# "IF WINTER COMES"

"IF WINTER COMES," the feature picture now showing (second week) at the SUN THEATRE, forcefully brings home to all of us that Winter Will Come. Buying the winter's fuel supply, equipping the house for hours of indoor comfort and enjoyment, outfitting the family in warm, seasonable clothing, providing adequate heating equipment and installing the latest radio receiving set with a loud speaker—all of these winter preparations will be made easy if you patronize these advertisements.

**Additional Prize Winners**

The following contestants who submitted "Reviews" are entitled to two tickets each to the Sun Theater. Tickets will be mailed to them by the Sun Theater.

#### PRIZE-WINNING REVIEWS

#### "If Winter Comes"

A Review of the William Fox Production, Directed by Harry Millarde

GLADYS ROBERTS, 3205 Poppleton Ave., Omaha, Neb. The average reader of Mr. Hutchinson's work would not upon first thought consider it material for a cinema masterpiece, but such it is as shows the William Fox production, directed by Harry Millarde. The book deals with the mental life of Mark Sabre, harassed and tortured by the pressure of events and of his fellow men. It is just this exposition of intellectual processes which makes the picture so convincing. "If Winter Comes" shows the definite and ultimate trend of the cinema of the future, if it is to attain its highest end, the mirroring of life; a discard of all useless action, needless mobs and garish expenditures--and a gain of simplicity, art, truth and beauty.

The various incidents of the book are filmed faithfully and accurately, with added interest in the fact that the exterior scenes were made in England. Despite the picture following the story so carefully, dramatic construction is not sacrificed--there are no unnatural nor forced scenes. In fact one feels that the story almost tells itself as inexorable as fate. Mr. Millarde's direction is both reverent and firm. Never is one conscious of the director or of the camera. After seeing Mr. Percy Marmont as Sabre, it would indeed be difficult to visualize anyone else in the role. He lives Sabre and is Sabre, as fine and constructive a piece of acting as the screen has known. Miss Ann Forrest plays fine, high-spirited Lady Tybar with both verve and dignity. Miss Margaret Fielding as Mabel and Miss Gladys Leslie as Ann Bright are excellent. The Misses Jinks, High and Low, offer effective comic relief. Surely this production, so worthily and assiduously done cannot be bettered.

MRS. M. F. TOWSLEE, 702 Cross St., Council Bluffs, Ia. The screen version of "If Winter Comes" is a wonderful portrayal of book characters to the screen. The story has been filmed word for word and scene for scene as it was written and it thrills the spectator, for it is so alive you forget you are looking at a picture and you live and move with them. The characters are so vividly pictured true to life that you laugh and cry with them, the same as you did when you read the book. Percy Marmont as Mark Sabre makes you feel as if you were living his life and seeing it through his experiences. Margaret Fielding is as chilly and unsympathetic a wife as the book Mabel is--while on the other hand, Ann Forrest is as lovable and sympathetic as Nona, herself. Sydney Herbert acts and look the character, Twining, to perfection and all the other characters are living versions of the book. It is as near a perfect translation of book to screen as has ever been produced. The atmosphere is all English, book and screen. The book is a character study--the screen portrayal is true to that ideal and the actors and actresses have brought out these characters in such a wonderful way that you live with the screen people all through the scenes and the turbulent emotions that seethe through the minds and souls of each one, especially Mark Sabre. If you loved the book you will love the picture. The picture shows the soul as the book describes it.

J. LESTER SMITH, 508 South 28th St., Omaha, Neb. One having read the book, "If Winter Comes," by A. S. M. Hutchinson and later having seen the screen version, cannot but be impressed with the vital difference existing between the two. The written story appears pale and cold in comparison. The reviewer, after reading this work, pronounced it a classic. The picture story is also a classic, throbbing with a heart interest from start to finish. The theme of the story is handled with great delicacy, and told with an exquisite feeling that cannot offend the most sensitive taste--to this the screen has added a human touch, a human vitality, breathing life into the visionary. To sum it all in a very few words--the screen version gives the written story--what fragrance gives to a beautiful rose, what animation gives to a beautiful face and what personality gives to an individual.
