Mr. and Mrs. E. John Brandeis ar rived home Tuesday morning from the jungles of Africa and are in their bungalow, atop the Brandels stores, itself a civilized jungle filled with trophies of previous expeditions.

This fall, slim, dark young merchant-prince and sportsman doesn't

boast. "Any thrilling adventures?" he was

"Only one real thrill, I think," he "I had lain in ambush near the lion bait for several nights when finally a lion appeared and I shot him in the shoulder with a .405 winchester. He fled and we followed his track the next day for eight hours. We finally found him and he came toward us roaring, a terrifying sound. I could say he charged us but I don't think it was a charge. I put nine more bullets into him before I knocked him

Rhino Hunt Child's Play.

"It must have been exciting to hoot the rhinoceros?" said an inter-The young hunter's lip curled

"Nothing to it," he said. "A child Aviators Film yellow.' He won't fight. In fact, a tion isn't dangerous unless he's

wounded.' And here appeared Mrs. Brandels, a slim, blonde, dainty, smiling young woman.

"My wife beat me shooting lions," says E. John proudly. "She got three. I only got two.' "Weren't you terribly frightened?"

he was asked. "Oh, no," smiled the young huntess. "I was in the 'crow's nest' up a tree when I shot my first one but I really wasn't frightened when

I killed any of them.' yesterday are believed to be ones They saw elephants, also, but as none of them had tusks weighing 60 pounds they were not allowed to London and Dr. Alfred E. Burton, professor emeritus of astronomy in

Here's the List.

Besides her three lions, Mrs. Branleis shot a zera, a wildebeest, three kinds of antelope and a waterbuck. E. John shot, besides his lions, a night that four of the negatives derhineroceros, two zebra, two wilde- veloped by him were almost perfect beest, eight antelope, a waterbuck, and would take rank with the best three monkeys, a leopard, three im- ever made during a solar eclipse. pala, two oryx, three silver jackals and two topi.

The skins and other trophies ar on the way to Omaha. Moving pictures were taken of the hunt. One scene shows Mrs. Brandeis shooting a lion and another shows Mr. Brandels numping bullets into the big rhino. He is having a table top and a number of canes made from the thick hide and some umbrella stands from the fore feet

Mike Cames Along.

And then there is Mike, whom they observation station established north been assassinated at Moscow. brought along. Mike is not a wild animal, but a "regular fellow," as there were more favorable than at any from the southwest, but it came so both the Brandelses say. He is a other spot on the Pacific coast, acdung man with long, light hair. His cording to the scientists, The equipfull name is Mike Cottar and he and ment used was an especially con- reported that the horizon of the Pa- tions. his brother, Pat, were guides on the structed "ceolostat."
