Roads Will Be Best in This Part of the Country When Completed January 1.

At the completion of the Douglas county paving program, at the end of the year, taxpayers can boast some of the best paved roads in this part of the country.

The county will have 80 miles of paved roads by January 1. Every main road will be paved and four of them will be connected with overland highways.

On Dodge street along the Lincoln highway one can visit Elkhorn, Waterloo and Valley. Fremont is a few miles off the highway. Military avenue brick road connects with the Black Hills trails, while connections are easily made on the D. L. D. through Millard and Washington highways.

Part of the cost of building a few of the roads is paid by the state and federal governments. The first rural pavement was laid in 1920

west to the bridge west of the Elkhorn cemetery.

Five and one-half miles of brick

were put in on the Lincoln highway Legion Furnishes Program from the bridge west of Elkhorn cemetery northwest to Valley's north-

The Washington highway was paved form the north city limits to the north county line. In 1922, Military avenue from Ome

ha was paved for 8.35 miles to the corner south of Bennington. Bitulithic pavement was used for six miles on the road connecting Val-

ley to the north county line, The Lincoln highway from Road 46 Father Flanagan's home for boys will be completed this year.
