Omaha Grain

Omaha, Sept. 14.

Wheat in the Omaha market was unchanged to 1c lower. Corn was unchanged to ¼c up. Oats advanced ¼c on the bulk. Rye was unchanged to ½c higher. Barley was unchanged.

There was continued liquidation in the Chicago wheat futures market today due to lower cables, heavy hedging pressure from Canada and an increase in Canadian receipts. There was fairly good absorption at inside prices, with offers in free volume at every slight advance. Frost in Illinois and Iowa gave the corn futures market some strength, but the weakness in wheat prevented good buying of this grain and the full advances were not maintained. The strength in the current month in oats gave the futures market in this cereal a steady tone.

These Omaha sales were reported:

NOTES ON MARKETS.

Reports from Dayton, O., said that late corn had suffered considerable damage.

New Orleans reported that shipping is tied up by the longshoremen's strike.

Secretary of Agriculture Wallace is quoted as saying that China and Japan will take about half of the Pacific coast wheat crop this coming year.

Kinyon wired from Huntsville, Mo.: "From Topeka to Kansas City a few late cornfields are still green; the rest are ripe and the crop averages good. From Kansas City here a small percentage of the fields on the Missouri river bottom are very poor; many fields however, are very good and the average is excellent, with most fields matured."

Chicago reported these deliveries on contract: 51000 bushels of wheat, 10,000 bushels of rye.

A New York wire quoted Russell's News thus: "Wheat sales for export were estimated at 250,000 to 350,000 bushels over night, with intimations of some fresh Italian business. The trade was all in Manitobas and a litte was worked to Copenhagen. The Greek order for 1,100,000 bushels is expected to be heard from late this afternoon or tomorrow. There has been a moderate business in No. 1 Manitobas, f. o. b. New York, in last 10 days of October, at 21c over Winnipeg October."

Boone, Ia., wired: Weather bureau reports a temperature of 30. The elevator at Boone says ice froze here."

An Indianapolis wire said: "This light frost is just what our corn needs; it will help to dry it out."

Hungerford wired from Loda, Ill.: "Heavy white frost here. Too early to tell extent of damage to corn, but soft corn undoubtedly damaged considerably."

A Chicago wire said that private reports show that a steady rain is falling over central Kansas, the first in several weeks, and that it will be highly beneficial to new wheat.

Frost at St. Paul, Minn., last night was heavy; at La Crosse, Wis., killing; at Charles City, Ia., heavy; at Milwaukee, Wis., Des Moines, Davenport and Dubuque, Ia., heavy, and at Indianapolis and Fort Wayne, Ind., and at Cincinnati and Toledo, O., heavy.

Chicago Grain

By CHARLES J. LEYDEN

Chicago, Sept. 14.—A better tone prevailed in wheat most of the session today, because of changed technical conditions, but prices sold off late in sympathy with Winnipeg. Corn was ¼c lower to ¼c higher. Oats were ⅛c to 1¼c higher; rye ruled ⅝c to 1c lower and barley closed steady.

Covering by shorts during the early hours was heavy and with the liquidating spasm over the market really acted for a rally. That the Canadian crop, however, dominates the trend at this time was readily manifested toward the close when prices weakened. The volume of speculative interest in the pits was light and the range narrow.

Frost reports from Illinois and Iowa gave corn a little boost during the early hours, but the market failed to hold. There was continued selling of the December and buying of the May with the result that the latter month closed independently higher.

Oats were relatively firm and closed higher for the day. Commission houses bought early while locals sold.

Rye dragged lower with wheat. Speculative interest was not large and it took but little selling to force a reaction.

Provisions were active and higher. Lard was 10 to 12½c higher, and ribs were 7½ to 12½c higher.

Pit Notes.

The weight of the Canadian movement at terminal points in the north is still to be felt and the Winnipeg market is bound to encounter consistent hedging pressure for several weeks. There were 1,400 cars of grain in sight at Winnipeg for tomorrow. Over 900 cars were received today.

The movement of wheat in the American northwest was a little heavier, and cash sales were effected at lower prices. Locally and in the southwest cash wheat was steady to easy. Private advices from Colorado claimed that mills were actively buying cash wheat. The winter wheat run is letting up noticeably, as expected.

Among other things that casts a doubtful aspect on the possibility of higher prices in wheat is the light volume of speculative trade now coming into the pits. The market gets frequent rallies, due mainly to short covering, but when that sort of buying is satisfied a sagging tendency is resumed.

The Pacific coast oday was credited with buying wheat in Montana at prices 3c better than those obtainable in the Minneapolis market.

Bradstreet Review.

New York, Sept. 14.—Bradstreet's tomorrow will say:

Trade industrial and crop reports are spotted, but cooler weather, the advance of the season and the sharp rise in cotton, which was 7 cents above the low point of July at one time, have quickened fall buying in primary markets, in the west and parts of the south, notably Texas, where cotton marketing is brisk at prices nearly 8 cents above a year ago. Reports from the iron and steel, lumber and canned and dried fish and fruit trades note the stimulating effect of possible buying for Japanese account. The passing of the anthracite coal strike menace and the victory of the miners shift public concern from the subject of supply to that of the price of that fuel. Carloadings have again set a new high record, with merchandise and miscellaneous loadings providing most of the gain shown over the preceding week. On the reverse side of the picture, it is to be noted that the stock market, on the theory of the news being out, has gone off on the reports of the ending of the coal trouble and the reported increased disposition of the Germans to meet French views as to reparations. Weekly bank clearings, $6,281,214,000.

Chicago, Septp. 14.—Cattle—Receipts,

New York Sugar.

New York, Sept. 14.—The raw sugar market was quieter today and the undertone was easier. The only sale reported was a lot of Philippine Island consisting of 13,860 bags at 6.65c delivered, equivalent to 4⅞c cost and freight for Cubas, or ⅛c below the last previous sale. It was rumored that Cubas from store had sold on the basis of 4 15-16c cost and freight.

Raw sugar futures were lower, influenced by the decline in the spot market. There was renewed selling by trade interests and houses with Wall street connections with prices at one time showing net declines of 3 to 11 points. At the decline there was scattered covering and prices rallied, closing 2 to 6 points net lower. Closing: September, 4.85c; December, 4.40c; March, 3.69c; May, 3.69c.

The demand for refined sugar was less active today but there was no change in quotations which are listed at 8.40c for fine granulated. One refiner is accepting orders at 8.25c. Refined futures nominal.

Sheep and Lambs—Receipts, 300 head; market steady; 15c higher; native lambs, $13.25.

New York Coffee.

New York, Sept. 14.—The market for coffee futures just about recovered its reactions of yesterday owing to the relatively strong showing of Brazil and reports of rather a better demand in cost and freights. The market opened unchanged to 9 points higher. September sold up to 9.20c and March to 7.75c, or 10 to 11 points net higher, and the close was at approximately the best, showing net advances of 10 to 13 points. Sales were estimated at about 15,000 bags. September, 9.20c; October, 8.90c; December, 8.20c; March, 7.75c; May, 7.35c; July, 7.43c.

Cattle—Receipts 1,000 head. There were only a few fat cattle on sale today and they moved at mostly steady prices. Quality was poor. Stockers and feeders continue very dull and the week's clearance was poor though prices are anywhere from 25@50c lower on all grades except real desirable stockers and the best heavy fleshy feeders.

Hogs—Receipts 5,000 head. Shipper demand this morning showed no particular urgency early and it was rather late before anything began to move. After trade started prices looked steady to weak on the best hogs here. Packers, as usual, held off for lower cost and up to a late hour no sales of consequence had been made. Bulk of the sales looked around $7.50@8.50 with a top price of $8.75.

Financial

By BROADAN WALL.

New York, Sept. 14.—Professional bear traders again dominated dealings in the stock market today. Selling was less aggressive than on the previous day. The present market is made up practically entirely of professional business.

Sentiment continues bearish on the oil group, owing to the unfavorable conditions prevailing in the industry and the latest rumors concerning the Standard Oil companies.

The Pan-American directors declared the regular dividends on the stocks, as had been freely predicted the last week, but their action failed to impart strength to the shares.

The oil group has been a depressing factor on the general list, but it is considered about time that good shares started to break away from this influence.

Relative steadiness of the transportation shares is due to the record carloading figures reported last week.

With the cessation of preparations for window dressing in anticipation of a national bank call, the money eased off to 4½ per cent, compared with 6 the previous day.

Foreign exchange rates were higher, especially French and Belgian francs, but there was little change in the tenor of the foreign news relative to the Ruhr and reparations. Some big international houses have refused to do business in German marks, owing to the fact that they have declined to a level where they are not considered a real medium of exchange.

The feature of the bond market was found in the thinness of the markets for recent issues. In some instances dealers said they were unable to find bids. Cuban government 5½s, of which the syndicate members had to take $10,000,000 of the $50,000,000 offered, touched a new low level.

Total sales of bonds today were $9,303,000, compared with $8,757,000 previous day and $12,781,000 a year ago.

New York Bonds

New York, Sept. 14.—Prices pointed lower in today's trading in bonds which continued relatively active. Net changes, however, were generally limited to fractions and there were numerous individual exceptions to the general trend.

Active United States government bonds held comparatively steady, fluctuating within 3.32 of a point. These issues were benefited by the ready over-subscription of $200,000,000 4½ per cent treasury certificates. Cuban 5½s continued to sag, but the closing quotation was only fractionally under yesterday's final figure. Lyons 6s and Czecho-Slovakian 8s each advanced a point.

Railroad mortgages were mixed. Hudson & Manhattan adjustment income 5s and Third Avenue adjustment 5s each moved up 1, while losses of a point or more were recorded by New York, Westchester & Boston 4½s, St. Paul 4s of 1925, Kansas City terminal 4s and Southern Railway 5s.

Industrial lines held fairly firm, a drop of 1 by Armour & Co. 4½s being the only outstanding change.

Defiant Italy's Challenge To Fifty-two Nations

Italy's drastic demands upon Greece after the murder of the Italian members of the Greco-Albanian boundary line, her bombardment and seizure of the unfortified Greek Island of Corfu, and her denial of the right of The League of Nations to intervene in the resultant crisis, American editors agree, have given the League its "first real test"—a test, "on which it may stand or fall." The New York **Evening Post** insists that "the challenge so roughly flung down by the Facist dictator must be picked up by the representatives of the fifty-two nations now assembled at Geneva," and argues that "fear that the League may fail to vindicate its authority against the defiant Italian government ought not to enter into consideration." Read this article in THE LITERARY DIGEST this week. It not only presents the gist of public opinion in America, but also in Italy and Greece.

In the Theaters—"FUN from the PRESS"

is a mark of distinction. For nearly two generations The Literary Digest has been a symbol of refinement and taste in the literary appreciation of the American public. And a confidence so rigorously gained will never be lessened. There is a covenant in the name. So, discriminating patrons of the cinema art who desire robust spontaneous humor, free from all taint, may ever enjoy "FUN from the PRESS." It is an ace of amusement, the cream-collection of the farce and fun from the press of the world—a mirror of the happier hours of life. In leading theaters everywhere. Watch for it weekly. It bears the seal of The Literary FUN from the PRESS produced by The Literary Digest. Distributed by W. W. Hodkinson Corporation.
