

Progressives to Meet Nov. 20-22

A meeting of the National Progressive party here on November 20 to 22, at which an attempt will be made to unite all farmer, labor, co-operative and progressive political forces, and

to remedy the existing economic evils was announced last night by Roy Harrop, national chairman of the progressive party. "To take the government out of the hands of special privileges and Wall street's influence and make it in reality a government of the people, for the people and by the people so that they may enjoy their consti-

tutional rights as free men of life, liberty and the pursuit of happiness," are among the aims of the convention, the call said. Among those to whom invitations to speak at the convention have been sent are Henry Ford, Magnus Johnson and Henri Shipstead, the latter two United States senators from Minnesota; J. A. Hopkins, chairman of

the committee of 48; Alice Lorraine Daily, progressive candidate for governor of South Dakota; George W. Armstrong of Fort Worth, Tex.; Lynn G. Frazer, United States senator from North Dakota, and Samuel Untermyer of New York. Barney Google is always good for a laugh. In The Evening Bee.

No Night Flying Until Next Spring

Regular flights of the transcontinental night-and-day air mail will not start until next spring, D. B. Colver, superintendent of the central division, said Tuesday.

"We haven't the planes for the night flight yet," he said. "On the trial flights we used the same kind of ships as we use on the day flights. In regular work a new ship, better adapted to night flying is to be used. They are to be of such type as to be slower in landings than the day ships."

Frisco Thief Can't Keep His Fingers Still Even in Prison—Makes Collection From Inmates.

San Francisco, Oct. 23.—Odin Blood didn't intend to let six months in the city prison cause him to forget any of the fine points of his trade and to keep in practice, according to the police, he used his fellow prisoners as subjects on which to work. Blood was sentenced for larceny. Soon after his arrival in prison other inmates began to report loss of knives, watches, pocket trinkets, shoes and other articles. Yesterday Blood was again in police court on a charge of larceny. The judge reserved decision.

crow, or magpie, believed to be the only specimen ever taken alive, was captured yesterday near Denver by Joseph Cummings, high school boy. Charles Bowman Hutchins, naturalist, of Mill Valley, Cal., who is in Denver, heard of the find and last night went to the boy's home to see the bird. "I believe this is the only pure white magpie in existence so far as scientists have been able to discover," Hutchins said. "It has been known that such bird existed," he continued, "because a few have been found dead and are now in museums in the east. The specimen is snow white and in perfect health. It has not a black or colored feather on it. It even has albino eyes."

WOMEN OF THREE GENERATIONS
The daughter, mother and grandmother have all proved from personal experience the remarkable strengthening and tonic properties of Lydia E. Pinkham's Vegetable Compound in overcoming the ills of women. It was first made from roots and herbs in 1875, by Lydia E. Pinkham of Lynn, Mass., for her neighbors and friends. Its fame has spread from shore to shore until it is now looked upon by women everywhere as the standard remedy for woman's ills. It has been proved that it benefits 98 out of every 100 women who try it, which is a marvelous record for any remedy to hold.
