

Big Airships May Operate Across Ocean

Zeppelins Carrying 40 Passengers Expected to Ply Between Spain and Argentina Next Summer.

By Associated Press.
London, June 20.—Details of the first Atlantic airship service between Spain and Argentina have just been made public by the London Daily Chronicle, which says that it may soon be possible to bridge the 5,000 miles between the two continents in three and a half days. The service will operate between Seville and Buenos Aires, and Zeppelin aircraft will be used.

Revolving Hangars.

On the American side of the Atlantic the hangars will be made on a revolving principle, because of the variability of the wind. Four airships are being built to inaugurate the scheme, and it is anticipated that service will begin next summer. It also is probable that arrangements will be made to link up Seville direct with London by an airplane service.

The airships, fitted with nine engines, each developing 400 horsepower, will carry 40 passengers and 11 tons of mails and merchandise. There will be two simultaneous flights a week in each direction, and the time taken to cross the Atlantic will be three days and 16 hours. Passengers will have all the comforts of an Atlantic liner, without the disadvantage of sea-sickness.

82 Miles an Hour.

The ships will have a speed of 82 miles an hour. Zeppelin pilots who have not less than 1,000 successful flights to their credit will be engaged to operate the craft. Each airship will carry six pilots and a commander. Powerful wireless sets will be fitted into each ship, thus it will be possible to keep in touch with 45 weather stations on the coasts of Spain, Africa, America, the Canary Islands, Cape Verde and Fernando Noronha, as well as with ships at sea.

Lutherans Open Education Meet

Sixth Annual Meeting of National Association Being Held in Omaha.

The sixth annual meeting of the National Lutheran Education association opened yesterday in the auditorium of the Cross Evangelical Lutheran church, near 1907 Spring street, with Rev. Titus Lang conducting a brief devotional service.

B. P. Holst, president of the association, gave a report of the progress of the work, declaring that "this association has passed out of the nursery; it has the approval of the Missouri synod, the Wisconsin synod and many conferences and congregations, hence it is able to stand upon its feet and take a hopeful view of the future."

The association has a working membership of 8,000 and has grown steadily in membership and financial strength. Members today expressed the belief that the association soon will attain assets amounting to \$500,000 and that some city will offer a site which will lead to the establishment of a college.

On the program yesterday, besides President Holst, were Secretary Otto C. Herman, Boone, Ia.; Treasurer Emil A. Boie, Mankato, Minn.; H. J. Struve, Deshler, Neb., ex-president of the Nebraska district; George Naeve, Denison, Ia.; Frank A. Raabe, Stanton, Neb.; Rev. L. Acker, Omaha; Rev. Martin H. Muller, Council Bluffs; Prof. H. Hillman, superintendent of Lutheran schools in Nebraska, and Prof. Theodore Hopmann, president of the Nebraska district.
