#### Spots on Furniture.

White spots on furniture can be removed by rubbing with a cloth moistened with ammonia. But have a cloth wrung out of cold water ready to wipe off the surface as soon as the ammonia has been applied. Rub dry with a soft chamolus.

#### Attractive Cold Slaw.

A grated carrot added to the cabbage when making cold slaw makes a mighty pretty dish.

finds herself caring for the man to whom she is a toy while he is to her a bank account—and nothing more. While the butterfly sings her wings, the simple girl who is willing to marry the bank clerk goes on with him to the growth in love and happiness which are the only big real things in life.

We pay for all we get. Life is inexorable about that. The girl who sits and calculates how much she can get without paying, is trying to defeat the bookkeeping of the ages. It cannot be done.

### This Girl Would Sacrifice Ideals of Life for a Few Gay Times

By BEATRICE FAIRFAX

Dear Miss Fairfax: I wonder if you will dare print my letter. I'm a radical and I disagree with all the things conservatives think they have to say. I want the joy and sunshine of today—and I can't see any common sense in worrying so much about tomorrow that you miss all the fun by the way. Suppose there is "everlasting punishment"—it can't spoil what I'm having now. Don't think I'm what is called a "bad girl." I'm too fastidious for that. But if a rich married man comes my way and wants to take me out, why should I leave him to the designing women who prey on such men?

My apartment is nicely furnished and I have good clothes. That takes every cent I make. If someone likes me enough to give a handsome present, why shouldn't I accept it? If I can get invitations to dine and go to the best theaters and out motoring with rich men—why should I care how their wives are amusing themselves? Some one else would get the invitations if I didn't take them.

I'm 24 and I was poor and lonesome up to six years ago. I wouldn't marry one of the bank clerks who might so honor me. And I'm not pretty enough to land anything better. So I'm going to enjoy myself as I go and when I'm old I'll work hard and be conservative. But if I don't live to get old, why then I'll have had my good times anyway.

I'm hard because it pays. And no one can convince me of anything else. But I'd like to speak my piece right out where other girls can see it in print. IRMA.

Her it is in print, Irma! It doesn't seem very convincing to me. What you have said is that you would rather have a few gay times now at any cost of ideals and friends and home and love than educate yourself to appreciate the things on which the world is built.

Read a few of the stories of the women who grab at every form of entertainment and amusement and, finding themselves involved in tawdry affairs, take some desperate way out. Every day the news rings with the story of some woman who set her

### ADVERTISMENT. You'll Get Rid of Blackheads Sure

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this get two ounces of salicylic powder from any drug store—sprinkle a little on hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The salicylic powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.

### Library Chats

The reference room has been besieged with questions concerning the late President Harding's administration, as well as other queries regarding procedure in government at the time of a president's demise. Some of the questions have been:

How many presidents have died in office?

What was the cause of death?

Who succeeds the vice president in case of his death?

Was Harding's Alaskan trip a political journey?

Have you a collection of Harding's speeches?

Have you a file of the Marion Star, President Harding's paper?

Was Mrs. Harding a newspaper woman?

What material on President Harding and President Coolidge have you in the library?

And so it goes all day long. Two-

thirds of the inquiries to the reference room come over the telephone, and since the much regretted death of our president, th questions have been about Harding. The library has compiled all the newspaper and magazine articles pertaining to the late president, his family, occupation and life and all that has been published concerning President Coolidge, for the use of its patrons. The library was closed Friday afternoon, honoring the late president.

Many interesting items of value to the newspaper fraternity are on display for the enjoyment of the delegates to the Nebraska Press association in Omaha this week. The library owns an original Franklin letter, telling of the establishment of the first pay library in America, which is of interest to press men, because Franklin was the father of American journalism. Other examples of early printing in America are on display and give mute testimony of the wonderful inventions in printing that have taken place in America.

## Aulabaugh's August Fur Sale

Not only includes the full list of North American Furs, but also every desirable kind of imported furs.

### Reciprocity Between Raw Fur Dealers

Let us explain how our reciprocal arrangement with other raw fur dealers represents a service to you and saves money for you. The Hudson's Bay country is recognized as the world's best trapping ground and raw fur dealers are naturally anxious to buy a portion of the collection of pelts we receive from that section. We sell them on close margins and at prices well below the established market.

They reciprocate by selling us their choicest collections of imported peltries at prices that we could not hope to get on the open market. This advantage is passed right on to you in selected qualities and a saving in price.

Now you can see why our technical knowledge of furs and close contact with the general fur trade enables us to serve you better.

Nearly all imported furs must be dyed to meet the present styles. Our Mr. Aulabaugh is a fur dresser and dyer by trade and he carefully selects the dyer who specializes in the particular color wanted. This is a little service that you cannot buy, but that is given to you without charge here. You know the disappointment of a fading dye; why assume this risk yourself!
