PROBLEMS THAT PERPLEX.

Rob Roy: Here is the stamp language you asked about. But while I

am giving it to you I can't resist saying that to use it is poor taste. Not only poor taste, but very miserable for postal employees. It makes for inefficiency in their work and is an unfairness on the part of an inflexible public.

The Bride's Dilemma.
Dear Miss Fairfax: A girl married two months meets an old admirer who asks her to spend the afternoon with him at a "movie."
A says that it was wrong of the friend to extend such an invitation and wrong for this girl even to think of going to a movie with any man other than her husband or relative, maintaining that it shows lack of complete love for husband.
B says that this girl would not be wrong to go with her old friend, considering that she regards the invitation the same as if extended from a female friend.
E is right. The girl happened to meet an old friend on the street and whether this friend was man or woman it would have been making a great fuss about nothing to act as if going to a movie picture was a deed of great disloyalty. The whole thing has no importance, and I hope no one will attempt to lay any stress on what was a mere incident.

Blackheads Go Quick By This Simple Method

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of calcine powder from your druggist—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly for a few seconds and wash off. You'll wonder where the blackheads have gone. Pinching and squeezing blackheads only irritate the pores of the skin and leave them large and unsightly—while the simple application of calcine powder and the water dissolve them right out, leaving the skin soft and the pores in their natural condition.
