

Girl, 14, Made to Serve Rum to Customers

Asks Police to Arrest Parents After They Beat Her and Call Her Names.

Mary Molner is only 14, but her parents made her serve liquor to their customers at 4425 North Sixteenth street, she told police Sunday.

She appeared at Central station with tears on her face and asked the man in the blue coat with the stripes on his sleeves to arrest her father and mother because they beat her and called her names when she was slow in carrying the glasses back and forth.

Coolidge Busy on Talk to Congress

Agricultural Relief, Taxation and Transportation to Receive Major Consideration.

Washington, Nov. 12.—President Coolidge began actual work today on his message to congress and upon the results of his efforts even his closest friends acknowledge will depend to a considerable degree his political future.

Mr. Coolidge is known to realize as much as do his friends the importance of his first message and his first pronouncement of policies, and for that reason he expects to devote himself assiduously to work upon the document during the three weeks that intervene before the convening of congress.

The ground work necessary to the drafting of the message already has been done. Six days a week for three months Mr. Coolidge has been conferring with officials and private citizens respecting the problems before the government. He has talked with experts in international affairs, with railroad executives and railroad employees, farmers, labor leaders, bank editors, politicians and with just plain ordinary citizens, in nearly every case the one who conferred with the president had the same experience—he presented his views and then was closely questioned by the chief executive. The result is Mr. Coolidge has absorbed a lot of information on a lot of subjects.

Starts Work. With this information at hand he sat down today to write the message. The principal subjects to be treated in the message have become fairly well known to those who have followed the course of the president's mind and the nature of his conferences during the past three months. They embrace agricultural relief, taxation, transportation, merchant marine, government expenditures, immigration, reclamation and international affairs, including the world court and the recently negotiated conventions with Mexico.

These subjects would seem at this time likely to receive major consideration. They are agricultural relief, taxation and transportation. With respect to assistance to the farmers, the chief executive is expected by some to urge legislation to promote co-operative marketing and probably ask creation of an agency, or authorization for an existing agency, to sell American farm products abroad.

The executive's tax proposals most probably will follow the outline of those announced today by the Treasury department, with such minor modifications as republican leaders believe are advisable.

Much Advice. In the matter of transportation the president has received much advice relative to consolidation of railroads and may urge legislation to that end. It is reasonable to expect that he will not give any measure of approval to the proposal that congress by its own action reduce freight rates on farm products in as much as the Interstate Commerce commission has instituted an inquiry to determine whether such rates can be lowered.

