# LADY EXPERT COMING TO HELP RUPTURED WOMEN

**Demonstrates Rice Method** Free to All

William S. Rice, Adams, N. Y., inventor of the famous Rice (Non-Surgical) Method for Rupture will be at the day and Thursday, November 7 and 8. demonstrate a new special corset attachment that holds any rupture no matter how large. Even if the abdomen is very fleshy, it holds any rupture with ease, comfort and security

ordinary truss or abdominal support knows the gouging, cutting and chafing caused by narrow bands. The weight of the abdomen or pressure necessary in holding the rupture must be carried by the band around the back, and the pressure is sometimes very great, causing untold suffering. The special, broad supporting corset back listributes the pres sure so as to do away with all cutting and chafing.

There are thousands of women who are in perfect misery because they cannot find anything that will hold their rupture and the abdomen at the same time. The appliances usually worn are hot, bulky, chafing and irritating. But this wonderful Combined Corset Back Support is light, flexible, durable and cool and fits the figure like a glove. It gives you a sense of absolute comfort and protection while at the same time greatly improving abdominal outlines.

Trusses in common use are not adapted to women and often do great harm. Women therefore, suffer more and are in greater danger from rupture than men, and all women, who have ruptures or who wear an abdominal support of any kind should not fail to call and see this wonderful Combined Corset Back Support. No description or illustration can fully convey the remarkable utility of this splendid Support. It must be seen; it must be put on to convince any woman that it was designed for her. Miss Meegan takes a large woman just as she is, all out of shape and unsightly and by this remarkable Corset Support gives her a natural, neat,

She will also give full instructions on how to handle and care for any rupture, large or small. She will show how to hold any kind of rupture from the simple groin and femoral to the large and difficult Navel and after Operation Ruptures, without chafing or squeezing, also how to wear the corset correctly.

Don't let this great opportunity get away from you. Don't continue to suffer the burden of rupture and truss wearing when it is so entirely unnecessary. Your call on this Lady Expert is sure to prove one of the nest things you ever did. She will be chare only two days, then your opportunity will be gone. The fitting and demonstration are free. It don't cost you a penny to learn all about the Rice Method and the wonderful opportunity for help and cure it offers in your case. After demonstration you can purchase the Outfit required if you wish.

Call any time from 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 evenings. Just ask at the hotel desk for Miss Meegan

and she will do the rest. W. S. RICE. Inc.

# Let "Gets-It" **End Your**

Her Dream Realized -

VERY young woman like Mrs. Houk before her marriage

dreams dreams and has visions of her ideal home with her

husband, and healthy, happy children to make her joy complete.

But as time goes on her dreams are not realized, she has no

children, her life is embittered and it is hard for her to be

To every young woman who is in this condition the following

letter should bring hope and encouragement, as we know of

numberless homes that have been blessed with children, just as

Here Follows Mrs. Houk's Personal Letter: "I was of a nervous disposition and always had a tired, worn-out feeling. I

"I was of a nervous disposition and always had a tired, worn-out feeling. I would get sharp pains in my side when working too hard or when walking too much and sometimes I would have those awful dragged down feelings. I have had such troubles since I was a very young girl and had got very little result from all the medicine I had taken, and one doctor told me that I would never have children unless I had an operation. I had heard a great deal about Lydia E. Pinkham's Vegetable Compound so I thought I would try it. By the time I had finished the fourth bottle I noticed a change in my health. We took a trip to California at this time and I kept on with the medicine. My health continued to improve and I now have a big, healthy baby boy six months old. I am not doing my own housework yet as I want to get good and strong first as it means a lot to my baby for me to be well while he is nursing. I have spoken highly of the Vegetable Compound to my friends, and I am more than willing for you to use these facts as a testimonial."—Mrs. Jack Houk, 1315 Tennessee St., Lawrence, Kansas.
