TORNADO STRIKES OMAHA

President Goes Back to Nature

Harding Drops All Official Cares and Spends Day Viewing Beauties of Zion National Park.

Accompanied by Smoot

By Universal Service. Cedar City, Utah, June 27.—President Harding today laid aside all thoughts of governmental business and took an excursion into the wilds of nature, viewing the beauties and grandeur of Zion National park.

It required an all night journey by rail to this point, and then an automobile ride of 65 miles into the wilderness of the canyon. The trip was hot and dusty, but it was a relief from the confined atmosphere of the cities, and both President and Mrs. Harding enjoyed it.

Others Join Party.

The party was accompanied by Governor and Mrs. Mabey, President Heber Grant of the Mormon church, and Mrs. Grant, and Senator Smoot, whose efforts were largely instrumental in having the government set aside this great tract of wild beauty for a national park.

It was 8 this morning when the presidential special reached Cedar City, and the start of the automobile caravan was made immediately.

The scenic beauties of the canyon were wonderful and added a spice of variety to the kaleidoscopic view which the president has enjoyed on his trip. For a large part of the way the trail was across the bed of a volcanic lake, and traces of the once high water mark were clearly denoted on the canyon walls.

Harding Much Cheered.

The president felt much cheered by the reception accorded him in his meeting at Salt Lake City Tuesday night. The most impressive part of his reception came at the end of his prepared speech, when, having laid his manuscript aside, he made an extemporaneous appeal for the ending of the United States into some endeavor to stop all wars. The appeal made a great hit with the audience, which cheered him not so much for mention of the world court idea, as for the general expression of a desire on the part of the United States to be helpful to the world.

Corbino Murder Case Now in Hands of Jury

The trial of James Corbino, who is charged with shooting and killing his sweetheart, Annie Greco, 14, was brought to a close yesterday afternoon when the case was handed to the jury at 5:05 after receiving 23 instructions.

Henry Beck, county attorney, closed the argument for the state. He asked the death penalty. The defendant, throughout the trial has pleaded self-defense.

Martial Law Threatened in Every Oklahoma County

Oklahoma City, Okla., June 27.—Martial law will be declared in every county of Oklahoma and "maintained for three years, if necessary, to stop mob law," Governor J. C. Walton emphatically asserted today following his action in ordering national guardsmen to supplant the sheriff at Okmulgee county.

Simultaneously, the governor warned Caddo county officials that he would dispatch guardsmen to handle the situation there if one more whipping occurred.

Attempt Made to Murder Premier of Jugo-Slavia

Belgrade, June 27.—Premier Nikola Pachitch, a man named Milstone Raitch, a Serbian, was arrested. He ascribed his action to personal motives. Raitch lives in Budapest, where he is employed in a bank. No political significance is attributed to the incident.

Would-Be Assassin Fires on Premier of Jugo-Slavia

London, June 27.—A Central news dispatch from Belgrade says six shots were fired at the Jugo Slavian premier, Nikola Pachitch, as he was leaving parliament but that he escaped unharmed. A man named Raitch was arrested.

Gladys Walton Wed After 3 Pastors Refuse

Los Angeles, Cal., June 27.—Gladys Walton, motion picture actress, and Henry M. Herbst of New York, assistant general sales manager of the company starring Miss Walton, were married here last night.

The ceremony was performed after three clergymen refused to officiate, which delayed the wedding, originally set for early last evening, several hours.

The fact that the prospective bride obtained her final decree of divorce from her first husband, Frank H. Liddell, jr., less than three weeks ago was said to be the ground on which the pastors declined to unite the couple.

The knot was tied by the Rev. E. P. Ryland, pastor of a Hollywood Congregational church at his home.

By this time an array of reporters, photographers and others had been caught up with the wedding party and were pressing forward to witness the triumphant finish. But the bride quickly eliminated all but the intimate friends and relatives who had been invited, saying as the door closed: "No newspaper men mustn't come in."

