

### Island Resort at Tekamah Is Sold

#### Thirty Thousand Dollars Paid for 720-Acre Tract by Holder of Mortgage.

Tekamah, Neb., Nov. 10.—The large island in the Missouri river north of Tekamah on which has been located the popular summer resort of Lake Quinnebaugh and the Y. M. C. A. summer camps, has been sold at public auction to satisfy mortgages.

The 720-acre tract together with the farm house and buildings brought \$17,500, and the 640-acre tract containing the Y. M. C. A. camp grounds and pleasure resorts sold for \$12,500. It was bid in by the first mortgage holder, Mr. Schultz of LeMars, Ia., the amount being approximately equal to his claim against the prop-

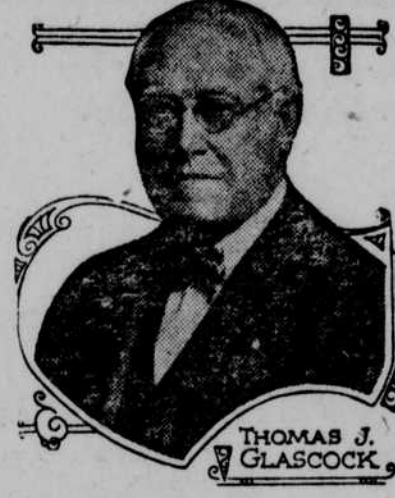

erty. The Merchants National bank of Omaha was second mortgage holder to the extent of \$10,000. It is reported that a compromise has been effected between the two mortgage holders whereby the second mortgage holders were to be satisfied also; bringing the amount to about \$40,000; raised outside claims amount to about \$5,000. The price paid for the land is considered an exceptional bargain, being about \$25 per acre; the land is as fertile as the valley of the Nile, having been subject to overflows at various times which has at present raised it above flood waters; it abounds in timber also and should make a fortune for its new owner.

A new anti-hold up carrier has been invented for conveying money by bank messengers. When attacked, the messenger presses a button near the handle, which sets of a number of concealed smoke bombs, held in the bottom of the grip. These burn 12 minutes, and not only throw out a heavy yellow smoke, but so disorient the money that it cannot be passed.

### Man 74 Years Old Is "Rejuvenated" In 3 Weeks Without Gland Operation

#### Kansas Contractor Tells of Wonderful Results Obtained in Test of New Scientific Discovery.

Thomas J. Glascock, 74, well known Kansas contractor, declares he has virtually been made young again by the recently-discovered korex compound, which is pronounced superior to "gland treatments" as an invigorator and revitalizer.

"I feel like I did at 35," says Mr. Glascock, "and seem to be getting stronger every day. During my three weeks' use of the new discovery pains and weaknesses of many years' standing disappeared almost magically. Today I am as vigorous and supple as I was in the prime of life. Furthermore, when I began using the compound, my memory was virtually gone and I was almost blind. Now my mind is clear and active and I can read the finest print without difficulty."

The compound has been tested in all parts of the country and has won the praises of thousands who suffered from nerve weakness, lessened or depleted vigor, neurasthenia, premature aging, impaired glandular activity and lack of animation and vital force. Its effects seem to be virtually the same on both young and old. Physicians say the principal active ingredient of the compound gives speedy satisfaction in obviating causes that defy all other treatments. Elderly people pronounce the discovery a real "fountain of youth."

In order to find out whether the results were lasting, Mr. Glascock waited six months before reporting on his test of the discovery. On this point he says:

"Every passing day strengthens my conviction that my restoration is not only complete but permanent. I can't express the happiness this great discovery has brought to me. It has made me 'young' again."

Similar reports are being made almost daily. For instance, D. W. Wood of New Orleans, past 60 years of age, says: "The compound has brought me back to as good, healthy physical condition as I enjoyed at 35. I am apparently as supple as at 25 and my eyesight is better than for years. I would not take \$5,000 for what the discovery has done for me."

The compound is a simple home treatment in tablet form, absolutely harmless, yet rated as the quickest and most powerful invigorator known. Acting directly on lower spinal nerve centers and blood vessels, it brings gratifying benefits in a few days, according to thousands who have tested it.

"It is wonderful," writes a resident of Hollister, Cal. "In less than 24 hours you can feel it doing the work. I am more than happy and glad I tried it." Another Californian says: "The compound is a world's

When Mixed With Sulphur It Brings Back Its Beautiful Luster at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. What was in that bottle last week? We vow we did not sample it, but we got a kick out of it just the same. Here it is: Wymore, Neb., Nov. 5, 1923. Title Editor: The winning title for last week, "From Bottle to Jug," first prize awarded to W. J. Cooper of Omaha, was one of the eight titles which I sent in. It is the exact words.