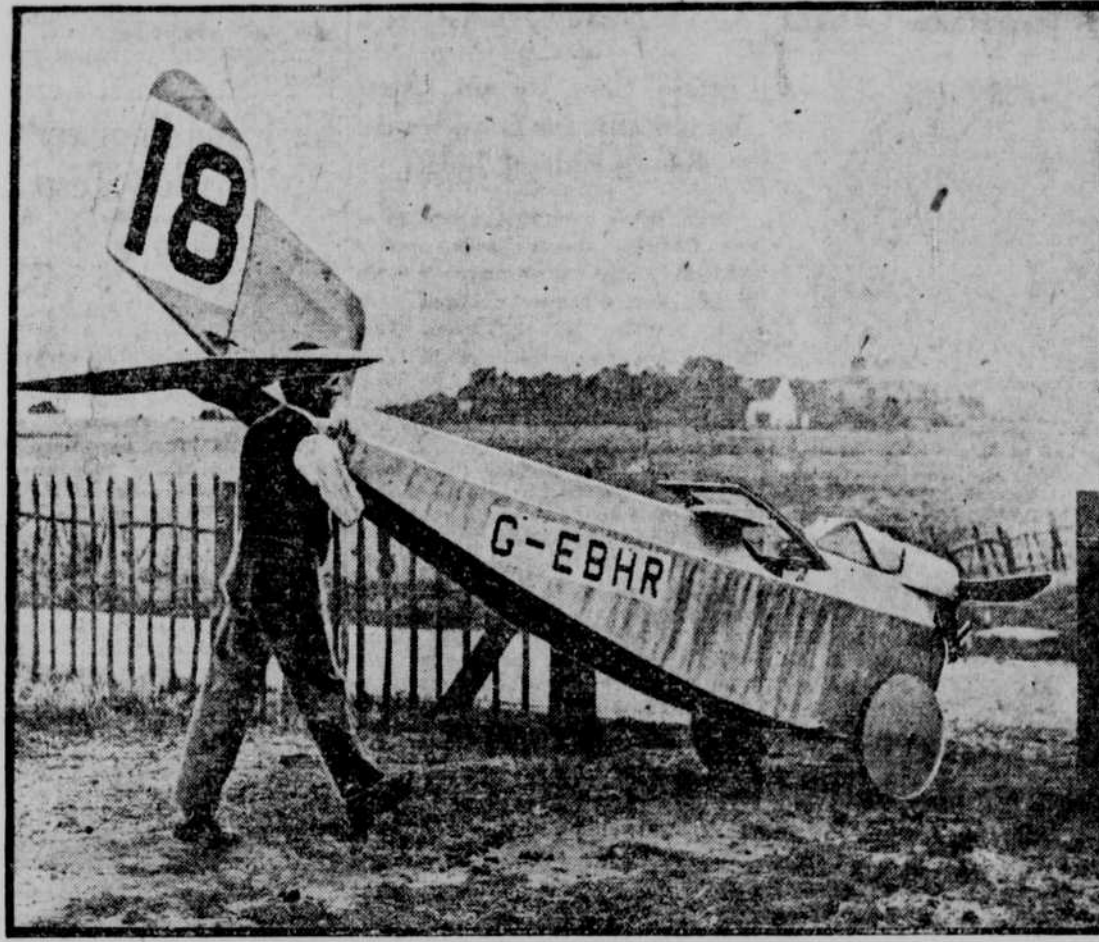

The present immigration law expires next June and Mr. Coolidge has let it be known that he will look to congress to maintain at least the present restrictions.

International affairs, excepting the reference to the Mexico convention, seem to those close to the president to be destined to occupy a secondary place in the message. The greatest interest will be in the manner in which Mr. Coolidge treats the proposal made by President Harding to the last senate that the United States accept membership in the permanent court of international justice. So far as has been revealed, Mr. Coolidge still expects to make mention that the proposal is before the senate for action and let the matter go at that.

Reckless Driver Fined. Martin Polcar, 308 North Thirty-seventh street, arrested Sunday on a charge of reckless driving and operating an automobile without a tail light, was fined \$5 in municipal court today. Polcar was arrested at Sixteenth and Davenport streets by Motorcycle Officers Cleburn and Gaines after he had driven through an Armistice day parade.

McAdoo Again Due. William Gibbs McAdoo, democratic presidential possibility, and party are again scheduled to pass through Omaha next Thursday. They are en route from Washington to Los Angeles.

Carries His Own Human Bird Around With Him

Small and light enough for its owner to push it through gate and into field, this plane was on of many that took part in international motor gliding competition at Lympne, England, aerodrome.

Beautiful Debutante to Become Bride of Millionaire Wednesday

By MARTHA ALLEN. Wednesday will be a date long to be remembered in the annals of Omaha for Miss Betsy Nebb, the only daughter of Mr. and Mrs. Rudolph Nebb, whose humorous adventures, as depicted in Sol Hess's comic pictures, are daily entertaining readers of The Morning Bee, will be united by the bonds of holy matrimony with Mr. Caleb Renrod, a brilliant genius for this and many past seasons, the catch of the town.

Little Miss Nebb, a dainty intriguing girl is busily engaged at the home of her mother where, under the parental wing, she is putting the finishing touches to her trousseau. Mr. Renrod's high-powered motor may be seen any day. It is rumored that no bride, perhaps in Omaha's history, will receive as many lavish and expensive presents as will Miss Nebb from her devoted husband-to-be. What an enchanting prospect!

And yet, out of each cloud some rain must fall. A little birdie flying from home to home and whispering a secret to many of the younger set, has it that a thread of discord may be discerned in the otherwise perfect sheen of silk. Miss Nebb—it is said—is not altogether happy over the prospect of becoming queen of the Renrod menage. The wealth of a Croesus, a honeymoon in Europe, servants galore at her beck and call, and a life of ease and luxury, have not filled her cup of happiness to overflowing.

Indeed, if one may believe another tempting tidbit of gossip now going the rounds, another man (C—H—) a youth perhaps, handsome but humble, has paid devoted homage to her winsome charms. Perhaps, as one of Miss Nebb's girl friends expressed it yesterday, this chapter in the bride-to-be's heart is but a memory—a memory soon to be erased by Mrs. Caleb Renrod who, after Wednesday will take her rightful place among the grand dames of our community.

Hog Ranch May Be But Samardick and Police Think Not Immune From Raids

When Robert Samardick, federal prohibition agent, accompanied by the police morals squad, approached the Hog Ranch in East Omaha Saturday night, they found more than a score of automobiles dancing within.

Inside bottles and glasses of liquor were scattered about on tables and the floor.

Samardick was peeved. He had been told the word was going round that he was "protecting" the Hog Ranch.

