

G. O. P. to Chicago.

By Associated Press. New York, Sept. 4.—Frederick W. Upham, treasurer of the national republican committee, returning today on the Leviathan from a trip abroad,

said there was no question but that Chicago would be the scene of the 1924 republican convention. A majority of the members of the committee had expressed themselves in favor of Chicago, he said.

San Francisco, which Mr. Upham said had "a powerful bid" for the convention "wouldn't have a chance," he declared, "unless President Coolidge expressed a desire to have the session elsewhere than at Chicago."

Coolidge Firm on Dry Law.

Washington, Sept. 4.—President Coolidge intends to continue the prohibition enforcement policies of the late President Harding, it was re-

vealed at the White House tonight. The president aims to seek closer co-operation between federal and state authorities to make the 18th amendment and the Volstead law effective to the fullest degree. The executive's attitude on dry

enforcement was made known at a conference with Governor Hyde of Missouri, who came to Washington primarily, he said, to discuss this subject.

Krupps Block Banker Control

By Universal Service. Berlin, Sept. 4.—The proposal of Leslie Urquhart, chairman of the Russo-Asiatic Consolidated, Ltd., that a consortium of American, allied and German financiers take over the industries in the Ruhr seems to have come to naught by reason of objections raised by the Krupp family. It was declared that the Krupps had rejected the plan for joint operation of 50 per cent of their stock to the consortium, declaring that all the stock now in the hands of the Krupp family must remain there. It was stated that the Krupps were willing to co-operate to keep the industries going, but another basis would have to be found. It was reported that J. P. Morgan & Co. would be the American representatives in the consortium.

St. Paul Reservoir Collapses.

St. Paul, Minn., Sept. 4.—Twelve million gallons of water stored in a city reservoir were suddenly released today when a portion of the reservoir collapsed. The structure was undermined by the bursting of a 36-inch main beneath it. A wall of water 10 feet high endangered lives of several persons. A portion of the roadbed on the main line of the Minneapolis, St. Paul & Sault Ste. Marie railroad, and a trestle, were washed away. The damage was estimated at \$10,000.

Silk Trading Halted.

New York, Sept. 4.—Trading in the raw silk market here was suspended today and probably will not be resumed until the Japanese market re-opens. All offerings of raw silk in New York have been withdrawn.
