

### Modern Trend Peril to Youth, Minister Says

#### Conditions Flayed by Omahan at Lutheran Meeting—Mision Work Encouraged in Resolutions.

Special Dispatch to The Omaha Bee.  
Columbus, Neb., Aug. 18.—That the forced awakening of sex consciousness, loose morals, morbid curiosity and evil associations, coupled with the "dangers of unbelief, false belief and the mistaken teachings that tend toward a unionism in religious life and the elimination of denominational differences comprise an evil which threatens disaster to the young people of the church, was the declaration of the Rev. E. T. Otto, Omaha pastor, addressing the North Nebraska and Wyoming pastoral conference of the German Missouri synod Lutheran church here.

The clergyman declared that parents must devote more time to directing children. In speaking to the Walther league, the young people's association of the church, Rev. Mr. Otto said there were 1,000 young people's senior societies and 150 junior organizations in this synodical conference. These leagues, he declared, have a membership of 50,000 and were doing much for the spiritual needs of the youth of the church.

#### Church Schools Grow.

The superintendent of parochial schools in the North Nebraska and Wyoming district, Prof. H. Hillman of Seward, declared that the schools of the church were growing and their work was being constantly extended.

Resolutions were passed at the meeting to encourage the mission board of the church to aid other congregations without schools by moral and financial support.

Rev. M. Adams of Omaha, president of the Lutheran Orphanage association, reporting the conditions of the orphanage at Fremont, said greater financial aid was needed for the institution, which makes it a business to gather orphan children and then later to give them out for adoption.

#### Norfolk Hospital.

Rev. W. J. Dietzen, Battle Creek, Neb., representing the Lutheran Hospital association, announced that the church was taking over the Campbell hospital in Norfolk and that hereafter it would be managed by the church.

Tomorrow the 80 visiting clergymen as well as the local members of the Emmanuel Lutheran church, of which Rev. H. Miesler is pastor, will hold a mission festival in Buffalo park square. Special delegations from the congregations in Leigh, Schuyler, Madison, Humphrey and other towns will attend.

Morning services at 10:30 will be conducted in the German language. Rev. Titus Lang of Omaha delivering the sermon. At 2 there will be an English service. Rev. A. Caster of Alabama will deliver an address. The band of the Emmanuel Lutheran church of Schuyler will play accompaniments to hymns and will furnish special music.

**Your Blood—  
the secret of  
Vitality!**

YOU, too, may be more attractive. It is the blood that circulates thru your body and comes to the skin that makes the "glow." It is the rich blood that clears away pimples, skin eruptions and makes the skin youthful and clear. It is rich blood that feeds the flesh and rounds out the body naturally.

Then why not use this simple reasonable way to have more strength and more vitality and attractiveness that follows?

S. S. S. is one of the greatest blood-cell builders, body-builders and blood-cleansers of all time. Its medicinal ingredients are purely vegetable.

S. S. S., because of its blood-building powers, is a remarkable builder of firm flesh. It fills out hollow cheeks and beautifies the complexion as thousands of men and women can testify.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

### Wets Plan Drive to Grasp Balance of Power in 1924

#### Claim Victory in 1922 Elections—To Campaign in 10 or More Pivotal States.

Washington, Aug. 18.—A campaign to "grasp the balance of power" in 10 or more states preparatory to the elections in 1924 has been started by the Association Against the Prohibition Amendment. A memorandum distributed from headquarters of the organization here outlines the plans as follows:

"The Association Against the Prohibition Amendment won a real victory in the 1922 election.

"Conditions are favorable for a more impressive triumph in 1924 and we believe that you will be interested in our plans to this end.

"As the political situation stands at present, our organization has an excellent opportunity to grasp the balance of power in next year's political conventions by working now to increase membership and to awaken public sentiment in such 'pivotal' or 'key' states as Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Illinois, Wisconsin and California.

"The states mentioned contain about 45 per cent of the population of the country and all are more or less favorable to the repeal of the Volstead act. It is the task of the association to so organize these states that it will be necessary for the party that wins them in 1924 to make concessions along the line of repealing or modifying the present prohibition laws."

#### Gas at 10 Cents Wholesale Possibility for New York

New York, Aug. 18.—Reports were current in the financial district today that a large refinery had offered gasoline at wholesale at 10 cents a gallon, as compared with the tank wagon price of 19 1/2 cents, quoted by the Standard Oil company of New York.

None of the larger companies would admit having made or received such an offer but it was stated that there was little doubt but that some refiners unable to move large stores of gasoline through ordinary channels would be disposed to let it go at even this low price.

Production of crude oil in California was said today to be at a new high record rate of 875,000 barrels a day. Current conditions in oil were pronounced the most disastrous since 1914-15.

#### Webster County Fair.

Bladen, Neb., Aug. 18.—The annual Webster County fair will be held here August 23, 24 and 25, this year. Ball games, concessions of various kinds, and the horse races for which this fair is famous will be held. Race horses are already arriving from various points and getting in trim. Fireworks will be displayed each night.

### Gallant Cossack Making Good as New York Farmer

Syracuse, N. Y., Aug. 18.—From colonel in the imperial Russian army, riding instructor to the blood royal and inspector of munitions for the Russian war office to rough-garbed farmer on one of New York state's "abandoned farms."

It's a vast gap to bridge, but it tells the story of Nicholas Kadick, who today is working out salvation for himself and family near Apulia station.

He was born one of the famous Cossacks of the Black sea, his home in the hill country in the Russian peninsula lying between the Black and Caspian seas.

After completing a high school education he entered the Russian army in a Cossack troop, and served for 18 years. He fought in the Japanese-Russian war and the world war, his gallantry winning rapid advancement in rank. He was wounded 11 times; his face is marked by several scars, and one leg is slightly crippled from being smashed by a shell.

He was in the famous battle of the Masurian lakes, in east Prussia, earthen in the great war, when Von Hindenburg smashed the army of the Russian General Samsonoff and the marshes were filled with dead and wounded Russian soldiers. Five of

Kadick's brothers were killed in the campaign.

By a fortunate twist of fate he was sent to England as a munitions inspector before the Russian empire had fallen completely. He was there when Kerensky was trying vainly to save it. Then he was sent to America on the same mission and was stationed at many different munition plants in this country and Canada.

When everything was over and the old Russia gone, Kadick finally bought the farm in the hollow near Apulia and started to retrieve bravely the fortunes which sank with his fatherland's fall.

His wife fortunately had come with him to this country, with Nina, a daughter born in Russia. Since then two other children—Micha and Nata—have been born. But Nicholas, the first born, named after Grand Duke Nicholas, has not been seen by his parents since he was 5 months old.

When Kadick took the farm near this city it was nothing but a shell—a few barns and sheds in poor condition, an old house and 140 acres of land lying fallow and unfruitful. Today he has 15 cows, 10 hogs, arable equipment, a team of horses which cost \$500 and a pair of mules.
