

### Farmer Has Not Had Square Deal, Brookhart Says

#### Iowa Senator Says Progressives in Congress Ready for Test of Strength at Next Session.

Chicago, July 21.—The progressive element in congress welcomes the statement attributed to Senator Moses of New Hampshire, in Washington Friday, calling for co-operation of the conservatives of both parties to meet the "menace of radicalism," and will win when the point comes to issue at the beginning of the next congress, Senator Smith W. Brookhart of Iowa said today.

"The Lincoln republicans and the Jefferson democrats will be prepared for a uniting of the tory republicans and the bourbon democrats when the next congress convenes," Mr. Brookhart, who passed through Chicago on his way to his home in Washington, Ia., said.

Commenting on the statement of Senator Moses, who is chairman of the republican national campaign committee, Mr. Brookhart said that the progressives were "pretty well organized now" and that they welcomed the public statement which recognized them to the extent of calling for a combination of conservatives of both parties in order to meet them.

#### Never Had Square Deal.

"The farmers never have had a square deal," he said. "The prices they must pay and the prices they get are fixed by the middleman. The one thing which has saved them has been the fact that they got their land from the government for \$1.25 an acre and that the land has advanced in price from a low value. Now the advance in price of land has ended. The price is backward. The financial interests of the east now have determined to force the value of land back by reducing loans, by using \$150 as the valuation of the best Illinois and Iowa lands."

#### Injured While Swimming.

Special Dispatch to The Omaha Bee.

Columbus, Neb., July 21.—Fred Laif of Monroe, Neb., suffered severe injuries when swimming in the Loup river. He engaged in a friendly tussle with George Troop, Hastings, his brother-in-law, and was thrown into the water, his body striking a submerged stump.

### Spanish General Faces Trial

The Marquis Cavalcanti, Spanish cavalry leader, whose troops suffered heavy losses at Tizama, near Melilla, in war with Moors in 1921, will, it is reported, be put on trial for the debacle. The above photo shows him with his wife in conversation with the queen of Spain.

### Stoking a Human Furnace

#### Man Digs His Own Grave With His Teeth, Say Health Sages—Hot Weather Food Should Be Light.

Stoking a furnace in this kind of weather just isn't being done in the best regulated families. And if you were to learn your neighbor was busily occupied shoveling coal into his heating apparatus, you would very likely wonder whether his sad condition was caused by weak mentality or strong home brew.

Nevertheless, you are probably examining your internal furnace with all kinds of fuel, burning out the fire clay and taxing the boilers of your body to the bursting point, and then complaining because you can't keep cool even sitting still.

#### Food Needs Vary.

Each person needs a certain number of calories a day, depending on his age, weight and physical activities. The baby and the growing child require the most calories a day for each pound of their weight than does the adult who has only to supply his energy and repair tissues.

#### How to Determine Your Food.

Here's an easy way to determine the number of calories your body normally requires: Multiply the number of inches you are over five feet in height by five and one-half and add 110.

#### Heat Regulates Attendance.

Never are the parks used so much as on a hot Sunday in July or August, declares Park Commissioner J. B. Hummel. But the hour is changed from its usual time. On cool or cloudy Sundays the crowd is largest at 3. On a typical scorcher, however, the park will be almost deserted at this hour, the public preferring to loaf at home in the minimum of clothes. At 8 in the evening the green will be swarming with picnickers and merry-makers, and the parkways clogged with thousands of automobiles.

### Wife of Senator Johnson Doesn't Want to Quit Farm

#### Mate Is Glad Magnus Is Elected but Wants Him to Run for Governor When Term Expires—Plans to Build New House They Have Wanted for Five Years.

By Universal Service. Kimball, Minn., July 21.—Magnus Johnson will be senator from Minnesota for two years and Mrs. Johnson is glad of it and proud of Magnus. But when the two years is over, she wants Magnus to come back home and run for governor, she said today, so they can go on living on their little farm and build the new house they have planned for the last five years. She doesn't want him to run for re-election as senator.

For she doesn't like leaving the farm. She was raised on the 40 acres adjoining. She has lived there ever since, and she likes it. She is doubtful about liking Washington. "The longest I have been separated from Magnus was three weeks and two days, once in a political campaign when he had to be away," she said. "I'm going to go to Washington so we won't be parted. But I'll come back to the farm in the spring. And maybe I'll stay."

#### Farm Homelike Place.

It is a homelike place, the Johnson farm. You sit down at dinner with your coat off and you call it "supper." You eat fried potatoes and strong tea and bread and butter—there wasn't a mistake and brought home pork chops instead of cold ham, and Magnus decided it was too hot for Mrs. Johnson to cook the chops over the big range in their kitchen.

And Mrs. Johnson fits into the picture. She is a large, motherly woman, with brown hair and kindly eyes and capable hands. "I never saw a horse that I couldn't ride single or double," she says. "That isn't boasting. It's a simple statement of fact. And the

#### Inventions of Modern Age Combat Onslaught of Sun—Churches Solve Problem of Drawing Crowds.

Cheer up! Cool down! It may not be so bad. The man and woman today have resources for fighting "this awful heat" that their fathers never dreamed of.

A score of years ago, a city dweller had no relief from the torrid blasts except in the billiard room in his cellar, if he were rich, or in B. V. D.'s and profanity if he were poor. Today, however, the man of means may outpace the heat in his speedster out on its in his airplane, blow it away with electric fans, or banish it from his house with a refrigerating system. His poorer brother has only to hop into one of a half a dozen municipal swimming pools to drown all recollection of the heat, popstands and ice cream parlors hold out constant inducements to him; he can escape its pursuit in ice-cooled moving picture theaters, while at no cost the public parks offer him their shade and breezes.

### Debts Wrongfully Charged to Him, Dammrow Says

#### Former Cashier of Defunct Treynor Bank Files Answer to Petition of State Examiners.

August Dammrow, former cashier of the defunct Treynor (Ia.) Savings bank, who is now under a \$10,000 bond, pending his hearing, July 27, on a charge of embezzling, filed his answer to the petition of state bank examiners in Council Bluffs district court yesterday.

Dammrow filed 11 claims in the matter of the receivership of the Treynor Savings bank and asks an accounting and that he shall have credit on all accounts properly chargeable to him. He further alleges that he does not have access to the books of the bank and that all items listed in his claim are from memory.

He alleges that during all the time that he was cashier of the bank all losses on overdrafts and defaulted loans, with one exception, were erroneously charged to him. The claimant further alleges that when the Treynor Shortline railroad went into the hands of a receiver, it owed the Treynor Savings bank \$6,000 on overdrafts, and that this account was erroneously charged to him and paid by him.

### Sports on Tap at Guard Camp

#### Prizes to Be Awarded Champion Athletes, Infantry Commander Announces.

Life at the National guard encampment, to be held at the new Ashland range in August, will not be one of continual hard training, according to Col. Amos Thomas, commander of the 134th Infantry regiment.

"The schedule at camp this year calls for an extensive athletic program, including boxing and wrestling championships, in various classes, for which valuable prizes will be offered," said Thomas.

"The government regulations provide that at least half of the time at camp shall be spent on the rifle range, perfecting the marksmanship of the guardsmen. Rifle shooting is one of the most enjoyable occupations of the men at camp.

"The best marksmen developed at camp this year will be sent to the national rifle match at Camp Perry, Ohio, in September, with all expenses and with pay of their grade."

Several vacancies exist in the National guard organization and any persons desiring to enroll in time for camp are requested to call the National guard armory, 1612 Harney street.
