## Hurls Cry of Progress as Challenge

### Senator to Seek Presidency as Progressive Republican on Strict Isolation Policy.

### To Go Direct to Voters

Chicago, Nov. 15.—Senator Hiram W. Johnson of California tonight announced his candidacy for the republican nomination for president, declaring that "the ensuing contest will determine whether the republican party shall be the permanent instrument of reaction or whether it shall respond to present day conditions and aspirations."

In tossing his hat into the presidential ring, Senator Johnson declared himself for direct presidential preference primaries in all states, saying the need today was for a "revitalized republican party" which should be an instrument "neither of static reaction nor destructive radicalism," and expressed opposition to the league of nations "and all its subsidiaries."

This is nothing new, for Mrs. Bixbey says that she always gets results from her advertisements in the Bee and that the service we give her is just fine. We can rent YOUR rooms if you will let us try. Phone Atlantic 1000 and see.

### "IT'S RESULTS THAT COUNT"

### SUNNY SIDE UP

Dr. Cook's explanation of those mysterious lights in Holt county is very clear, in fact luminous. But what's thunder illuminates the luminosity of these illumined molecules.

### Watermelon

Judge Kinkaid raised his glass—of water—and said: "The women, God bless them. Once our superiors, now our equals." Bowing again to the toastmistress, he drank a few swallows of water and resumed his seat.

### Affectionate Greengrocer

The dramatic meeting lasted but five minutes. Both seemed glad to see each other. While her father, E. E. Lemon, and her brother, Cecil Lemon, who works for young Carmichael in an oil station at Coin, looked on, the couple exchanged affectionate greetings and then business matters regarding the oil station were discussed.

### Confusing to Trainmen

Columbus, Neb., Nov. 15.—Brilliant lights of smaller towns have been working havoc with engineers on fast Union Pacific trains who, thinking they were nearing Columbus would slow down at Duncan, the first town west of here and at Richard, the first village east of Columbus. It is only recently that the two towns have been having electric lights as the result of the Columbus Light, Heat and Power company's constructing trunk lines to the towns and both villages have had such brilliant street light installed that the reflections against the sky have been misleading to many trainmen.

### Tariff Hike on Wheat to Come Soon

### No Remedy Neglected

Washington, Nov. 15.—A higher tariff on wheat as a means of aiding the middle-west farmer will be a reality in a few weeks, according to Nelson B. Updike, publisher of the Omaha Bee, who was a caller at the executive office at the White House today.

"I found that President Coolidge had already taken a most of aiding the middle-west farmer will be a reality in a few weeks, according to Nelson B. Updike, publisher of the Omaha Bee, who was a caller at the executive office at the White House today.

"The president presented me with a copy of a letter from Attorney General Hurry M. Daugherty, replying to an inquiry by the president as to the preliminary steps necessary to impose a higher wheat tariff. The letter from Mr. Daugherty, stating that first an investigation must be made by the United States tariff commission before proclamation could be issued for a higher tariff, was dated November 15, and it was the day following that the investigation by the commission was started. It indicated that the president means business and is doing everything to expedite relief of the middle-west farmer.

### All Information at Hand.

"There is little doubt that the investigation will be short, and I know that it will result in developing facts that will warrant the president in increasing the duty on wheat. In fact, all the information which the commission has announced it desired in its present investigation into the wheat situation is already in the hands of the United States Department of Agriculture, which for several months has made a thorough investigation of its own along exactly the same lines.

### Expect Lower Freight Rates.

"The president emphasized the fact that if the investigation showed facts to justify the higher tariff, as it is my opinion it will prove, the higher tariff will be only for the purpose of meeting the present emergency in the wheat belt. Meantime, everything will be done to avert a similar condition among wheat growers in the future. The president gave assurance that every facility was being pressed into service to carry on an investigation of proposed plans for permanent relief of wheat farmers such as pushing to completion an investigation for the purpose of readjusting and lowering freight rates on export wheat and wheat products.
