AT THE THEATERS

A NOVEL musical comedy entitled "Little Cinderella" is the headline feature in the new six-act bill at the World starting tomorrow. Eva La Rue heads the cast of seven which also includes Truman Stanley and Ina Mitchell. Morrey and Young, in their well known laughing success "Just for Fun" and the Brothers Gaudinelli, noted dancers with their four footed friends are added attractions. Making up the balance of the bill are Rial and Linton in a novelty called "Something for a Rainy Day," Ecoworthy and Frances in a wee bit of Dixie; Fernando De Pace, the wizard of the mandolin, and Arthur Hays playing "lover" upon the World organ. Antonio Moreno and Colleen Moore at the start of the Photoplay feature, "Look Your Best," a Rupert Hughes comedy drama. The bill is looked upon by the theater management as one of unusual merit. The current show with Doreville Mendonza, Bert Walton, Keno Four and others will be seen for the last times today.

Milton Wins

500 Mile International Sweepstakes, at Indianapolis

ON Firestone

GUM-DIPPED CORDS

(Special Telegraphic Dispatch from the Indianapolis Speedway, May 30th)

Tommy Milton, in a H. C. S. Special, won today on Firestone Gum-Dipped Cords at average speed of 91.44 miles per hour, being the only driver in history of this race classic to win a second time. Hartz and Murphy and Cooper, who relieved Hearne, finished second, third and fourth in order named, in Durant Specials, giving clean sweep of first four places to Firestone Gum-Dipped Cords. Eight of ten cars to finish in money were gum-dipped cord equipped. Not once in entire 500 miles was any driver using Firestone Cords forced to pits with flat tires.

At Indianapolis were gathered the most famous drivers and the foremost racing cars of the world. It was a contest of driving skill, a competition of automotive science and a "Battle of Tires."

Around this sand-surfaced brick oval, Firestone Gum-Dipped Cords swept through to victory. The grinding wear, the scorching heat, the terrific pace were conditions that only Gum-Dipped Cords and scientifically compounded treads could subdue.

The tough, wear-resisting tread and the heat-defying gum-dipped carcass of Firestone Cords reigned supreme, just as they have long done in the daily service of millions of car owners.

Gum-dipping—insulating each cord in rubber—is the Firestone method of protecting tires from heat. This process is the development of an organization of specialists—whose sole purpose is to build constantly better tires.

This triumph supplies additional evidence of Firestone's ability to set new standards of tire building year by year.

Like the winning driver you, too, can trust these powerful tires to give you the utmost in tire performance. If you're not using them, equip all 'round with Firestone Gum-Dipped Cords—and set new standards of comfort, safety and economical mileage.