"Who runs this place," he demanded.

"I do," observed Julius Brenner. "You're under arrest," Samardick told him. "And if you're paying money to anybody for protection, I want you to tell Judge Woodrough who it is."

Forty persons who were in the place at the time were arrested, and raiding officers discovered half a dozen cases of home brew in a dump of weeds nearby. Samardick offered \$100 to anyone who would testify to the sale of liquor at the place, on the witness stand.

Trained Leaders Are Urged at Luncheon

Educated and highly trained men are fitted for leadership in public life, which they neglect, asserted Col. T. W. McCullough, The Omaha Bee in attendance at the luncheon of the Professional Men's Club at their noon lunch at the Fontenelle Monday.

"I do not believe that the United States government is in danger of being overthrown by any bolshevistic movement," said Colonel McCullough. "Should the present form of government fall, however, it will be because the people want it to fall. If it is to continue, it will be made secure by the devoted effort of patriotic men and women, who put service above self."

Members of the so-called learned professions owe something more than they generally give to the public weal. Most of them center on the affairs of the profession in which they engage, becoming extra proficient in that to the neglect of the greater duties and obligations of citizenship. The very fact that they are especially educated and highly trained fits them for leadership they have evaded.

YOU DO NOT HAVE TO MAKE Washington's Coffee IT IS MADE JUST DISSOLVE IT AND DRINK IT. A GREAT CONVENIENCE AND OH, SO GOOD!

Lions Convention to Be June 23-27

International President Here Agrees on Date With Local Committee.

Omaha will be the place, and June 23 to 27 the date of the international convention of the Lions club next summer.

John S. Noel, Grand Rapids, Mich., international president of the Lions club, determined these points in a conference with the Omaha committee on the convention this morning in the Hotel Fontenelle. Mr. Noel was empowered to set place and date by a meeting of the international board of directors of the club in Chicago two weeks ago.

The dates were accepted at the wish of the local committee, who will have charge of convention arrangements. They are Frank Meyers, general chairman; Merle Taylor, V. C. Hascall, Dean Ringer and Dr. Max Emmert.

The convention will include representatives from the United States, Canada and possibly Mexico. It will be the largest ever held by the club, according to Mr. Noel. Mr. Noel will return in 1924 for a session with the local committee to formulate plans and the program for the convention.

Cleveland Rabbi to Speak

Rabbi Solomon Goldman of Cleveland, spiritual head of the largest conservative Jewish congregation in America, will speak at a mass meeting of Omaha B'nai B'rith at the Jewish community center in the Lyric building, Nineteenth and Farnam streets, at 8 Thursday evening, November 15.

Dr. Goldman is a graduate of Jewish Theological seminary in New York. He is nationally known as an authority on Judaism and matters of the every day world affairs.

RECIPE TO DARKEN GRAY HAIR

You Can Make a Better Gray Hair Remedy Than You Can Buy. Gray, streaked or faded hair is not only unbecoming but unnecessary. Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Barbo Compound and 1-4 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until with the stunt known as "jazzing the clouds." He tried to rise, but instead the plane plunged into the ground. Lieutenant McBride died on the way to a hospital.

Army Flyer Killed

Chicago, Nov. 12.—Lieut. Benjamin R. McBride, 26, of Selfridge Field, Mount Clemens, Mich., was killed during an Armistice day air meet at Ashburn flying field here Sunday when his pursuit plane, flying about 135 miles an hour, plunged to the ground from a height of about 15 feet.

Lieutenant McBride was flying low over the field, thrilling spectators with the stunt known as "jazzing the clouds." He tried to rise, but instead the plane plunged into the ground. Lieutenant McBride died on the way to a hospital.

Public Auction

IMPROVED 80-ACRE FARM Two and One-half Miles From York

Since the death of my husband, I am compelled to sell the farm. The sale will take place on the premises located two and one-half miles southeast of York, York County, commencing at 2 p. m., on—

Thursday, Nov. 15th

LEGAL DESCRIPTION—W. 1/2 of N. W. 1/4, Sec. 9, T. 10, R. 2, containing 80 acres more or less according to government survey, all in York County, State of Nebraska.

IMPROVEMENTS—Good two-story, eight-room house, good double corn crib 16x24, barn for eight horses and 6 cows, small hog house, chicken house and other small improvements.

DESCRIPTION—The north 40 lays almost perfect, the south 40 is part rough and part rich bottom land, about one acre of the pasture is on the creek—a nice watering place for stock.

There are 12 acres wheat, 5 acres rye, 7 acres alfalfa, 45 acres corn land and 11 acres in pasture, all tillable.

