

### Child Welfare Plans Formed by Commission

#### Effort to Be Made to Bring Child Legislation to Standard of Other States.

Des Moines, Ia., Nov. 29.—Plans for codification of Iowa child legislation, to bring it abreast with that of other states and to bring about needed reforms in that field, were made yesterday at the organization meeting of the Iowa child welfare commission, appointed last week by Gov. N. E. Kendall.

The commission named J. B. Weaver of Des Moines, chairman; Miss Caroline Forgrave, Perry, vice chairman; Mrs. Frances E. Whitney, Webster City, secretary, and Wesley Johnson, Dayton, treasurer.

The commission adopted a budget calling for \$3,980 with which to carry on the first year's work. Five hundred dollars was put at the commission's disposal today by the Iowa conference of social work.

The remainder will be raised by private subscription.

Views of organizations and individuals interested in child welfare will be sought by the commission, after which a public meeting will be held, at which reforms and new legislation will be discussed.

One of the reforms that will be urged upon the legislature by the commission is revision of the state adoption laws. Iowa and Texas are the only two states, it was said, in which a child may be adopted without judicial procedure.

In a letter to the commission, Governor Kendall declared that the duty of that body is to draft essential child legislation, "proposed because of definite and positive need," and promised that the state would not be recalcitrant in putting worth while measures into its statutes.

### Cleveland's Chances for G. O. P. Convention Good

Cleveland, O., Nov. 29.—Cleveland's chances of obtaining the national republican convention next summer are still very good, according to Congressman Theodore E. Burton, who has laid plans before the Cleveland convention committee for a final drive to obtain the national gathering.

Reports that Chicago had practically been selected are far from squaring with the facts, Congressman Burton said.

A delegation to reinforce presentation of Cleveland's case before the national republican committee, December 11, by Congressman Burton and Carmi A. Thompson probably will be sent to Washington.

### Writ Prevents Return of Cockburn to Iowa

Jefferson City, Mo., Nov. 29.—The supreme court Wednesday of the Missouri supreme court granting Russell K. Cockburn, patient at the United States veterans' hospital in St. Louis county, Missouri, a writ of habeas corpus by which his extradition to Des Moines, Ia., where he is wanted in connection with an alleged \$86,000 city payroll padding, has been forestalled, brings to an end a legal fight which has been carried through all courts of the state.

While the writ was a permanent one, a hearing has been set by the state supreme court for December 4 in order to determine whether extradition can be executed, in view of the fact that Cockburn is now on government property and in view of the fact that his attorney maintained that Cockburn was ordered by the federal government to the federal hospital and did not go there on his own volition.

### New Zealand Premier Urges Bond With U. S.

Belfast, Nov. 29.—Premier Massey of New Zealand, speaking here today, declared the day of universal peace would be brought a great deal nearer if Great Britain and America could be induced to stand together for one purpose and one purpose only. It was for them to say to those nations inclined to draw the sword that disputes between nations must be settled by an international court of arbitration.

Until that time had come, however, he declared that Great Britain should provide sufficient naval defense against a case of need.
