Old Dutch removes odors and stains
Old Dutch has many unusual uses. The skins of fruits and vegetables when left lying on an enameled sink will leave a discoloration. Old Dutch will remove it and leave the porcelain as white as when new. It will remove, too, from knives, dishes and utensils, vegetable and other odors as it cleans them.

Old Dutch removes fruit and vegetable stains

When Old Dutch is your helper you may be sure everything in the household is free from impurities.
Old Dutch leaves a sweet and clean surface. A clean surface is always sanitary and is its own protection against impurities.
When Old Dutch is on the job the things with which you cook and eat will always be sweet and wholesome. Sinks, floors, woodwork will always be clean and sanitary.
Purity in the household is assured when Old Dutch is in charge.

Old Dutch chases impurities the same as dirt