Flyers Plan New Attempt to Stay Aloft Four Days

Army Aviators Succeed in Taking Fuel From Sister Ship Twice in Six-Hour Flight.

San Diego, Cal., June 27.—Forced to descend today after less than six hours in the air, but having accomplished the feat of refueling the engine in mid-air, Capt. Lowell H. Smith and Lieut. John E. Richter, army aviators, will start Thursday morning on another effort to break or establish 12 aviation records.

The burning out of a generator caused the aviators to bring their De Havilland plane to the ground five hours and 41 minutes after taking off.

The second attempt is scheduled to begin at about 4:30 Thursday morning. Captain Smith and Lieutenant Richter are confident, they said tonight, that it will be successful. They base their hopes largely on the work that was done today in taking 80 gallons of gasoline aboard their plane from another plane while both were racing through the air at the rate of 80 miles an hour.

Take Gasoline Twice.

Gasoline was taken aboard the airplane twice. Lieutenants Virgil Hines and Frank Seifert took the refueling machine off at 9:15, and a few minutes later it was roaring along the course of the De Havilland in which were Captain Smith and Lieutenant Richter. It was swung up by the racing plane, which came alone beneath. Then came a tense moment for the spectators as the suction of air from the heavy propeller of the racing machine tilted the fuel ship dangerously. Its pilot, however, soon righted the plane and Lieutenant Richter, in the lower machine, seized the 45-foot hose which dangled from the refueling tank.

Hose Jerked From Hands.

At the first attempt the hose was jerked from his hands but he soon found it again in his grasp and a second later he had inserted it in the De Havilland's reserve tank. In less than two minutes about 40 gallons of gasoline had been taken aboard, and the machines quickly separated.

The second refueling was accomplished about 15 minutes later and with as much ease, apparently, as the first. It was learned later, however, that as the hose was taken from the reserve tank, a shower of gasoline, possibly several quarts, whirled back in the terrific wind created by the propeller. It sprayed all over the back of the racing ship but did not come near the hot exhaust of the motor and there was no sign of fire.

Jane Addams Under Knife.

Tokyo, June 27.—Jane Addams, famous settlement worker, underwent an operation today at St. Luke's hospital. Dr. L. R. Webb of the United States naval hospital was the operating surgeon. Immediately after the operation it was announced that while a tumor had been found in her breast, it was neither cancer nor a malignant growth and her immediate recovery was hoped for.

Suit Dismissed.

Vancouver, B. C., June 27.—The action brought by Robert E. Williams of Milwaukee, and Horace K. Williams of Los Angeles, claiming as heirs of Able Alexander a one-third interest in the \$2,000,000 estate of Capt. James Alexander, was dismissed in supreme court here today on the ground that it was "frivolous, vexatious and an abuse of the process of the court."

Uncle Will Seize Wet Ships

New Ruling Regarding Liners That Bring Liquor Inside Three-Mile Limit Is Announced.

Effective Next Month

Washington, June 27.—A new regulation prohibiting the bringing of liquor into American waters after a certain advance date next month under penalty of seizure of the liquor-carrying ship and arrest of its captain is announced to have been virtually agreed upon today as a result of conferences among officials here.

Foreign governments are to be notified again of this government's intention to enforce the supreme court ship liquor decision vigorously. It is understood, and to be warned that seizure of offending ships will result from further violations.

Give Due Notice.

The plan is to give due notice of the decision so that foreign ship lines can make the necessary changes before the seizure policy becomes effective.

Participating in the conference today were Acting Secretary Gilbert and Assistant Secretary Ross of the Treasury department, representatives of the State department, Commissioner Blair of the internal revenue bureau, Assistant Prohibition Commissioner Jones, representing Commissioner Haynes, and Chief Counsel Britt of the prohibition unit.

It was pointed out that the Volstead act requires the seizing of ships carrying liquor illegally, and the arrest of their masters, but that the American government had been so far from seizing only the contraband liquor. But in view of the constant stream of ships arriving in violation of the regulations, it was said a sharp change of policy was under serious consideration.

