

Corn Facts Are Address Topic

Editor Tells Kiwanians Too Much Attention Is Given to Wheat.

"Corn is king," said R. B. Wallace, associate editor of the Mid-West Hotel Reporter, before the Kiwanis club Friday noon. "We are getting mixed on our facts and figures and paying too much attention to wheat. "Wheat production is only 6 per cent of farm produce, and Nebraska, the third in corn production, sits quietly and says nothing about it. Omaha is indeed the 'buckle in the cornbelt,' but we are not keeping it polished as we should. "I venture that not half a dozen public dining rooms in Omaha have corn bread on their tables today, and

you would be surprised if your wife had it tonight or served you fried mush for breakfast. "The corn grower has the factory for consuming the raw product on his farm. Corn fed to hogs and cattle is worth 50 per cent more than when sold as grain. "The poultry of Nebraska today is worth fully as much as the wheat crop, yet no one has heard of any effort to subsidize the farmers' wives on the price of chickens and eggs. "Nebraska's corn crop this year is 44 per cent greater than last year, or the value of the increase is greater than the total value of the state's wheat crop. "The nation's corn crop this year is 2,577,000,000 bushels. The 10 leading corn producing states—Iowa, Illinois, Nebraska, Missouri, Indiana, Ohio, Minnesota, South Dakota and Kansas—produce more than 2,000,000,000 bushels of that total, and the three leading states 49 per cent of the corn product of the 10 leaders." Robbers Outwit Police in Chase

Pursuers Lose Trail When Lights of Bandit Car Are Darkened.

Lincoln, Nov. 30.—A band of robbers who Friday night made an attempt to rob the Cornhusker garage here, escaped a squad of motorcycle police early Saturday morning by driving a high-powered automobile over country roads south of the city at a speed which at times exceeded 60 miles an hour, according to the police. The last few miles of the chase, the police said, were driven by the bandits without headlights. The bandits, who had turned out their lights after a desperate race with the police for about six miles, eluded their pursuers at a branch

road eight miles south of here, when, because of there being no light to guide them, and the dust from the fleeing car almost blinding them, the police could not see the fleeing automobile and were forced to abandon the chase. It is believed by the police that the gang is the same that later in the morning cracked the safe in the office of the Evans Laundry company here and escaped with cash and checks estimated at more than \$500. The police say the gang which was chased had plenty of time to return to the city and pull off the second job.

La Follette Too Ill to Attend Congress

Washington, Nov. 30.—Senator Robert M. La Follette, republican, of Wisconsin, is so ill that he will not be able to attend the opening of the 68th congress, it was announced here today. The veteran Wisconsin sen-

ator is confined to his bed with an attack of influenza and cold. Betsy Ross Wins!

Given Highest Score in Laboratory Test

EACH month a nationally prominent food laboratory conducts a contest to determine bread quality. Each month Bakers from coast to coast submit loaves of their baking, for examination and scoring. Each month the bread winning highest score is awarded the Harry M. Freer Trophy for quality. Last month, out of the two hundred and more loaves submitted BETSY ROSS stood out over the others—far superior in quality. The fine materials and the scientific care entering into the baking of BETSY ROSS have made it a leader—a loaf without a peer. The winning of the Harry M. Freer Trophy by BETSY ROSS is more than merely winning a prize. It is proof that "there's a difference in bread" and that your bread is the superior to hundreds of loaves judged—loaves submitted by many of the country's leading bakers. This impartial proof of quality will undoubtedly convince you that to secure the best you should always ask for BETSY ROSS by name.
