Youths Held as Accessories in Theft of 18 Autos Exonerated, Parents Say.

Delmar Hill and William Anderson, Omaha high school boys, arrested with two others early this week in connection with an alleged series of automobile thefts, were exonerated in juvenile court Saturday according to the boys' parents.

The hearing was held behind closed doors by District Judge L. B. Day and details of the evidence were not made public.

Companions of the boys declared that Jack Prull, one of the four arrested, planned to assume the blame for the thefts of cars.

Judge Day said he had issued no final orders in the case and declined to make any comment on the evidence.

Drive to Be Made for Early Christmas Mail

A campaign to urge early mailing of Christmas parcels will be launched the week of November 3 to 10, according to Charles E. Black, postmaster. The week has been locally designated as "Post office week."

"It is estimated that one family in about every 10 puts a badly addressed letter in the mails each day," he said.

"This mixes up over 2,000,000 half-addressed letters with 20,000,000 fully addressed letters. In addition to the extra expense involved, these partly addressed letters have a tendency to slow up the mail. Also, as a large number of substitutes must be employed in delivering Christmas mail, it is important that patrons see to it that there is a number on their house as well as a receptacle."

German Aids Belgian.

Hans Schmidt, a German, testified in behalf of Mrs. Anna Jacques, a Belgian, in her action against Philip Van Lange, 5044 South Thirty-eighth street, another Belgian, in Judge W. F. Wappich's municipal court Saturday morning.

...a double winner at the Olympic Games at Athens, and twice all-around champion of America. Then came a change. I was admitted to the Bar, and wholly abandoned my outdoor life. The effect on my health was disastrous. Constipation and blood impurities became first an annoyance, then a menace, and finally a chronic disability. My nerves were 'on edge'; I became moody, irritable, and subject to intense depression. One day I heard two chance acquaintances praising the merits of Fleischmann's Yeast. They spoke with enthusiasm, but it was their appearance, even more than their words, which decided me.... The age of miracles is still here. Inside of a fortnight I noticed a distinct improvement in my health; in a month I was literally a new man. Within a year my nerves had steadied and my appetite came back. I am today in the pink of condition and a convert for life to Fleischmann's Yeast. ELLERY H. CLARK, 1112 Tremont Building, Boston, Mass.

"the age of miracles is still here—in one month I was literally a new man"

There is nothing unusual about the enthusiasm of the New England lawyer whose letter is printed above. Constipation, skin troubles, digestive disorders—all of them are generally due simply to wrong habits of living and eating. All of them have been becoming more common year by year. Now at last we are learning how to fight them. The whole secret of the overwhelming popularity of Fleischmann's Yeast is that it is a food, not a medicine, and that it helps to remove the cause permanently, not merely to check the symptoms temporarily. Its millions of tiny living cells aid digestion and give the intestinal muscles regular, healthy exercise. Its rich vitamin and protein content increases the whole corpuscles in the blood and helps to tone up the white system. Remember that Fleischmann's Yeast for Health comes only in the tinfoil wrapper, and cannot be purchased in tablet form. All grocers have it. Eat two or three cakes a day before or between meals, plain, in water or fruit juices, or spread on crackers or on bread, whichever you prefer. Send for free booklet, "The New Found Value of Fleischmann's Yeast in Building Health." The Fleischmann Company, Dept. 152-C, 701 Washington Street, New York, N. Y.
