

Bringing the Business Brains of America to YOU

Promoting Bigger Men, Better Business Men and Improved Business Methods

Each week the business men of Omaha have an opportunity to come in contact with and hear the business messages of the master minds, source minds and famous men of America, the men who have earned national renown through their achievements in their chosen vocations. Such contact has an indelible influence upon the lives and accomplishments of the men who take advantage of this opportunity for self improvement.

These messages bring the knowledge and experience which a successful business man of national reputation has spent many years, often a lifetime, in learning.

Meetings are held every Monday night from September to June, 6 to 8 p. m.—two hours most men waste. A \$1.00 dinner is served promptly at 6. Members sitting at different tables each week promotes a wider acquaintance. Then there is community singing, some real entertainment, such as theatrical stars. The speaker always has from 7 to 8. Prompt closing permits other evening engagements.

This club, with its membership of 1,200, is the largest of its kind in the world. It is nationally recog-

nized as one of the greatest speech forums of America. Omaha's most prominent business men attend regularly and are enthusiastic boosters.

Practically every line of industry in the city is represented. Its members range in age from 20 to 70. It is thoroughly democratic. These facts attest that it is a live wire organization and that Omaha business men appreciate the service it is rendering.

The club membership is limited to 1,200 members. There are at present vacancies in the club, but these are rapidly being filled, and in a very short time the membership will be closed until October, 1924. For new members there is an initiation fee of \$5 and the annual dues of \$12.00.

Proud of the business experts and orators meeting the club in the past and confident that the past reflects an even greater future. Ask the man who heard any of the following:
