## Prosperity Seen by Residents of Western Nebraska

to Show Improvement, Especially in Irrigated Districts.

Gering, Neb., Dec. 30.-Everywhere in western Nebraska is reflected an increasing confidence in the business future. Interviews with merchants in a score of towns, especially in irrigated districts, reveal the fact that business grew better rapidly from early fall until the year wound up with the biggest holiday business enjoyed for several years.

A pall of gloom settled over west-

ern Nellraska when the wheat crop showed a poor yield, and in some places a complete failure. But the greatest corn crop in the history, with a price better than anticipated, served to lift the cloud and bring in-creasing confidence in the future. Stock business has shown a steady improvement and, with huge corn and dalfalfa crops harvested, shipment of feder cattle and sheep into this immediate section has been heavier or several years. The number of cattle being fed at the four sugar factorie in the North Platte valley is numally large.

Fc the first time in years the Western Sugar company and e peet growers have reached an out ong delays. This is the first d upon before January 1, and the wil be evidenced by a beet ver planted in the valley. Cons for several years past have on a siding scale, last year's tract providing for an initial pay-at of \$5.00 per ton, contingent upthe sugar market. The total pay-

The 1923 contract was for an initial Wife Sees Husband payment of \$5.50 a ton, with the same sliding scale provision. Already the company has paid an additional \$1 a on, and if the present sugar market holds up until October of next year points favorably to the erection of another sugar factory in the near future.
