Believe Zev Will Race Papyrus

New York, Oct. 3.—Unless Admiral Carey, T. Grayson, owner of My Own promptly acquiesces to the match race terms recently outlined by Major August Belmont, it is believed that Zev, Harry Sinclair's price 3-year-old, will be named as America's representative in the \$100,000 international race with Papyrus on October 20. The committee's choice is to be officially announced Saturday. At the committee's request, Mr. Sinclair has agreed to allow Zev to compete against My Own in a match race over the mile and an eighth route on that date. Admiral Grayson, however, has insisted that such a trial test should be made on a mile and a half course, the distance to be run in the international race. As the committee and Mr. Sinclair state the shorter distance will prove a fair test and aver that Zev, owing to a recent injury, is not ready to cover the longer distance, the match race hinges on Admiral Grayson's agreement to the mile and an eighth project.

Adolfo Luque Hero in Havana

Havana, Oct. 2.—No conquering hero returning to his native land could have received a more hearty welcome than did Adolfo Luque, the premier pitcher of the National League when he arrived in Havana yesterday. Long before the steamer came to her pier the wharves and nearby streets were jammed with thousands of admirers. The army, navy and city, and the professional, semi-professional and amateur baseball leagues were represented in the parade that escorted the Cincinnati twirler up to the offices of El Diario De La Marina, where toasts were drunk to his health. He was showered with flowers along the route from the pier to the newspaper office.

The receiver of the telephone downstairs should be placed on the hook as soon as the person upstairs answers.

Receiver Off---Line "Busy"

Often a telephone is "busy" merely because the receiver has been left off the hook.

This happens quite often when the telephone is answered downstairs and someone talks from an extension upstairs.

It is well to remember that when your receiver is left off the hook your line is "busy" and you cannot be called.

If the receiver is left off the hook very long, the operator will naturally assume your telephone is "out of order" and so report it to anyone trying to call you.

Old Friends Talk Things Over.

The strange dog, who had been so badly fooled by Peter Rabbit, finally found Peter's tracks again and followed them. But he was too late. Peter was safely in an old hole of Johnny Chuck's. The dog tried to dig him out, but this didn't worry Peter at all. He knew that that hole was too deep. He knew that after a while that dog would get tired of digging. He did. For a while he made the dirt fly, then he grew tired and discouraged. At last he gave up and trotted away.

"What were you doing down in that hole?" "I was chased by a strange dog and this was the only place of safety," explained Peter. "My, but that dog could run! You ought to be thankful, Bob White, that you didn't

"Why, I don't know anybody who has said it, but I've never seen dogs chasing you." "Dogs don't chase me," replied Bob White. "If they chased me I wouldn't care. But they hunt me,
