California Senator in Opening Address of Presidential Campaign Turns Guns on Administration

Advocates Tax Reduction

By Associated Press. Cleveland, Jan. 3 .- A bitter attack on the republican national committee for its action in increasing southern delegate representation to the na tional convention, a big gun bombardment against the administration for supplying arms and ammunition to the Obregon forces in Mexico and a thrown gauntlet to the Ohio state central committee, which endorsed President Coolidge for the republican nomination, marked the opening address of Senator Hiram Johnson of California in his campaign for the presidential nomination here today.

enator Johnson also made a fron tal attack on the foreign policy of the administration, reiterated his Chi cago speech insofar as it referred to is unqualifiedly favoring a soldiers' bonus, cautioned the people to look carefully into the Mellon taxation plan, although advocating a reduction in taxes in no uncertain terms advocated help for farmers by lower ing of freight rates and co-operative societies and finished with a scathing arraignment of those who would have the country join in the world

"I recently have observed that certain . people, including the Detroit manufacturer. have deplored that we should have an election this year." said Senator Johnson, "and perhaps at all; and many politicians denounce me cause I have interfered with the serenity of the occasion and have not permitted their plans for a nomination by default to be consummated. representation." "I speak of this outrageously unfair selection of delegates because there is real service we can render," said the senator. These southern delegates are selected by commands issued in Washington to very few federal office holders in the ferent states. The action of the national committee is a reversion to the abhorrent conditions from which we thought we had emerged. It is
