

# Dr. Cohn Says Jew Is 'Apart' Only in Creed

## Rabbi Answers Klan Wizard With Statement Race Has Become Assimilated in America.

Rabbi Frederick Cohn answered W. H. Evans, Imperial wizard of the Ku Klux Klan, in an address last night at Temple Israel. His subject was "Vision, or Lack of Vision, or Charles Evans Hughes Against Imperial Wizard Evans."

The address is an answer to the statement of Evans that the Jew could not be blended into an Anglo-Saxon civilization.

"When I chose my subject, 'Vision,' about a month ago, I had no special vision that would be particularly appropriate at this time, but Secretary Hughes has come out in a speech delivered at Providence, R. I., at Brown university, welcoming President Agnew of Yale, in which he denounces what he calls the 'fleeing vision,' the itch for sensation, the restlessness, the lack of poise, the hysteria and general insanity of the American people.

"I made a plea for vision. We need the calm vision, the true and sober judgment, and we must give ourselves time for this by study, by solitude, by going 'into the silence,' as some people call it. Our American life is too feverish; there are too many distractions. We are apt to be superficial because hurried, we give snap judgments, have only a smattering of knowledge. It was in a sense the Babbitt character and the Babbitt attitude that Hughes denounced; our content with mediocrity, with superficiality with what is, in the analysis; ignorance, chauvinism and worse.

**Perish Without Vision.**

"This is what the prophet of Israel meant when he said, 'Where there is no vision the people perish.' This was explained further by the kindred idea, 'My people perish for lack of knowledge.' Ignorance, prejudice, is the besetting sin and it leads to death, destruction; not only to the death of fine ideals, but to the destruction of what has been gained.

"We have again been regaled with an instance of what ignorance and prejudice, narrow-minded fanaticism and bigotry can accomplish, in the utterance of W. H. Evans Imperial wizard of the Ku Klux Klan, as recently published. His speech has been given wide publicity and therefore cannot be ignored. It is an attack in line with the well-known 'principles' or lack of principles, against the Catholics, the Jews and the negro.

"I am concerned particularly with what he said about the Jew (the Catholics will be able to take care of themselves, and those who fought a bloody four-year war to insure to the negro his rights, will see to it that these are not taken from him).

**Cites Evans' Charges.**

"The charges that he brings against the Jews are: (1) That they are 'unblendable,' they do not assimilate. They are people apart from all other people. They always will be. They will never intermingle with America. (2) They are not patriotic. To him patriotism, as the Anglo-Saxon feels it, is impossible. (3) A fifth of the Jewish race is in this country. (4) Their homes are not American, into which we cannot go.

"The Jew is 'apart' only religiously.

### Dreams of Speeding Car; Has Auto Crash Next Day

Columbus, Neb., Oct. 26.—Dream warnings will be heeded by E. G. Carter, from now on, he declares.

The other night Carter dreamed he was riding in a car with another Columbus man, traveling at a rapid pace when the car suddenly turned around and in a flash was traveling in the other direction at a terrific rate of speed. The day following Carter started on a trip to Platte Center. His automobile failed to make a turn in the road near Platte Center and a smashup followed from which Carter fortunately escaped unhurt.

It is his religion that differentiates him from his fellow-citizens. He is a Jew as others are Catholics and Protestants and he has a right to be a Jew particularly in this land of religious liberty where religious freedom is guaranteed and no one is permitted by law to suffer or be discriminated against on account of his religion. The Jew is a Jew only in religion, in all other respects he is in this country an American citizen.

"The foreign Jews such as Israel Zangwill understand this well and this was the great point of his speech delivered in New York a week ago Sunday night. The Jew is in this country but a little while when he cannot be distinguished from the rest of his fellow-citizens.

**Says Jews Inter-Marry.**

"This is particularly true of the children. Who can tell them 'apart' from other children? Our great American youth all betray the same characteristics. As for marriage, that is a private affair and can be left to take care of itself. As a matter of fact, there is more or less intermarriage and has always been and the history of the Jews and even the physical characteristics of the Jews prove it. Not all Jews are dark or of olive complexion, we have blonde Jews, blue-eyed Jews, red-haired Jews, we have all kinds of Jews; provings (as is indeed historically known) that there has been a 'blending,' intermixture all the time.

"Everybody is hopelessly blended as far as that is concerned. There is no Simon-pure race, not even the Anglo-Saxon, the very name with its hyphen shows the mixture and as for 'blending' or assimilation in the Jew, King David and Jesus of Nazareth were descended from Jesse who was great-grandson of Ruth, the Moabitess, who was a Jewish convert, and there have been lots of converts in Judaism and their blood has intermingled with the blood of the Jew.

"As to the statement that the Jew is not patriotic we will not design to discuss that subject, we hurl that lie back into the teeth of those who utter it. The Jews' record in the last war and in all wars is blood-spilled on every battlefield of the republic and is sufficient refutation of that contemptible slander and deliberate lie.

"As regards a fifth of the Jewish race lives in this country that is only 3 per cent of the population. The percentage of Catholics and Protestants is much greater but the constitution of the United States has not applied the 'numerous clause' and Jews are just as welcome here and have just as much right here as any

other element of the population. America was meant to be the home of the oppressed and down-trodden of all the earth. It is that that makes it America and when it ceases to be that it ceases to be America. It becomes the visible empire of the K. K. K.

"As to Jewish homes not being being difficult and impossible—any gentile at any time is welcome in any Jewish home and he will find it thoroughly American, duly equipped with Victrola and radio and all modern devices. If, as Evans himself says, they are homes in which the Jews, 'a family people are reverently and essentially responsive to God's laws' that is surely nothing against them. If that is why they are un-American would we had more such Americanism. Jews and gentiles intermingle very freely. Some of the Jews' 'best friends' are gentiles!"
