

Lloyd George Warns of War

Says U. S. and Britain Must Unite to Stamp Out Rule of Force.

New York, Nov. 3.—David Lloyd George today turned his face toward home, leaving behind him a final plea for the United States not to be too hard on Europe, but to drive home to that stricken continent the conviction that right is supreme over force. In his last speech after a tour of the United States and Canada, delivered in the crowded metropolitan opera house, the war time premier of Great Britain warned that within this generation, civilization was doomed to a catastrophe such as history has never recorded, unless the United States and the British empire together stamp out the belief that force alone rules the world.

Standing on the spot where a year ago George Clemenceau, premier of France during the great war, had urged this country not to neglect her post-war duties and had warned of another rise of German militarism Mr. Lloyd George said:

"France at the present moment is committed to holding the wolf by the ear. She cannot let go, but ultimately it may turn and rend her. A change. "I heard yesterday from a man who had just returned from Germany, who met one of the officers who had been appointed at the treaty of Versailles to break up the cannon and the machine guns and the torpedoes of Germany. "He said up to the last year, the German workmen, wherever he went to the work shops and arsenals, used to help him destroy these guns and said: 'For God's sake, destroy them. These are the things that brought ruin to our country.' "Now," he says, "that there is a change. They say: 'We cannot trust justice. We cannot trust treaties. We cannot trust the words of great nations. Force is the only thing that rules the world.'"

"Unless you stamp out that conviction civilization is doomed on this earth. Particularly did the doughty little Welshman, speaking as a private citizen, and not 'in collusion with Lord Curzon,' plead with America to guarantee the future of Secretary Hughes' proposal to cut the reparations tangle with an international commission. "The world is better because

Bride of Month Denies Charges in Husband's Suit for Divorce

Mrs. Helen C. Furness, bride of a month, whose honeymoon ended Friday in divorce court when her husband, Gail W. Furness, started divorce proceedings against her, Saturday morning filed a sweeping denial of his accusations and claimed she had a good defense for what she did. In a motion filed with the affidavit, Mrs. Furness declared that her bridegroom has left her without any means of support, although he makes \$500 a month. She asks the court to order him to provide for her maintenance and expenses during the proceedings. When he came to her rooms at the St. Clare apartments Friday afternoon for his clothing, Mrs. Furness said this morning, she told him he would have to get a search warrant in order to enter. He caught her head in the door, she said, knocked her down and started to choke her. When she got up, she retaliated. She said she may have scratched his face. She doesn't remember. Saturday morning Mr. Furness sent a drayman for his clothes.

America at one moment took an interest in the enforcement of right beyond its own frontiers," he said. "The world will be better for it to know that the interest of America in human right has not weakened."

America's Responsibility. For the fourth time Mr. Lloyd George touched on the theme of America's responsibility when he said: "The commission of trusteeship for civilization does not come from kings; it does not come from rulers or princes; it does not come from senates or parliaments. It comes from on high. That commission is yours and ours today. You responded to the invisible message in 1917, and we had already done so. But the commission is not fulfilled. The work is only half done. If it is not discharged fully—fully—civilization is doomed within this generation to a catastrophe such as the world has never seen."

Three times Mr. Lloyd George repeated the prayer "Don't be hard on Europe," and one time in his address asserted solemnly: "Vengeance is unbalanced. Every vindictive man or woman is partly insane."

Files \$25,000 Suit Against Husking Hook Company Columbus, Neb., Nov. 3.—A claim of \$25,000, which is more than the estimated amount of the estate, was filed in probate court here by counsel for Joseph C. Zoucha against the estate of the Joseph M. Koziol Husking Hook company, who committed suicide last summer. Zoucha maintains that in 1920 he put \$2,300 into financing the husking hook, for which he was to have a half interest in the business. After the factory was destroyed by fire he maintains Koziol collected \$6,000 insurance and used it, together with the remaining assets, for re-establishment of the business, incorporated a company and left him without an interest in the company. Zoucha puts a value of \$25,000 on his interest in the business.

Swedish Prince Weds Lady Louise

Simple Ceremony Links Royal Families of Britain and Sweden.

By Associated Press. London, Nov. 3.—Before the ancient altar of the intimate little chapel royal in St. James palace, where many a king and queen have been married since the days of Henry VIII, Crown Prince Gustave Adolph of Sweden, took as his second bride this afternoon Lady Louise Mountbatten, niece of the reigning sovereigns of Britain.

There was none of the splendor or grandeur about the ceremony such as the weddings of royalty in vast Westminster Abbey have known. It was as simple as could be, considering the high estate of the bridegroom and the bride and the presence of so many royal witnesses, ambassadors and titled aristocrats. Prince Gustave wore the uniform of a general of the Swedish army. His brother, Prince Wilhelm, in naval uniform, was best man.

Indian Silver Gauze. The bride, wearing a gown made from a fine piece of Indian silver gauze, which had been given her by her uncle, the grand duke of Hesse, was accompanied to the altar by her brother, Lord Louis Mountbatten. Her train was of the same material and her veil of honiton lace was the one given by Queen Victoria to her daughter, Princess Alice, at her marriage to the grand duke of Hesse. The sleeves of the untrimmed bridal gown were long and close fitting, so long in fact that the bride did not wear gloves. Her silver shoes had low heels. She carried a small bouquet of lilies, quaintly arranged.

As the short bridal procession moved up the aisle, the hymn, "Lead Us, Heavenly Father," was sung by the choir. It was followed by the Sixty-seventh psalm, "God Be Merciful Unto Us." Acting as bridesmaids were the four princesses of the royal house of Greece—Margaret, Theodora, Cecilia and Sophie—daughters of Prince Andrew and niece of the bride. The bride's train was borne by her little nephew and niece, the earl of Medina and Lady Tatina Mountbatten, children of the Marquis of Milfordhaven, who is Lady Louise's brother.

On Honeymoon. The first part of the marriage ceremony was conducted by the Archbishop of Canterbury, the second part by the bishop of London, who is dean of the chapel royal. The simplicity of the marriage ceremony was sustained after the church service. King George and Queen Mary and King Gustav and Queen Victoria attended the wedding reception in an informal manner, not as "their majesties." There was no monster wedding cake to fill the eyes and the mouths of those invited to the reception at Clock House adjoining Kensington palace—only an ordinary bridal cake of simple design prepared by an unpretentious cook who has been in the bride's family for many years. Nor was there a glittering display of wedding gifts. The reception did not last long and before midnight the crown prince had taken his bride away from London on their honeymoon, most of which will be spent in Italy. They will arrive in Stockholm on December 11.

Conference in Lincoln Endorses Repeal of Esch-Cummins Law.

Lincoln, Nov. 3.—The four railway brotherhoods of Nebraska will oppose the formation of a third party. It was announced here, following the meetings of representatives of the four brotherhoods. In the field of national legislation the brotherhoods favor the taking over of the federal reserve banks by the government, the repeal of the Esch-Cummins law, the direct election of president and vice president by the people, curtailing of the power of the supreme court over the constitutionality of legislation, enactment of the Norris-Sinclair bill, increased tax rates on large incomes and inheritances, and minimum standards of employment for women.
