A remarkable new discovery of German Chemistry, called Buhler Oil, for the relief of Rheumatism, Gout and Neuraigia, is astonishing the medical world. This marvelous oil seems to kill rheumatie pains just as effectively as these other German pain killers—Novocain for painless dentistry and Aspirin for headache pains. Rheumatism in very many cases is due to internal abscesses (such as a blind pus pocket in a tooth) which give off posons, and which are carried in the blood to the joints and muscles. Buhler Oil when applied to the affected parts, seems to quickly penetrate and be absorbed by the body tissue. Even in the most severe and stubborn cases almost instant relief has been obtained.

So remarkable have been the results from the use of Buhler Oil that the American distributors have authorized local druggists to dispense it to rheuralite court and neurality aufferers in