This is a wonderful little stock farm, the feed lot is ideal, the pasture land lays good and leads to the creek.

Here is your chance to own a good 80-acre farm in York County close to York and close to the public schools. High school, college and convent are all near.

FREE—\$10 will be given to the person guessing closest to the price the farm sells for on above date.

TERMS—25 per cent of selling price cash on date of sale. If suitable to the purchaser the owner would like to leave \$4,000 at first mortgage on the farm at 5 per cent interest. Final settlement March 1, 1924, when possession is given.

For Further Particulars Address Hoover Auction Realty Co., York, Nebraska MRS. LOUISE LOTTES, Owner YORK, NEBRASKA Hoover & Tucker, Auctioneers, York, Nebraska

Adjusted Wheat Acreage Urged

Head of U. S. Wheat Council Says Production Too Large for Market.

Chicago, Nov. 12.—Minimum cost of production, highest quality of product and an aggregate production for the country as a whole adjusted to the requirements of the market, are the conditions most desired for wheat growing in this country to make that growing most profitable, according to Sydney Anderson, president of the wheat council of the United States, in opening the session here today of the production committee of the council.

Mr. Anderson said that during the last four years the United States has increased its wheat acreage about 14 per cent. 80 per cent and Argentina 20 per cent, he stated. "Therefore, I think that the matter of readjustment in wheat acreage in this country to a point where it shall not be at the mercy of a world price fixed by the surplus from the cheap lands of other countries is worthy of the serious consideration of this committee," said Mr. Anderson.

Farmers of the United States cannot hope to make any money growing wheat for export except in occasional years. So long as we produce a surplus, our domestic price is generally a reflection of the world market price. I hope that this committee will work out a program for readjusted acreage which, if carried out, will place this country on a domestic basis, where domestic demands will establish a price and not the surplus from foreign lands."

Mr. Anderson said that per capita consumption of wheat in the United States is now lower than in any of the great civilized countries, due in large part to war propaganda for the saving of wheat.

Stokes Balked in Separation Suit

New York, Nov. 12.—William Earl Dodge Stokes, aged millionaire, suffered another defeat today in a legal battle with his wife, Helen Elwood Stokes, when Supreme Justice Wasservogel denied his motion for delaying the trial of Mrs. Stokes suit for separation.

Justice Wasservogel ruled that the case must go to trial in its regular place on the calendar, which means it will be called probably this week. The decision is linked with a petition for confirmation of Mrs. Stokes' dower right of \$2,333,000, one-third of Stokes' \$7,000,000 fortune; confirmation of the decree of Judge Ben Lindbergh of Denver granting her custody of her two children, and increase of her annual alimony from \$18,500 to \$35,000.

New Farmer-Labor Editor

St. Paul, Minn., Nov. 12.—Joseph Gilbert, secretary of the Minnesota State Farmer-Labor club, has resigned to become editor of Farmer-Labor, a weekly publication at North Platte, Neb. It was announced today. Mr. Gilbert was formerly manager of the Nonpartisan league.

BURGESS BEDTIME STORIES

By THORNTON W. BURGESS. When opportunity's at hand, Pray do not fail to take command. —Danny Meadow Mouse.

Danny Meadow Mouse Sees Strange Sights. It was several days before Danny Meadow Mouse went up in the air again. Meanwhile he and the aviator who had caught him had become friends. The aviator visited him several times every day and he never failed to bring some tid-bit to tempt Danny's appetite. And he talked to him. He talked in a low, gentle voice. It wasn't long before Danny didn't hesitate to take food from his friend's fingers.

Then came a morning when Danny knew something was going to happen. His friend, the aviator, was very busy about the airplane, which Danny always thought of as a man-bird. Other people came and there was a great deal of noise and confusion, which frightened Danny so that he kept inside the little box in his cage.

Now the aviator had made a place for Danny's little cage up where he could see Danny and where Danny could look out and down. He had fixed it so that Danny would be protected from the wind. It was a long time before Danny ventured to come out of his little box. But after he had grown used to the noise Danny ventured to poke his nose out. Then he poked his head out. Then he came out altogether.

For the first time Danny knew what it was really like to fly. He could look down and see all the Great World spread before him. Never before had a Meadow Mouse seen such strange sights as Danny now saw. He saw little green patches that looked very smooth. Really they were fields and meadows, though Danny didn't know this. He saw

He saw little green patches that looked very smooth. They really were fields and meadows.

Then his friend climbed into the man-bird and almost at once there was a terrible noise which is always made when an airplane engine is started. A few minutes later Danny felt himself going up and up and up. He knew he was flying once more.
