

Better Care for Crippled Soldiers' Plea

Founder of Citizens' Committee, Making Tour of 34 Cities, Arrives in Omaha.

A. Fitz Roy Anderson, New York, founder and secretary of the Citizens' Committee of America, whose aim is to induce the public to stop in its mad rush and look into treatment of wounded, crippled soldier boys, was in Omaha Monday. He is making a tour of 34 cities in America.

"I have no criticism to offer of anyone individual in handling the affairs of these boys," Anderson said. "The problem is too great, too complex, to be seriously affected by any one single person.

"I believe in General Hines we have an excellent director of the U. S. Veterans' bureau. He cannot be held responsible for inherent evils of a system to which he has fallen heir.

Huge Expenditure.

"Anyone who is the least acquainted with formation of a governmental department may readily understand what happened when this great bureau suddenly came into existence with its program of expenditure reaching far into the billions of dollars.

"Organized hurriedly, without sufficient regard to standards of efficiency, it is subject to weakness of political and factional influences where able men are considered destructive in sealing up sluice gates of golden graft. As a result we find the good men dropping out, or being forced out, with a sickening regularity.

Blames Indifference.

"It is the citizen's indifference, his apathy that is largely responsible. We each of us have a deep personal obligation to see that the job is done, and well done."

Alice Belle Cox, 3 daughter of Rev. and Mrs. H. P. Cox of Tecumseh, Neb., has been credited with the highest health score for girl babies in Nebraska, according to Dr. C. Coburn of Lincoln.

Alice has blue eyes and blond hair. At the county fair at Tecumseh on September 19, she competed for honors with 60 other girl babies and won first place with a health score of 97.5. She was presented with a silver cup.

60,000 March in Legion Parade

Veterans Tramp in Riot of Color to Flare of Bands in Frisco.

By International News Service.

San Francisco, Oct. 16.—Their feet re-echoing the paths they trod in No Man's land in 1917 and their voices again raised in cries of battle and the tunes of trenches, more than 60,000 world war veterans marched here this morning in a gigantic military parade, which marked the second day of the fifth American Legion convention. Twenty thousand sea warrior-sailors of the Pacific fleet at anchor in San Francisco bay joined the legionnaires in the parade with hundreds of delegates of the legion auxiliary and various war workers' organizations.

In a riot of color the flower of America's former fighting forces marched through the marts of trade, lined with a host of San Franciscans and visitors from all parts of the globe, who lifted their voices in friendly greeting as the uniformed delegates tramped upward from the bay to San Francisco's civic center. In a mighty blending of khaki, gold braid, shining puttees, the blue of the navy and all the colors of King Solomon's coat, as represented by various bands, cadet corps, auxiliaries and clubs, the marchers passed in review in a scene more brilliant than fields of Flanders poppies.

Heretofore the greatest parade of its kind ever attempted in the west, all advance notices were followed, as perhaps no persons stepped along to the flare of bands and drum corps than ever in the history of any western city.

Infantry, artillery, machine guns, ordnance, aviation, marine and navy—all the branches of the war department—were represented in the spectacle. The mighty fighting equipment on land, sea and air contributed to bring home to the host of spectators the story of the military.

Every state in the union, every regiment of the days of '17 flung out its colors as the legionnaires troiked past the reviewing stands, where Admiral R. E. Conz, commander of the United States fleet, Secretary of Labor Davis, Legion Commander Alvin Owsley and other distinguished visitors raised their hands in salute.

As the pageant progressed, various delegations vied with each other for the nod of the crowds. Cowboy bands from Texas and Montana, a calliope from Wisconsin, brightly clad female cadets from the plains of Nebraska, Indians from the southwest, copper-helmeted trench heroes from Arizona and delegations in a colorful variety of uniforms from far eastern states bid for honors.

In the contest for the next convention of the legion, marches from Boston, Cincinnati, Atlantic City and Victoria, B. C., held high their banners.

Dennis Sheedy Dies.

Denver, Colo., Oct. 16.—Dennis Sheedy, 77, widely known throughout the west in the early days as a cattleman and mine operator and later as a banker in Denver and president of the Denver Dry Goods company, died at his home here early this morning of pneumonia. He is survived by his widow, formerly Miss Theresa Burke, niece of Bishop Burke of the Catholic diocese of St. Joseph, Mo., and two daughters, Mrs. Robert Livingston and Mrs. I. Townsend Burden, both of New York City.

