Drooped Around

Relief from distressing symptoms of simple disorders, such as thousands of women have suffered, is reported by a young lady of Laurel, Mississippi—Mrs. Voyd Jordan. The picture pristed above is from one of her latest potiralts. Below is Mrs. Jordan's story, in her own words:

"I began suffering at . . . It was always a time of dread with me, for I usually had to go to bed, or 'droop around,' as we used to say, for two or three days. I would have pains in my head and back, and feel hot and feverish and so stupid. I took two bottles of Cardut. Then, and for a long time, I felt fine and didn't have this trouble.

"After I was married a couple of years, I had a pain in my left side. It hurt me to stand. I felt sore, and at times the pain extended across my back. I hurt all the time in my side. I thought of Cardul and sent for it. I took one bottle. I was so much better, and by the time I took three bottles of Cardui I felt all right. It sure has helped me and strengthened me.

Female ailments, when neglected, often lead to more serious troubles, such as general debility, nervousness, premature old age and other results of worn-out health. At the first appearance of womanly disorders, Cardui should be taken consistently, as its timely use has spared thousands of women from prolonged suffering and wrecked

There is now offered to the public a ton of your physician.

Mother, Why Don't You Take Nuxated Iron?"

And Be Strong and Well and Have Nice Roay Cheeks Instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You Are and Now She Looks Just Fine.

Nuxated Iron Will Increase the Strength and Endurance of Weak, Nervous, Careworn, Haggard-Looking Women in Two Weeks' Time in Many Instances.

"There can be no healthy, beautiful, rosy cheeked women without plenty of iron in their blood," said a prominent New York physician and medical author recently. "I have strongly emphasized the fact that doctors should prescribe more of the iron for their nervous, rundown, weak, haggard-looking women patients. Pallor means anaemia. The skin of the anaemic woman is pale, the flesh flabby. The muscles lack tone, brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks. They become weak, irritable, and nervous because food for the nerves can only be supplied through the blood and when the blood is thin and anaemic the nerves are improperly nourished. The nervous mother or housekeeper is highly irritable, forgets where she puts things, and often cannot remember what she started to do. At night she often has a "good cry" and excuses it by saying it is a relief for her nerves, when it means a high state of nerve force exhaustion. Often her nervousness and irritability are a strain on her children and may help to wreck their delicate nervous systems."

Medical science and chemistry has proven that NERVE FORCE IS A DISTINCT SUBSTANCE SIMILAR TO YOUR BLOOD. IS A DISTINCT SUBSTANCE SIMILAR TO YOUR BLOOD. It is the most important fluid in your body. It gives life to your nerves and force to your brain. If you cannot think right, if your memory fails, if you are irritable and easily upset, trifling things annoy you, look into your nerve force. When your nerve force becomes weakened, all the vital organs of your body lose their normal strength and vigor, and as a result all kinds of alarming symptoms may appear. From the pains across the back one woman thinks she has kidney trouble, another may think her spine is injured because of the tender spots which may occur thereon. The dull, heavy pain in the lower part of the head or the back of the neck leads another to think she is going to have paresis. Sleeplessness and nervous irritability, heart palpitation and indigestion are very common symptoms.

and indigestion are very common symptoms. When you lack nerve force, there is only one thing that is going to help you, and that is more nerve force. IN SUCH CASES IT IS WORSE THAN FOOLISH TO WASTE YOUR TIME TAKING MERE STIMULATING MEDICINES OR NARCOTIC DRUGS. Your starving nerves must have nerve food or something to supply increased nerve force, the same as a starving man must have bread to make new flesh and muscle. For centuries science searched for a nerve force food. At last a celebrated French physician brought to the attention of the Paris Academy of Medicine a remarkable product which contained the principal chemical constituents of active living nerve force, in a form which most closely resembles that in the brain and nerve cells of man. This wenderful product was later combined with organic iron and other valuable ingredients under the name of "Nuxated Iron." so that today true artificial nerve force ready to be transformed. true artificial nerve force ready to be transformed into active living nerve force, the moment it enters the body, may now easily be had, simply by taking two tablets of Nuxated Iron three times a day. with or after your meals. ORGANIC IRON CONTAINED IN NUXATED IRON IS LIKE THE IRON IN YOUR BLOOD, and like the iron in spinach, carrots, lentils and apples. It not only quickly enriches the blood, but it also stim-ulates the blood to manufacture a greatly increased supply of new nerve force, so that Nuxated Iron not only feeds artificial nerve force directly to the nerve and brain cells, but it indirectly increases the production of nerve force through the medium of the blood.

ANUFACTURERS' NOTE—Over 4,000,000 people are using Nuxates on annually. If you are weak, nervous or run down, get a bottle of Nuxates on today, and if within two weeks you do not feel that it has increased our nerve force and made you feel better and stronger in every way, you coney will be refunded. Look for the word "Nuxated" on every package
