

Moving Pictures Helpful
Chicago, July 14.—Educating

foreigners by use of the motion picture is being adopted more and more each day and has served to cause

deep thought on the part of the leading educators and immigration authorities of this country, according

to Jaroslav J. Zmrhal, district school superintendent of Chicago, in a statement made to the Society for

Visual Education here. "There has been a noticeable increase in the attendance at our night

classes and lectures on citizenship since motion pictures have been available, declared Mr. Zmrhal. "The

men found the screen answering their questions in a way they could easily understand. Those who were

working for their naturalization papers were particularly delighted with these lessons in picture language."
