected o join the alumni for the laying of the stadium cornerstone Friday and he annual roundup Saturday.

Beginning with the lvy day exerof events and those who come to Linhave to do some sprinting to take n all that has been arranged. Not Friday evening, June 1, at 6. only are all of the days filled up but there will be something to call the "family" together again every

Alumni Gather.

night there will be dancing in the Delta. gymnasium on the campus and Sunday evening the sacred concert will Hackett of New York, who was the ploist for the concert last year, will sing with the university chorus.

Alumni day, June 2, will be the olg day for the "Old Grads." They will hold their class reunions in the oig tent at Thirteenth and R streets the parade. Plans that have been made for this feature this year are more complete than for the first oundup a year ago.

First there will be the dignified eader in military uniform and behind him the university band. Next will follow the five-year-classes in medley of costumes. They will march from "midway" up Thirteenth, along O street and back again to the

Banquet This Year.

Instead of the picnic lunch that was a feature last year, a banquet will be served in the gymnasium which will be festooned with the university colors. Dr. George P. Schidler of York will be the speaker. After the banquet the revel will begin again n class stunts and wind up with a At 6 Saturday evening the first

Work May Visit Nebraska to See **Irrigation Plans**

Purpose Will Be to "Pep Up" Projects—Tour Planned on Return From Alaska.

By GEORGE F. AUTHIER.

the Interior Work hopes to visit some of the irrigation and reclamation projects of the country upon his return from Alaska, where he will accompany President Harding. He has not decided which ones he will look over. eNither has it been decided who will accompany him on his tour of inspection.

It was stated at the Interior de partment today thaat Secretary Work did not know whether his itinerary would include Nebraska. He will no arrange his schedule until the president's itinerary has been fully de cided upon. Secretary Work would like to stop off in Nebraska, and will do so if possible, but it was intimated this was far from certain.

To Put "Kick" in Work. The secretary's purpose in visiting the reclamation projects is to give more "kick" to the work of this character and determine what can be done in the future. Reclamation advocates fear there will be opposition to the appropriation of large sums of money for these improve ments, owing to developing opposition from the farm bloc as expressed by Senator Capper of Kansas.

This group believes that so long as the farms now under vultivation are not selling their products at a marked profit, it is economically wrong to develop more soil for culti-

Secretary Work has made it clear he stands for a fuller development of the policy of reclaiming arid lands and will fight for his position. This is one of the things the president will have to harmonize and will probably Alpha Theta Chi fraternity will attempt it during his western trip, have a banquet at the Lincoln hotel on which he proposes to take both and the Palladian Literary society Secretary Wallace and Secretary

"Recent reports from the irrigation indicate that crops and better prices poration with headquarters here. for farm products are expected by the farmers, and a much more optimclared Secretary Work.

"On the notrehern projects orchards have bloomed heavily and little damage to the fruit has resuited from frost. A large area is being planted to sugar beets on these standard cash crops, and test plots its practicability. The increase in the price of potatoes has resulted in the shipment of large quantities which had been stored during the