Holds Provisions Mandatory.

Confiscation in this manner of the foreign fleet which has brought liquor into New York, including as it does, some of the largest and finest liners in the transatlantic service, would be in the opinion of officials here, a step fraught with many serious considerations. However, some legal authorities are known to hold that the provisions of the law are mandatory, and that nothing but a desire to stretch a point for the sake of international comity can afford the offending liners protection.

Milk Fund Goes Over \$500 Mark

Scores of Babies Restored to Health During Recent Hot Spell.

The Omaha Bee Free Milk and Ice fund went over the \$500 mark today. And the Visiting Nurses who toiled long hours each day in administering the cool, sweet milk which the fund is furnishing are rejoicing.

Scores of babies were actually saved from death or restored to health during the sweltering hot period of the last few days by the contributions sent in by those who realized the great need.

The fund is a testimonial not only to the kindness but to the thoughtfulness of the contributors. For all the funds to which people are asked to contribute, none is more efficient, more necessary and more direct in its results.

The fund is growing quite rapidly, but so is the demand on it. Babies who already have been given the nourishment they require to keep alive still must be supplied during the long hot weeks which are to follow. And more desperate cases are being discovered each day. The heavy demand means that the good being done is great, and that friends of these little waifs will not fail.

Geraldine Farrar Given Interlocutory Divorce

New York, June 27.—Miss Geraldine Farrar, opera singer, was granted a decree of divorce from Lou Tellegen, her actor husband, by Judge Charles E. Smith of the supreme court today. The decree was granted on recommendations of Referee Mahoney, who conducted the divorce hearing.

Under the interlocutory decree Miss Farrar was permitted to resume her maiden name and was given the privilege to marry again. This privilege was denied Tellegen, who was directed to pay the costs of the action. The decree will not become final until three months from today.

Nelson Updike Returns to Omaha From Eastern Trip

Nelson B. Updike returned to Omaha Wednesday. While on the trip the Levianth man, Updike met Philip Metz, formerly of Omaha, who is now assistant business manager of the Buffalo Times, which is owned by his father-in-law, Norman Mack. Mr. Metz is son of Charles Metz of Omaha.

Chicago Woman Attorney Takes Life by Hanging

Chicago, June 27.—Miss Dorothy Brody, 31, who was admitted to the bar three years ago, committed suicide by hanging herself last night at the home of Abraham Brody, her father, police said. Ill health due to overstudy was believed to have been responsible for her act.

We Want It Any Stronger We'll Have to Add Some Raisins After We Get It in Our Cellar

Milk Fund Goes Over \$500 Mark

Scores of Babies Restored to Health During Recent Hot Spell.

The Omaha Bee Free Milk and Ice fund went over the \$500 mark today. And the Visiting Nurses who toiled long hours each day in administering the cool, sweet milk which the fund is furnishing are rejoicing.

Scores of babies were actually saved from death or restored to health during the sweltering hot period of the last few days by the contributions sent in by those who realized the great need.

The fund is a testimonial not only to the kindness but to the thoughtfulness of the contributors. For all the funds to which people are asked to contribute, none is more efficient, more necessary and more direct in its results.

Babies who already have been given the nourishment they require to keep alive still must be supplied during the long hot weeks which are to follow. And more desperate cases are being discovered each day. The heavy demand means that the good being done is great, and that friends of these little waifs will not fail.

Better Conditions Cause Slight Drop in Suicides

New York, June 27.—Improved economic conditions in the United States during 1922 brought the suicide rate down slightly. The Spectator, an insurance publication, reported today, announcing that the rate for the year was 15.1 per 100,000 of population, as compared with a rate of 15.7 in 1921.

