Is Told All Parties in State Could Be United Under His Leadership.

Dictator Traitor

By Universal Service.

Munich, Nov. 10 .- King Rupprecht was approached today with a view of inducing him to consent to a proclamation making him king in fact as well as in name He was told that the chaos in

Munich and Bavaria had come to such a point through the failure of the Hitler-Ludendorff putsch that only he could straighten matters out and bring order, as all parties would unite under him and forget their animosities. It is learned that Rupprecht categorically rejected the invitation.

A storm of indignation has burst against Dictator Von Kahr, Gentral Von Lossow and Colonel Stisser for the role they played in the putsch. This was the surprising reaction in Munich today. Their explanations that they were compelled to participate by threats are not given credence while the popular feeling runs high at what is baldly characterized as their "betrayal" of their associates, Hitler Riots in Munich.

Dictator Von Kahr is openly called afternoon against the trio.

In Odeon square there was shooting

Nebraska Railway Commissioner to Appear Before Interstate Commerce Official at Kansas City.

Boon to Grain, Growers

By R. H. PETERS, Kansas City, where railway commis- cil Bluffs. sioners of the grain belt states will resent to Interstate Commerce Comissioner Aitchison all available information favoring a reduction in grain transportation charges.

For Nebraska, Thorne Browne will appear, armed with documents that will be used in the fight, and a fight it will be, for a 10 per cent scaling down of rates, both west of Chicago and export. A belief has been held by some per-

sons that the railroads would grant the reduction asked, purely as a matter of policy and because their chiefs approved it. They have been far from the truth, for the reduction will come only if ordered by the interstate commerce commission. Even President Coolidge got "no" for an answer when he suggested that a lower rate might be advisable. Nebraska shippers are primarily
