

Man and Woman Are Found Dead in Hotel Room

Pair Dies From Bullet Wounds in Heads—Revolver Be- tween Them in Bed at Havens.

Tony La Bue, proprietor of the Sunset cabaret, Twenty-fourth street and Patrick avenue, and a woman believed to be Toots Watkins, employe at the cafe, were found dead in room at the Havens hotel at 4 Saturday afternoon.

Between them, on the bed, was a .32 caliber revolver. Both had bullet wounds behind the right ear.

La Bue formerly operated the Sedan taxi line.

Rudolph Smith, who has the next room, told the clerk at the hotel he heard two shots shortly after noon Saturday, in the room occupied by La Bue. He told the clerk to watch and see if anyone came out.

Clerk Opens Door.

After 4 Saturday afternoon, when the maid knocked at the door to make up the room, she was unable to get a response. The clerk, Reese James, opened the door with a pass key and found the bodies. He called police.

Two Escape Death by Jumping From Burning Boat

On the dresser were found two letters, one addressed to Patsy La Bue, the other to Miss Lucy Gumm, 1620 North Twenty-second street. Both letters were written in Italian. They were turned over to the coroner, unopened.

Bodies of both La Bue and the woman were lying on the bed in a natural position, as though both had been asleep at the time the shots were fired.

La Bue in Good Spirits.

Gilbert Dolan, 711 North Eighteenth street, called at the room about 8:30 Saturday morning to get the keys of La Bue's car, in order to move from the area assigned to the formation of the Union Pacific parade. La Bue appeared to be in good spirits then, he said, and told him to throw the keys back under the door when he moved the car, and not to wake him up.

The keys were returned in the manner directed about 9 a. m.

Part of a pint of liquor was found in the room.

Smith told police that La Bue and the woman entered the room about 2:30 Saturday morning and quarreled until 4, after which all was quiet.

The bodies were turned over to local undertakers. No date has been set for the inquest.

Power Company Given Right to Issue Bonds

Special Dispatch to The Omaha Bee.
Lincoln, Sept. 15.—The Nebraska railway commission today gave the Southern Nebraska Power company of Superior option of issuing \$200,000 in bonds or \$200,000 in 7 per cent preferred stock to take care of the immediate indebtedness of the company.

The original application of the company was for \$135,000 in common stock and \$450,000 in preferred stock. The present stock issue outstanding is \$20,000 against claimed valuation of \$32,516.

The commission has been investigating the value of the company's holdings. The company put in a supplemental application for \$200,000 to pay bills now due.

This company supplies electricity to Guide Rock, Cowles, Nelson, Abdal, Lawrence, DeWeese, Fairfield, Clay Center, Glenview, Hardy, Byron, Deahler, Chester, Hubbard, Hebron, Oak, Ruskin, Edgar, Dawsonport, Ong, Shickley, Carleton, Bruning, Belvidere, Nora and Mahaska, Kan.

Montana Seeks Lower Grain Rate to Pacific

Helena, Mont., Sept. 15.—The Montana railroad board today laid its proposal before the Interstate Commerce commission, at the hearing on interstate grain rates, conducted by Examiner Mackley, to put Seattle and Minneapolis markets on an equal basis as regards freight rates to a considerable portion of the Montana grain-growing section.

The commission has been investigating the value of the company's holdings. The company put in a supplemental application for \$200,000 to pay bills now due.

Systematic Effort

It was a great gathering of earnest men and women—that "Safety First" conference brought about by the Union Pacific. It certainly set many people to thinking. "Safety First" means systematic endeavor and orderly procedure in all matters. It may be applied with advantage in individual, social and business affairs. You have often noticed in The Brandeis Store Ads the picture of "The Lookout in the Foretop." Do you know what that means? In brief it means "Safety First" as applied to the buying and selling arrangements of The Brandeis Store. It is the symbol of the system which, in the parlance of the street, is "Always on the Job" in this business institution.

Not long ago a writer in the New York Commercial said: "The Lookout in the Foretop" is a picture phrase of splendid beauty. The pilot in his cabin, the engineer below deck, the captain, the mate, passengers, stevedores, travelers and crew alike are dependent on the lookout in the foretop."

Likewise the buying public is dependent upon the systematic operation of the mercantile institution with which they chiefly do business.

To this "Safety First" system is due the many advantages which The Brandeis Store customers habitually obtain. It is the system that has been organized to take advantage of bargain opportunities and feeling out market conditions. Immense sums of cash are often necessary to close an exceptional bargain. A part of "The Lookout in the Foretop" system is such an arrangement in our financial affairs that we can meet any bargain emergency that may arise. Even in the face of high prices undeveloped signs indicating a fall in prices are detected and our customers profit by it. A manufacturer or jobber loaded down with desirable goods and in need of immediate funds is readily discovered. Our customers reap the benefit.

"The Lookout in the Foretop" gives the assurance that with each passing day The Brandeis Store's history for Prices, Quality and Service will repeat itself. When that has been said nothing need be added for a discriminating buying public to understand that this is a fine demonstration of "Safety First" as applied to a mercantile institution.