C. D. CLEMENTS. Mr. Clements: Your title, as we recall, ran "Bottled and Jugged." We could not use both of them and thought that, as the man in the picture is not in the "jug" yet, Mr. Cooper's fitted the picture more neatly. Besides, you have won prizes before, and Mr. Cooper had not.

Dear Contest Editor: I do not understand why my title, "From the Bottle to Jug," did not receive recognition in some way as it was so near like the title which was awarded first prize. Please answer my questions in next Sunday's paper so I will know what is wrong and be able to think up some new

ideas.—Mrs. Lewis Preston, Nebraska City, Neb. Mrs. Lewis Preston: We do not recall seeing your title. Are you certain it was mailed in time to reach the office before the contest closed? We usually do not open the envelopes that come in late. However, if we did see it we judged it inferior to the winning title because it has unnecessary words in it. Other things being equal, the fewer words in a title the better.

Dear Editor: I do not expect to be a prize winner; it takes too much

### Freak Mine of Platinum Brings Riches to Germany

Berlin, Nov. 10.—The little town of Geilhausen, in the apple-growing district of the Wetterau near Frankfurt-on-the-Main, is riding on a wave of prosperity caused by the discovery of platinum in the vicinity; not natural deposits of this precious metal, however, but fortuitous ones found in the debris of an electric bulb factory which burned to the ground some years ago.

The debris was carted away to fill in new streets and railroad dams, and no one thought of attaching any importance to the matter until the war came and platinum prices began to soar. Some canny soul then remembered that large quantities of platinum wire had been buried in the ruins, and thereupon the entire population sallied forth with shovels and sieves until the town began to resemble newly discovered "oil fields."

Through wind and weather, snow and rain, the diggers kept at their task, reaping their richest rewards at night, when the fine wires glistened by the light of the pocket flashlights. No sooner did the platinum wires come to light than they were gobbled up by the speculators until the municipality decided to take a share in the profits by issuing "platinum" bonds.

According to the last reports from the platinum field, the owner of the burned building was about to tear down his plant and begin a thorough investigation of the premises with a view of exploiting the treasures of the soil.

As an instance, all our brains together couldn't catch on the premium title of last week, "From Bottle to Jug."—Yours truly, P. A. Franck.

Mr. Franck: Your criticism speaks well for your friend's character. Ask the next tramp who visits Greeley about the "jug." He can enlighten you, probably having been there.

Last week we were long on titles and short on space and time, so it was necessary to cut out some of the letters we received from contestants. We print some of last week's and some of this week's.

Dear Mr. Contest Editor: I do love to follow up and take part in a contest of picture titles or conversation. It creates more interest, excitement, and gives one a little pastime worth while. I sometimes send in titles if I think I find a fairly good one for the picture, and enjoy the different titles sent in by others. They are often puzzling, baffling and most always with a double meaning.

—Mrs. Vesta Franklin, Falls City. Dear Sir: Thank you kindly for the dollar awarded me some time ago. I enjoy these contests, and when I read the winners I realize how flat some of mine are. However, I shall keep on sending them in, and if I ever win the \$5 I will frame the check for 65 days anyway.—Mrs. Arthur Lee, Atlantic, Ia.

Dear Sir: I am sending names to you for the picture. I would like to win even a dollar because I am saving up money for Christmas. We have taken The Bee for three years and think there is no paper like it. See that I get something if you please, sir. Thank you very kindly.—Thelma Moore, Omaha.

Sorry, Thelma. We strive to please; but you'll have to try us again. Lots of people don't win a prize the first time but keep on trying until some time they do. You didn't win this time; but don't despair about that Christmas money yet.

ences, and then came the income tax board, requiring from the citizens a declaration of their discoveries, which were taxed accordingly. During these investigations it came to light that one man had already amassed a fortune of 6,000,000 marks in odds and ends of platinum wire. Among the visitors to the spot was a professor in the high school, who met there one of his students, a boy so notoriously poor that he had to be placed in the category of "charity pupils."

To his astonishment, the professor was offered a cigar costing at least 1,000 marks, but to his protests the boy answered: "Don't hesitate to accept it. Professor, as I have made 80,000 marks today!"

### DRINK WATER IF KIDNEYS BOTHER

#### Take a Tablespoonful of Salts if Back Pains or Bladder is Irritated.

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaker; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headaches, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night. To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's noxious waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.
