Our First Great Clearance Sale of Furniture

We opened our furniture department in March of this year. In being zealous in our efforts to supply the wants of our patrons and the people of this vicinity, we accumulated a quantity of high-grade furniture of exceptional quality.

In this, our first great clearance sale of furniture, we had this object in view—to reduce each piece to a price that will make it "sell on sight," a price in many cases about equal to today's price at the factory.

The Sale Includes All Small Lots and Samples That Must Be Sold Prior to Inventory

Every Piece of Finest Quality

Little need be said of the "quality" of the furniture represented in this vast assortment. Every piece of furniture that

we sell is of the finest workmanship and of the most excellent materials obtainable at the price.