Between 15,000 and 16,000 persons took their own lives during the year, it was estimated on returns from 74 large cities. Of these cities, San Diego, Cal., led the list with 47.3 suicides per 100,000. Sacramento, Cal., was second with 37.9, and San Francisco third with 30.4; Los Angeles fourth with 30.3; Portland, Ore., fifth with 27.2; Seattle sixth with 27.1; Trenton, N. J., seventh with 24, and Denver eighth with 21.9.

Staff Man Will Cover Fight for The Omaha Bee

Fred Hunter Leaves for Shelby—Three Direct Wires to Furnish Details of July Fourth Bout.

All arrangements to give its readers complete service on the big Dempsey-Gibbons fight at Shelby, Mont. July 4, have been consummated by The Omaha Bee.

The championship battle at Shelby will be the big news of the day on July 4 and this newspaper is prepared to cover the event in every detail.

Fred S. Hunter will be The Omaha Bee's staff representative at the fight. Hunter was for several years a sport writer on Omaha newspapers, then for three years he was city editor of The Omaha Bee and now is acting managing editor. Hunter departed last night, bound for Shelby.

He will send a number of stories from Shelby prior to the fight and on July 4 will write the story of the big battle.

In addition to Hunter, The Omaha Bee will have several staff feature writers on the ground, including Damon Runyan and Davis Walsh, both of whom are familiar to readers of the sport pages of this newspaper.

Then there will be the complete reports of The Associated Press, The International News Service and the Omaha Bee, all of which have special staff writers in Great Falls and Shelby.

Three direct wires will run from Shelby into The Omaha Bee office on the day of the fight. On these wires will come the flash which will tell the result. Immediately this flash is received, The Omaha Bee will issue an extra so that its readers may know as soon as possible whether a new champion has been made or whether the old champion retains his title.

Government Would Settle New England Phone Strike

Washington, June 27.—The government today took a hand in the New England telephone strike when the Department of Labor ordered Anna Weinstein, a commissioner of conciliation, to Boston to attempt to bring about a settlement. Miss Weinstein settled the New York clothes workers' strike and has been successful in many recent disputes involving women workers. John Colpoys, another conciliator, also will be ordered to New England.

Bandits Rob Jewelry Store.

New York, June 27.—Two roughly clad men, armed with automatics, this afternoon held up the jewelry store of L. Edson on Ludlow street, robbing four customers and escaped with loot said to be valued at \$65,000.

Ford Drive on in Home State

Michigan Backers May Call Convention in Dearborn—National Call Considered.

Detroit, June 27.—Planning vigorously to push its campaign to bring about the nomination of Henry Ford for president, probably as the leader of a third party, Dearborn Ford-for-President club is considering the calling of a convention of all Ford clubs in Michigan. It was announced today by the Rev. William Dawe, leader of the movement, in the home town of the Detroit manufacturer.

While no date has been announced for the proposed convention, it would be held in Dearborn, Dr. Dawe said, the object being to effect a national organization and co-ordinate what thus far has been purely spontaneous organization of Ford clubs. Plans of the Dearborn leaders contemplate a call for an assembly of delegates from Michigan clubs, but Dr. Dawe declared the proposed convention might develop into a national affair.

A meeting of the executive committee of the Dearborn organization will be held later, will attempt to put the convention plan into a definite shape, Dr. Dawe said.

Correspondence with numerous Ford clubs throughout the country makes it clear, according to James E. Greene, secretary of the Dearborn organization, that the Ford supporters desire a third party.

"The movement has grown to such proportions," Mr. Greene declared, "that there is only one thing left to do, and that is to create a national organization."

Klan Kicks 'Kause Kops Spoil Initiation Ceremony

Des Moines, Ia., June 27.—Alleged police interference with a Ku Klux Klan initiation ceremony near here last night was the subject of a protest by the klansmen to police of today.

While a class of 300 was being initiated, and 1,600 klansmen were enjoying a barbecue and fireworks display, a squad of police ordered them to remove their cars from the side of the country road where they were parked, and threatened arrest, police officials were told.