Terrific Winds Hit Gulf Coast

Storm, Originating 200 Miles Off Texas, Sweeps on to Louisiana.

Washington, Oct. 16.—The gulf storm has moved inland over Louisiana and it is moving northward, the weather bureau announced today. All hurricane warnings have been ordered down, but southeast storm warnings are displayed from Bay St. Louis to Cedar Keys, Florida.

New Orleans, Oct. 16.—The gulf disturbance reported yesterday 200 miles off the Texas coast, was headed this morning for the Louisiana coast, and according to warnings issued by the weather bureau at Washington, would strike the mainland at about longitude 91 west and move northeast. The warnings added that the storm had reached hurricane intensity.

It was believed here that this would place several parishes west of New Orleans in the immediate path of the storm and that its center would be close to Morgan City, 75 miles west of here.

Practically the entire Louisiana coast was being swept by strong winds, which in some instances had reached gale proportions. High tides were reported from all points.

Dr. Cline, of the local weather bureau, was taking emergency steps to distribute the warnings to all points likely to be affected. Small crafts on Lake Montchartrain, warned by the high winds, which during the night had reached a velocity of more than 25 miles an hour, were reported safe and vessels in the harbor were taking every precaution to be prepared for the storm if it should break as scheduled.

Spanish fort, an amusement park, and Milneburg, a fishing resort, both on Lake Pontchartrain, were reported early today to be partly flooded, and families living at the latter place were reported moving out.

Four persons were injured in New Orleans during the night as a result of accidents traceable to the high wind.

Floods in Texas.

Dallas, Tex., Oct. 16.—Many streams in the north, east, central and west portions of Texas are at flood stages following almost a week's unceasing rain, according to reports here today. The property loss is expected to be heavy. Railroad traffic has been delayed because of wash-outs.

The area affected is the territory reaching from the headwaters of the Red river to Ringgold, Tex., a distance of 400 miles.

More than 1,500,000 wage earners are unemployed in England.

Jobless Attack Berlin City Hall

Repulsed by Police Bayonets—Traffic Blocked—Shops Closed.

By Associated Press.

Berlin, Oct. 16.—Several thousand unemployed attempted to storm the Rathaus or town hall in the heart of the city today but were repulsed by the police, who charged the mob with fixed bayonets.

The demonstration, which the authorities say was led by communistic agitators, completely blocked traffic in what is normally one of the most congested quarters of the city, and forced numerous shops to pull down their iron shutters as a protection against looters.

Congregating mobs in the outlying sections of Greater Berlin kept the police busy all the forenoon. At one point the police were forced to fire into the crowd, seriously wounding several demonstrators.

Renewed food riots are reported from numerous points in Germany. A serious clash occurred in Mannheim, where one police sergeant and one demonstrator were killed.

Leipzig continues to be the scene of renewed rioting and many of the shopkeepers chose to give away bread and oleomargarine in preference to having their premises looted.

London, Oct. 16.—A mob tried to force its way into the Berlin stock exchange this morning, says a Central News dispatch from the German capital. The doors were promptly closed and the police took up the task of dealing with the attacking throng.

By International News Service.

Mannheim, Germany, Oct. 16.—Two persons were killed and more than 20 wounded in riots which raged here for 24 hours.

The trouble started when plunderers of food shops fired upon police. They were temporarily subdued, but fresh disorders broke out today when police cleared the streets with fixed bayonets.

Police Captain Boetch was shot through the throat, dying later in the hospital.

Five policemen were among the wounded.

Forty looters were arrested and much goods was recovered.

Herr Waldhoff was dragged from his automobile by a band of youths and beaten so badly he had to be taken to a hospital.

French patrols in the occupied section of the city were strengthened.

3-Year-Old Lad Hides Mother's Party Gowns to Keep Her at Home

Oakland, Cal., Oct. 16.—Jimmy Powell, 3 years old, wanted his mother, Mrs. Betty Powell, of this city, to stay at home with him last night instead of attending a party to which Jimmy was not invited.

For a time it looked as though Mrs. Powell would have to grant Jimmy's wish—she could find none of her evening gowns and party dresses.

Mrs. Powell thought they had been stolen and summoned a policeman, to whom Jimmy confessed that he had hid the party costumes to insure victory in the party argument.