Jessica Brown's Fiance Operated on in Hospital

Buffalo, N. Y., June 27.—The erstwhile Norths, fiancee of Miss Jessica Brown, former Follies girl and dancer, is seriously ill at a hospital here. The girl underwent an operation for appendicitis Monday night, it became known today. Miss Brown has been at his bedside constantly since the operation. Norths' condition today was reported satisfactory but still serious.

Wind and Hail Cause Big Damage to Property as Cloudburst Hits City

Over Half-Inch of Rain Falls During 30-Minute Period—Hailstones Pepper Automobiles and Street Cars as Many Flee to Safety—Fruit Crop Suffers Heavily—Basements of Stores and Homes Flooded.

Broken Wires Delay Trams; Motor Cars Stalled

Driven by a 29-mile an hour gale, rain and hail swept over Omaha for half an hour Wednesday evening, causing damage to trees, building materials, paving and property. The storm broke at 5 when traffic was heavy. It came from the northwest with little warning. After less than 10 minutes of rain, hail hammered on street car windows and automobile tops, forcing thousands to seek shelter.

Tornado Strikes Nebraska Farm; Crops Damaged

Fremont, Neb., June 27.—A small tornado passed one-half mile south of the farm of J. H. Carleton, near Ames, Neb., this evening and is reported to have uprooted trees, carried a haystack away and damaged crops, but so far as can be learned, no great amount of damage was done. Rural telephone service is so badly damaged that farmers in that vicinity cannot be reached and more accurate information as to damage cannot be obtained.

Trees Uprooted, Haystack Is Blown Away and Wires Down Near Ames—Fremont Sees "Funnel"

The funnel-shaped cloud was plainly visible from Fremont and unconfirmed rumors of damage are being heard, but no definite information has been received.

Volcano Etna Again Active

Violent New Eruption Threatens Observatory South of Crater.

By International News Service. London, June 27.—A violent new eruption broke out this morning on the south side of Mount Etna's main crater, threatening the observatory on that side of the volcano, according to a Central News dispatch from Rome this afternoon.

Spasms were felt in Rome that the observatory would be overwhelmed, the dispatch added.

Prof. Carrara reported that the new flow of molten lava was advancing down the south slope of the mountain at the rate of one kilometer (six-tenths of a mile) hourly.

Frisco-N. Y. Air Mail Service to Be Started August 1

Cleveland, June 27.—Arrangements here for the through air mail service between New York and San Francisco, which will be started about August 1, have been completed by James L. Davis of Washington, assistant superintendent of the railway mail service. The 3,000 miles will be covered by 14 planes which will travel in laps, in about 28 hours flying time.

The planes will fly by night between Chicago and Cheyenne, Wyo. Mr. Davis said. The aviators will be guided by beacons capable of piercing difficult atmospheric conditions and of being seen 50 miles. Emergency fields have been located and will be lighted every 25 miles over the prairie.

Sheriff Sentenced to U. S. Prison on Liquor Charge

Spokane, June 27.—Sheriff Thomas Barker of Ferry county, Washington, convicted in United States district court of conspiracy to violate the prohibition laws in assisting liquor running from Canada, was sentenced today to serve two years in the Leavenworth penitentiary.

Stampede of Immigrants Expected Early in July

Washington, June 27.—A veritable stampede of immigrants seeking admission to the United States next month is anticipated by Department of Labor officials.

Poor Home Supervision Blamed for Juvenile Crime

Chicago, June 27.—Improper supervision of home life was unanimously agreed upon yesterday as basic cause of crime among boys, in a conference between Judge Charles F. McKinley of the boys' court and social and welfare workers of the city, looking toward the betterment of boy life in the city.

Fifty-five thousand boys were charged in the court on 8,000 charges last year, Judge McKinley said, in urging that boys be tried more for general delinquency and less on the specific charge on which they are taken into court.

The Weather

For 24 hours ending 7 p. m. June 27, 1923.

Table with columns for Station, Weather, High, Low, Precipitation, etc.
